Developing Heritage - Developing Countries Marie Huber, 2020-11-23 The history of development has paid only little attention to cultural projects This book looks at the development politics that shaped the UNESCO World Heritage programme with a case study of Ethiopian World Heritage sites from the 1960s to the 1980s In a large scale conservation and tourism planning project selected sites were set up and promoted as images of the Ethiopian nation This story serves to illustrate UNESCO's role in constructing a useful past in many African countries engaged in the process of nation building UNESCO experts and Ethiopian elites had a shared interest in producing a portfolio of antiquities and national parks to underwrite Ethiopia's imperial claims to regional hegemony with ancient history The key findings of this book highlight a continuity in Ethiopian history despite the political ruptures caused by the 1974 revolution and UNESCO's transformation from knowledge producer to actual provider of development policies The particular focus on the bureaucratic and political practices of heritage bridges a gap between cultural heritage studies and the history of international organisations The result is a first study of the global discourse on heritage as it emerged in the 1960s development decade

Tourism Development in India Kevin Hannam, 2011 Tourism to and within India has undergone some important changes in recent years seen by the rising numbers of international tourists and increase in domestic tourism This has led to the redevelopment and rebranding of many of its destinations as the Indian government has begun to recognise the potential importance of tourism to the Indian economy and has begun to invest in tourism infrastructure It is also recognised that as its economy continues to grow at a rapid rate India will also become one of the most important countries in terms of future outbound tourism Tourism and India is the first book to specifically focus on and fully analyze the issues facing contemporary India both as a destination and a potential source of tourists The book analyses previous research and applies critical theory to key aspects of tourism in this region and supports this with a wide range of examples to illustrate the key conceptual points As such the book examines aspects of tourism in India including tourism governance cultural tourism heritage tourism nature based tourism from the supply side and international tourism domestic tourism outbound tourism and the Indian Diaspora from the demand side This

Stone, 2024-05-20. This book discusses opportunities, costs and governance issues within the wildlife tourism space in Southern Africa. Wildlife tourism is a very important sector in Southern Africa. As such, the book discusses sustainable economic benefits local communities derive from wildlife tourism while also supporting wildlife conservation. It addresses several contemporary issues that have affected wildlife tourism focusing on different countries in the region. These issues include international agreements such as CITES, the decline in wildlife species and reactions from the international community, human-wildlife conflicts and conflicts between states, indigenous communities living adjacent to protected areas, hosting wildlife and how to address these. As such, the book is a useful resource for researchers, tourism stakeholders, policy makers and students, especially those studying natural resource management, tourism and development and sustainable development in Southern Africa and other parts of the developing world.

Urban Tourism in China Mimi Li, Wu Bihu, 2013-09-13. China has witnessed a dramatic development of tourism in urban context in the past thirty years, especially with its success in hosting the Beijing Olympic Games in 2008 and the Shanghai World Exposition in 2010. Urban areas as tourism destinations are receiving increasingly more popularity than traditional destinations such as national parks, natural reserves and historical relics. Deriving largely from a special issue on Urban Tourism Development and City Destination Marketing, *Journal of China Tourism Research*, *Urban Tourism in China* presents the readers with a collection of nine independent research reports examining issues such as consumer behaviour in urban destinations, the social impact of tourism, destination image, leisure, regional collaboration and heritage tourism in ancient towns. The investigations covered urban areas of different scales and diversified nature from major metropolises such as Beijing and Guangzhou to ancient towns like Lijiang and Pingyao. Readers who have interests of tourism research, business development and in-depth understanding of urban life in China may find the book informative and interesting. This book was published as a special issue of the *Journal of China Tourism Research*.

Political Economy of Tourism Jan Mosedale, 2010-01-11. Political economy in its various guises and transfigurations is a research philosophy that presents both social commentary and theoretical progress and is concerned with a number of different topics: politics, regulation and governance, production systems, social relations, inequality and development amongst many others. As a critical theory, political economy seeks to provide an understanding of societies and of the structures and social relations that form them in order to evoke social change toward more equitable conditions. Despite the early influence of critical development studies and political economy on tourism research, political economy has received relatively little attention in tourism research. *Political Economy and Tourism*, the first volume to bring together different theoretical perspectives and discourse in political economy related to tourism. Written by leading scholars, the text is organised into three sequential Parts linked by the

principle that the political and the economic are intimately connected Part one presents different approaches to political economy including Marxist political economy regulation comparative political economy commodity chain research and alternative political economies Part two links key themes of political economy such as class gender labour development and consumption to tourism and Part three examines the political economy at various geographical scales and focuses on the outcomes and processes of the political act of planning and managing tourism production This engaging volume provides insights and alternative critical perspectives on political economy theory to expand discussions of tourism development and policy in the future Political Economy and Tourism is a valuable text for students researchers and academics interested in Tourism and related disciplines

Tourism and Sustainability Martin Mowforth, Ian Munt, 2015-12-22 By January 2015 the world's richest 80 people had as much wealth as the poorest 50 per cent of the world's population It is a global unevenness through which the barriers to immigration of Third World migrants to wealthy First World nations go ever higher while the barriers to travel in the reverse direction are all but extinct So how exactly does tourism contribute to narrowing this glaring inequality between the rich and poor Are ever expanding tourism markets a smoke free socioculturally sensitive form of human industrialisation Is alternative tourism really a credible lever for reducing global inequality and eliminating poverty Tourism and Sustainability critically explores the most significant universal geopolitical norms of the last half century development globalisation and sustainability and through the lens of new forms of tourism demonstrates how we can better get to grips with the rapidly changing new global order The fourth edition has been extensively revised and updated and benefits from the addition of new material on climate change and tourism Drawing on a range of examples from across the Third World Mowforth and Munt expertly illustrate the social economic and environmental conditions that continue to affect the tourism industry With the first edition hailed by Geoffrey Wall as one of the most significant books produced on tourism since the turn of the millennium Tourism and Sustainability remains the essential resource for students of human geography environmental sciences and studies politics development studies anthropology and business studies as well as tourism itself

Making Capitalism in Rural China Michael John Webber, 2012-01-01 This stimulating and challenging book explores the duplicitous nature of development in China On the positive side it brings longer and healthier lives fewer children dead before they are five years old more comfort and security from famine and disaster more education more communication more travel less war But from another darker perspective development brings violence to some people those who are in the way of the new things those who cannot adapt to the new ways and it threatens old knowledges habits and societies as it disrupts old power structures Michael Webber presents fascinating case studies that demonstrate what these forms of development mean for people who are relatively weak or powerless those who post colonial theorists call the subalterns The cases illustrate how development can change the manner in which people relate to each other and threatens their entire environment Through this detailed consideration of the impacts of development on the people who live in those places he

examines whether these changes represent the emergence of capitalism or a transition develops a theory of relationships between economy and daily life and questions the very nature of Chinese capitalism This multidisciplinary study encompasses the social sciences to provide a coherent view of the forms that development takes in various places within rural China As such it will prove a fascinating and thought provoking read for undergraduates postgraduate students and researchers within economics Asian studies development studies and geography Tourism and Sustainability Marti Mowforth,2008 Modern Hinduism Torkel Brekke,2019 A collection of original essays on modern Hinduism written by key international scholars *Overtourism and Tourism Education* Hugues Séraphin,Anca C. Yallop,2020-11-05 Since 2017 the term overtourism has become the buzzword for destinations suffering the strain of tourism It is a critical issue for the 21st century and beyond and to date has only been examined from a tourism industry perspective This book takes a different stand by investigating overtourism from a tourism education perspective The recent global COVID 19 pandemic was expected to halt travel and arguably overtourism However industry experts and researchers share the opinion that instead of declining overtourism is simply experiencing a shift with a swarm of second home and domestic travel that is likely to engulf many tourism destinations Against this backdrop the issue of overtourism remains relevant and studies on ways to cultivate responsible consumer mindsets to deal with overtourism and other sustainability issues in the tourism industry are called for This book focuses on education as a transformative and strategic tool to tackle overtourism and related negative impacts It presents original research on the topics of overtourism education and sustainability and puts forward a range of practical and transformative tourism education strategies to mitigate overtourism and to promote the sustainable development of destinations This book will be of great interest to upper level students researchers and academics in tourism development studies cultural studies and sustainability as well as professionals in the field of tourism management *Selling Black Brazil* Anadelia Romo,2022-01-18 2023 Honorable Mention Brazil Section Humanities Book Prize Latin American Studies Association LASA This book explores visual portrayals of blackness in Brazil to reveal the integral role of visual culture in crafting race and nation across Latin America In the early twentieth century Brazil shifted from a nation intent on whitening its population to one billing itself as a racial democracy Anadelia Romo shows that this shift centered in Salvador Bahia where throughout the 1950s modernist artists and intellectuals forged critical alliances with Afro Brazilian religious communities of Candomblé to promote their culture and their city These efforts combined with a growing promotion of tourism to transform what had been one of the busiest slaving depots in the Americas into a popular tourist enclave celebrated for its rich Afro Brazilian culture Vibrant illustrations and texts by the likes of Jorge Amado Pierre Verger and others contributed to a distinctive iconography of the city with Afro Bahians at its center But these optimistic visions of inclusion Romo reveals concealed deep racial inequalities Illustrating how these visual archetypes laid the foundation for Salvador's modern racial landscape this book unveils the ways ethnic and racial populations have been both included and

Handbook of Tourism and Quality-of-Life Research Muzaffer Uysal, Richard Perdue, Joseph Sirgy, 2012-01-07 Quality of life QOL research in tourism has gained much momentum over the last two decades. Academics working in this area research issues related to tourists and host communities. Practitioners are becoming increasingly interested in understanding the science that allows them to develop better marketing and managerial programs designed to enhance the quality of life of tourists. Tourism bureaus and government agencies are increasingly interested in issues of sustainable tourism specifically in understanding and measuring the impact of tourism on the quality of life of the residents of the host communities. This handbook covers all relevant topics and is divided into two parts: research relating to travelers/tourists and research relating to the residents of host communities. It is the only state-of-the-art reference book in its field and will prove invaluable to academics interested in QOL research as well as tourism practitioners interested in applying the science of QOL in the tourism industry.

New Forms of Consumption Mark Gottdiener, 2000-11-01 Consumption as a field of cultural studies overlaps with theories of postmodernism the social construction of self commodification in late capitalism and the role of mass media in daily life New forms of consumption such as those facilitated by cyberspace themed environments the commodification of sex and the increasing role of leisure in society all play new and interesting roles in daily life that combine consumerism with the most contemporary social forms This collection of essays examines the recent ways in which consumerism has been approached by cultural studies with special emphasis given to these and other newly emerging topics The book is divided into three parts The first part provides a theoretical overview of consumption studies dealing with classical and more contemporary approaches in light of the debate between advocates and critics of postmodernism In this section there are papers on McDonaldization tourism and cultural studies and the Theory of Shopping The second part emphasizes empirical studies of the commodification process Papers address the transformation of women's bodies and the mass commodification of milk the creation of the toddler as a subject and the commodification of childhood the commodification of sports and the commodification of rock music The third section of the book explores new forms of consumption on a more detailed and concentrated level Papers in this section include the rise of sex tourism as a global industry the commodification of the sacred and the emergence of new consumer spaces in the city An introduction by the editor delineates the advantages of his approach to new forms of consumption based squarely in the emerging issues of cultural studies debates transcending postmodernism and the society of the spectacle
