

The background of the entire image is a scenic photograph of a calm lake. In the foreground, there are branches with bright yellow and orange autumn leaves. The lake's surface is still, reflecting the blue sky and the surrounding landscape. In the distance, a shoreline with trees and some buildings is visible under a clear blue sky with a few wispy clouds. Overlaid on the upper half of the image is a large, rounded rectangular red box with a thin gold border. Inside this box, the words "New England" and "Seasons" are written in a large, white, serif font, stacked one above the other. Below this box, centered on the lake, is a smaller, rounded rectangular red box with a thin gold border containing the year "2025" in a white, serif font.

Schoelwer, 2012-01-01 Winner of the Connecticut Book Award 2011 Winner of the Connecticut League of History Organizations Award of Merit 2012 Connecticut women have long been noted for their creation of colorful and distinctive needlework including samplers and family registers bed rugs and memorial pictures crewel embroidered bed hangings and garments silk embroidered pictures of classical or religious scenes quilted petticoats and bedcovers and whitework dresses and linens This volume offers the first regional study encompassing the full range of needle arts produced prior to 1840 Seventy entries showcase more than one hundred fascinating examples many never before published from the Connecticut Historical Society's extensive collection of this early American art form Produced almost exclusively by women and girls the needle arts provide an illuminating vantage point for exploring early American women's history and education including family based traditions predating the establishment of formal academies after the American Revolution Extensive genealogical research reveals unseen family connections linking various types of needlework similar to the multi generational male workshops documented for other

artisan trades such as woodworking or metalsmithing Photographs of stitches reverse sides sketches design sources and related works enhance our understanding and appreciation of this fragile art form and the talented women who created it An exhibition of needlework in this book will be held at the Connecticut Historical Society in late fall 2010 Funding for this project has been provided by the Coby Foundation Ltd and the National Endowment for the Arts *Song and Season* Eleanor Selfridge-Field, 2007 Two systems of timekeeping were in concurrent use in Venice between 1582 and 1797 Government documents conformed to the Venetian year beginning 1 March church documents to the papal year from 1 January *Song and Season* defines the many ways in which time was discussed resolving a long standing fuzziness imposed on studies of personnel institutions and cultural dynamics by dating conflicts It is in this context that the standardization of timekeeping coincided with the collapse of the *dramma per musica* and the rise of scripted comedy and the opera buffa Selfridge Field discloses fascinating relationships between the musical stage and the cultures it served such as the residues of medieval liturgical feasts embedded in the theatrical year Such associations were transmuted into lingering seasonal associations with specific dramatic genres Interactions between culture and chronology thus operated on both general and specific levels Both are fundamental to understanding theatrical dynamics of the sixteenth to eighteenth centuries

Levees and the National Flood Insurance Program National Research Council, Division on Earth and Life Studies, Water Science and Technology Board, Committee on Levees and the National Flood Insurance Program: Improving Policies and Practices, 2013-07-18 The Federal Emergency Management Agency's FEMA Federal Insurance and Mitigation Administration FIMA manages the National Flood Insurance Program NFIP which is a cornerstone in the U S strategy to assist communities to prepare for mitigate against and recover from flood disasters The NFIP was established by Congress with passage of the National Flood Insurance Act in 1968 to help reduce future flood damages through NFIP community floodplain regulation that would control development in flood hazard areas provide insurance for a premium to property owners and reduce federal expenditures for disaster assistance The flood insurance is available only to owners of insurable property located in communities that participate in the NFIP Currently the program has 5 555 915 million policies in 21 881 communities³ across the United States The NFIP defines the one percent annual chance flood 100 year or base flood floodplain as a Special Flood Hazard Area SFHA The SFHA is delineated on FEMA's Flood Insurance Rate Maps FIRM's using topographic meteorologic hydrologic and hydraulic information Property owners with a federally back mortgage within the SFHAs are required to purchase and retain flood insurance called the mandatory flood insurance purchase requirement MPR Levees and floodwalls hereafter referred to as levees have been part of flood management in the United States since the late 1700's because they are relatively easy to build and a reasonable infrastructure investment A levee is a man made structure usually an earthen embankment designed and constructed in accordance with sound engineering practices to contain control or divert the flow of water so as to provide protection from temporary flooding A levee system is a flood

protection system which consists of a levee or levees and associated structures such as closure and drainage devices which are constructed and operated in accordance with sound engineering practices Recognizing the need for improving the NFIP's treatment of levees FEMA officials approached the National Research Council's NRC Water Science and Technology Board WSTB and requested this study The NRC responded by forming the ad hoc Committee on Levee and the National Flood Insurance Program Improving Policies and Practices charged to examine current FEMA treatment of levees within the NFIP and provide advice on how those levee related policies and activities could be improved The study addressed four broad areas risk analysis flood insurance risk reduction and risk communication regarding how levees are considered in the NFIP Specific issues within these areas include current risk analysis and mapping procedures behind accredited and non accredited levees flood insurance pricing and the mandatory flood insurance purchase requirement mitigation options to reduce risk for communities with levees flood risk communication efforts and the concept of shared responsibility The principal conclusions and recommendations are highlighted in this report
