Nightmares Hobbyhorses Swift Sterne:

Nightmares and Hobbyhorses: Swift, Sterne, and Augustan Ideas of Madness Michael V. DePorte, 1974 For students of the psychology and medicine of the Augustan age as well as to those interested in its literature Swift's Parody Robert Phiddian, 1995-11-09 An exploration of parody in Swift's early prose and in textual and cultural developments in Swift's Britain **The Idea of Disability in the Eighteenth Century** Chris Mounsey, 2014-03-21 The Idea of Disability in the Eighteenth Century explores disabled people who lived in the eighteenth century The first four essays consider philosophical writing dating between 1663 and 1788 when the understanding of disability altered dramatically We begin with Margaret Cavendish whose natural philosophy rejected ideas of superiority or inferiority between individuals based upon physical or mental difference We then move to John Locke the founder of empiricism in 1680 who believed that the basis of knowledge was observability but who faced with the lack of anything to observe broke his own epistemological rules in his explanation of mental illness Understanding the problems that empiricism set up Anthony Ashley Cooper Lord Shaftesbury turned in 1711 to moral philosophy but also founded his philosophy on a flaw He believed in the harmony of the aesthetic trinity of beauty truth and virtue but he could not believe that a disabled friend whom he knew to have been moral before his physical alteration could change inside Lastly we explore Thomas Reid who in 1788 returned to the body as the ground of philosophical enquiry and saw the body as a whole complete in itself and wanting nothing but it missing a sense Reid was deaf or a physical or mental capacity At the heart of the study of any historical artifact is the question of where to look for evidence and when looking for evidence of disability we have largely to rely upon texts However texts come in many forms and the next two essays explore three types the novel the periodical and the pamphlet which pour out their ideas of disability in different ways Evidence of disabled people in the eighteenth century is sparse and the lives the more evanescent The last four essays bring to light little known disabled people or people who are little known for their disability giving various forms of biographical accounts of Susanna Harrison Sarah Scott Priscilla Poynton and Thomas Gills who are all but forgotten in the academic world as well as to public consciousness **Women's Place in Pope's World** Valerie Rumbold, 1989-09-29 How was Alexander Pope's personal experience of women transformed into poetry How characteristic of his age was Pope's attitude toward women What was the influence of individual women such as his mother Patty Blount and Lady Mary Montagu on his life and work Valerie Rumbold's is the first full length study to address these issues Referring to previously unexploited manuscripts she focuses both on Pope's own life and art and on early eighteenth century assumptions about women and gender She offers readings of some of the well known poems in which women feature prominently and follows Pope's response throughout his writings in general The poet's own alienation from the dominant culture through religion politics and physical handicap and his troubled fascination with certain kinds of women make this subject complex and compelling with wide implications Dr Rumbold provides new insight and shows how women with whom Pope dealt can

themselves be seen as individuals with presence and dignity

Hysteria Beyond Freud Sander L. Gilman, Helen King, Roy Porter, G. S. Rousseau, Elaine Showalter, 2024-03-29 She s hysterical For centuries the term hysteria has been used by physicians and laymen to diagnose and dismiss the extreme emotionality and mysterious physical disorders presumed to bedevil others especially women How did this medical concept assume its power What cultural purposes does it serve Why do different centuries and different circumstances produce different kinds of hysteria These are among the questions pursued in this absorbing erudite reevaluation of the history of hysteria The widely respected authors draw upon the insights of social and cultural history rather than Freudian psychoanalysis to examine the ways in which hysteria has been conceived by doctors and patients writers and artists in Europe and North America from antiquity to the early years of the twentieth century In so doing they show that a history of hysteria is a history of how we understand the mind This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1993

Grace Overwhelming Anne Dunan-Page, 2006 Religions and Discourse explores religious language in the major world faiths from various viewpoints including semiotics pragmatics and cognitive linguistics and reflects on how it is situated within wider intellectual and cultural contexts In particular a key issue is the role of figurative speech Many fascinating metaphors originate in religion e g revelation as a garment apostasy as adultery loving kindness as the circumcision of the heart

Designs on Truth Gregory G. Colomb, 1992-09-01 Designs on Truth provides a reinterpretation of Augustan poetry not as works to be defended before the court of Matthew Arnold and the Romantic tradition but as works that examine the rich relationships among text culture and world In Designs on Truth Gregory Colomb identifies the characteristics of the mock epic and argues that the form had developed formal expectations In making this argument he explains the intentions of the writers of mock epics and expands our conception of the interest and significance of such poems By demonstrating how these poems are supported by the genre s poetics he brings out ways these poems differ from other Augustan poems such as the Horatian epistles that are often discussed with them Designs on Truth puts into question the distinction between history and poetry in the mock epic examining it at three levels of poetic structure fable global narrative structure and portraits characterological narrative structure Focusing chiefly on the mock epic s representations in terms of class and kind this study returns historical particulars to the central role that the poets had always given them and seeks to understand how they are made poetic Designs on Truth shows how the poems themselves subvert any easy distinction between historical and poetic particulars This often philosophical genre is itself a reconsideration of the role of reference fact and judgment value in representation This study shows how representation and judgment work in the mock epic and how together they stand at the heart of the dominant Augustan poetic Colomb also provides new readings of the

mock epic including the first comprehensive reading of *The Dispensary* since the eighteenth century

The Sanctification of Don Quixote Eric Ziolkowski, 2008-01-18 Ziolkowski explores the religious implications of the figure of Don Quixote in Western literature from Cervantes to the present While scholars and critics in the past have often called attention to the secularizing tendency of modern literature to the numerous fictional adaptations of the Christ figure on the one hand and the innumerable literary descendants of Don Quixote on the other this study is the first to examine a lineage of characters in whom the images of the alleged savior and the mad knight are combined After considering Don Quixote as the first modern novel and taking into account its relationship to religion society and censorship in seventeenth century Spain Ziolkowski traces the history and fate of Don Quixote the character through a series of religious transformations over the centuries focusing on three novels that adapt the Quixote figure Henry Fielding's *Joseph Andrews* Fyodor Dostoevsky's *The Idiot* and Graham Greene's *Monsignor Quixote* Ziolkowski argues that given the increased secularization and decline of religious consciousness over the last several centuries any pursuit of religious values or ideas becomes questionable and this appears quixotic insofar as it stands in contradiction to the sociohistorical context He concludes that religious existence for the few who pursue it in suffering which means that the religious person feels temporally displaced for adhering to a seemingly obsolete faith and lifestyle

The Eighteenth Century Pat Rogers, 2020-01-08 The aim of this book originally published in 1978 is to make the reading of literary classics such as *Gulliver's Travels* *Robinson Crusoe* *Tom Jones* *The Beggar's Opera* and *Tristram Shandy* an even richer experience by giving them an intelligible place in history The context is seen not as a vague backcloth but as a living fabric of ideas and events which animate Augustan literature The authors cover the achievements of men like Hume Walpole Chippendale Newton and Reynolds who are often merely names to the literary student and show how writers were affected by exciting developments in psychology aesthetics medicine and other fields As a whole the book shows this period to have been an active questing and complex era whose literary masterpieces emanate from a rich and diverse culture

Nervous Acts G. Rousseau, 2004-11-02 These essays demonstrate the sweeping influence of the human nervous system on the rise of literature and sensibility in early modern Europe The brain and nerves have usually been treated as narrow topics within the history of science and medicine Now George Rousseau an international authority on the relations of literature and medicine demonstrates why a broader context is necessary The nervous system was a crucial factor in the rise of recent civilization More than any other body part it holds the key to understanding how far back the strains and stresses of modern life fatigue depression mental illness extend
