

Body Biography Directions

(100 Point Project)

What is a body biography?

A body biography is a combination of artwork and writing (quotes from the novel and your own explanations of those quotes). You will decorate your body biography according to the requirements listed below to demonstrate your understanding of this character. Please note: your body biography is not suppose to be a literal representation of your character. Instead, it should be more like a giant collage of written ideas, drawings, and symbols that work together to show us how well you understand your character, but we also want you to be CREATIVE!

What is the purpose?

The purpose behind creating a body biography is to allow you to take a **DEEP** look at one character from the story. You will have to review significant events, choices that your character made, and changes that your character went through internally within the course of the novel. You will have to take a serious look into what makes your character tick – what motivates your character, how your character feels about himself/herself at the beginning of the novel, and how those feelings may have changed by the end of the novel.

How do we create a body biography?

Small group Instructions (For individuals you will get a standard sized piece of paper)

For your chosen character, you and a partner will create a body biography- a visual (body template) and written portrait, illustrating several aspects of the character's life within the novel. You will then present your life-size visual presentation to the class and you will also evaluate the work of other groups. I will provide 6 feet x 3 feet strips of white paper, colored construction paper, glue sticks, scissors, markers, crayons and colored pencils. If you wish to use other materials, you will need to bring them from home. Make sure you display your character's name prominently on the body outline paper.

1. One of you will need to be the "body".
2. Have that person lie down on the paper.
3. Trace the **outline** of the person's body (body template).
4. Then choose the best way to represent the following aspects of the character symbolically:

to the question of how diaries and these essays display Philippe Lejeune's expertise, eloquence, passion, and humor as a commentator on the functions, practices, and significance of keeping or reading a diary. Lejeune is a leading European critic and theorist of diary and autobiography. His landmark essay *The Autobiographical Pact* has shaped life writing studies for more than thirty years, and his many books and essays have repeatedly opened up new vistas for scholarship. As Michael Riffaterre notes, Lejeune's work on autobiography is the most original, powerful, effective approach to a difficult subject. His style is very personal, lively. It grabs the reader as scholarship rarely does. Lejeune's erudition and methodology are impeccable. Two substantial introductory essays by Jeremy Popkin and Julie Rak place Lejeune's work within its critical and theoretical traditions and comment on his central importance within the fields of life writing, literary genetic studies, and cultural studies.

The Value of Hawai'i 2 Aiko Yamashiro, Noelani Goodyear-Ka'ōpua, 2014-03-31 How can more of us protect and create waiwai (value) for coming generations? Culturally rich education. Holistic health systems. Organic farming and aquaculture. Creative and conscious urban development. Caring for one another across difference. Telling our stories. Continuing the conversation of *The Value of Hawai'i: Knowing the Past, Shaping the Future*, this new collection offers passionate and poignant visions for our shared futures in these islands. The fresh voices gathered in this book share their inspiring work and ideas for creating value, addressing a wide range of topics: community health, agriculture, public education, local business, energy, gender, rural lifestyles, sacred community, activism, storytelling, mo'olelo, migration, voyaging, visual art, music, and the *ina* we continue to love and *mālama*. By exploring connections to those who have come before and those who will follow after, the contributors to this volume recenter Hawai'i in our watery Pacific world. Their autobiographical essays will inspire readers to live consciously and lead as island people.

Locating Life Stories Maureen Perkins, 2012-09-30 The thirteen essays in this volume come from Australia, China, India, Indonesia, Iraq, Malaysia, South Africa, and Hawai'i. With a shared focus on the specific local conditions that influence the ways in which life narratives are told, the authors engage with a variety of academic disciplines, including anthropology, history, media studies, and literature, to challenge claims that life writing is an exclusively Western phenomenon. Addressing the common desire to reflect on lived experience, the authors enlist interdisciplinary perspectives to interrogate the range of cultural forms available for representing and understanding lives.

Ezra Pound John Tytell,2013-02-06 Unlike other biographical portraits of Ezra Pound John Tytell s brilliant and ambitious work offers an interpretive study that boldly confronts the emotional truths and psychological drama that formed this complex and controversial American poet Neither an apology nor a condemnation it presents instead a meticulous exploration into the mind and vision of a man who galvanized a generation and challenged an entire literary and world establishment Although he enjoyed little fame in his lifetime Pound s notoriety and influence were enormous as he arrogantly slashed away at convention and almost single handedly brought about the twentieth century revolution in poetry known as modernism Ultimately outrage and scandal turned his art to madness and Pound s last years saw him fall tragically silent
