Korea Arissa H Oh,2015-06-17 The important largely unknown story of American adoption of Korean children since the Korean War with remarkably extensive research and great verve Charles K Armstrong Columbia University Arissa Oh argues that international adoption began in the aftermath of the Korean War First established as an emergency measure through which to evacuate mixed race GI babies it became a mechanism through which the Korean government exported its unwanted children the poor the disabled or those lacking Korean fathers Focusing on the legal social and political systems at work To Save the Children of Korea shows how the growth of Korean adoption from the 1950s to the 1980s occurred within the context of the neocolonial US Korea relationship and was facilitated by crucial congruencies in American and Korean racial thought government policies and nationalisms Korean adoption served as a kind of template as international adoption began in the late 1960s to expand to new sending and receiving countries Ultimately Oh demonstrates that although Korea was not the first place that Americans adopted from internationally it was the place where organized systematic international adoption was born Absolutely fascinating Giulia Miller Times Higher Education Gracefully written Oh shows us how domestic politics and desires are intertwined with geopolitical relationships and aims Naoko Shibusawa Brown University Poignant wide ranging analysis and research Kevin Y Kim Canadian Journal of History Illuminates how the spheres of public and private domestic and political are deeply imbricated and complicate American ideologies about family nation and race Kira A Donnell Adoption Culture **Strangers Drowning** Larissa MacFarquhar,2015-09-29 What does it mean to devote yourself wholly to helping others In Strangers Drowning Larissa MacFarquhar seeks out people living lives of extreme ethical commitment and tells their deeply intimate stories their stubborn integrity and their compromises their bravery and their recklessness their joys and defeats and wrenching dilemmas A couple adopts two children in distress But then they think If they can change two lives why not four Or ten They adopt twenty But how do they weigh the needs of unknown children in distress against the needs of the children they already have Another couple founds a leprosy colony in the wilderness in India living in huts with no walls knowing that their two small children may contract leprosy or be eaten by panthers The children survive But what if they hadn t How would their parents risk have been judged A woman believes that if she spends money on herself rather than donate it to buy life saving medicine then she s responsible for the deaths that result She lives on a fraction of her income but wonders when is compromise self indulgence and when is it essential We honor such generosity and high ideals but when we call people do gooders there is skepticism in it even hostility Why do moral people make us uneasy Between her stories MacFarquhar threads a lively history of the literature philosophy social science and self help that have contributed to a deep suspicion of do gooders in Western culture Through its sympathetic and beautifully vivid

storytelling Strangers Drowning confronts us with fundamental questions about what it means to be human In a world of strangers drowning in need how much should we help and how much can we help Is it right to care for strangers even at the expense of those we are closest to Moving and provocative Strangers Drowning challenges us to think about what we value most and why [Growing Great Families](#) Ian Grant, Mary Grant, 2011-11-01 Great ideas and top tips for building a strong functioning family from parenting gurus Ian and Mary Grant Parenting skills that any family can use effectively with excellent practical advice including smart strategies action labs and chapter summaries Children need to know the security of a family operating as a team and to experience being contributors not just takers In this way children will know real intimacy and emotional safety Whatever we parents honour or treat as sacred or special our children will also honour whether that is the TV regular family times or sport This book is a call to refocus on what it is to create a family to look again at what we are honouring in the community we call our family and to think about our ultimate goals for the individuals and their relationships Growing Great Families covers the following topics being a parent in the world we now inhabit building the foundations what makes a family into a community moulding big personalities into a family life defining values two pillars of great families fun and communication and moving from dependence to interdependence **Opportunities for Adoption Act of 1977** United States.
