Two wooden crosses are mounted on the ridge of the roof, one above the other. The lighting is dramatic, with strong highlights and deep shadows, emphasizing the texture of the wood.

Nordic Folk Churches A Contemporary Church History:

Nordic Folk Churches Ryman, 2005-08-30 Four Nordic scholars provide historical context for contemporary developments in the folk churches of Denmark Finland Norway and Sweden respectively devoting a chapter to each Other chapters address major issues of concern both shared by and unique to their churches Particularly fascinating are these churches differing roles on the political stage during World War II and the Cold War their adaptation to the modern welfare state their handling of theological controversies such as the ordination of women and same sex unions and their crucial contributions to the ecumenical movement A Documentary History of Lutheranism, Volumes 1 and 2 Mark A. Granquist, Eric Lund, 2017-11-10

This unique collection of excerpts from Lutheran historical documents many translated here for the first time presents readers with a full picture of how the Lutheran movement developed in its thought and practice Covering not only theology but also church life popular piety and influential historical events the primary documents include theological treatises confessional statements liturgical texts devotional writings hymns letters and diaries satirical polemics political documents woodcuts and pamphlet literature This first volume covers the chronological period from Luther s first calls for reform to the development of Lutheran Orthodoxy and Pietism during the seventeenth century The judiciously selected and carefully translated texts as well as the contextualizing information provided in each chapter s introductory essay acquaint readers with the turbulence and fervor of this revolutionary Christian movement its struggles for survival and consolidation and its further evolution up to the dawn of the Enlightenment *Handbook of Theological Education in World Christianity* Dietrich Werner, David Esterline, Namsoon Kang, Joshva Raja, 2010-11-19 The Handbook of Theological Education in World Christianity is the first attempt to map and analyze developments in theological education on a global scale This volume with contributions from 98 leaders in theological education from around the world provides a comprehensive introduction to the major themes and contexts in the international discourse on theological education surveys of the issues and challenges faced in different regions and introductory essays on the developments in the major denominational families in World Christianity The editors are Dietrich Werner World Council of Churches Geneva David Esterline McCormick Theological Seminary Chicago Namsoon Kang Brite Divinity School Fort Worth and Joshva Raja Queen s Foundation Birmingham Critique Scandinave de la Théologie Féministe Anglo-américaine Hanna Stenström, 2007 Scandinavian Critique of Anglo American Feminist Theology is a collection of articles by scholars in various theological disciplines from five Scandinavian or Nordic countries The articles cover a wide range of topics including feminist sexual ethics ecofeminist theology gender perspectives on European welfare systems Birgitta of Sweden and a search for Mary beyond stereotypes As the title implies a critical dialogue with US feminist theology is a recurrent theme throughout the book but the essays also include constructive work from different theological perspectives The journal also includes a bibliography that shows the diversity of Scandinavian and Nordic feminist theological research **Mission to the World** Tormod Engelsen, Ernst Harbakk, Rolv Olsen, Thor

Strandenaes,2009-11-01 **Witness Is Presence** Miika Tolonen,2014-01-07 In a postsecular cultural situation the conditions for understanding and communicating a Christian tradition have changed None of the established religions can any longer claim monopoly in the marketplace of religions A claim of this study is that a postsecular situation characterized among other things by dwindling memberships in established churches as well as a new visibility of alternative religious expressions opens up a need to reflect on alternative ways of understanding Christianity in its context This study focuses on the question how can a Christian tradition be communicated understandably in a postsecular context In traditional terms how can Christian witness be understood in our situation It is to this need according to this study that the ecclesiology of Stanley Hauerwas provides a meaningful perspective This perspective becomes relevant because in a postsecular context a Christian church even a folk church cannot assume to be in a position of majority or power There is therefore a need to ask how to understand Christianity as a community of witness that is neither in power nor a majority The study suggests that embodiment of Christian convictions becomes a central factor in a meaningful postsecular notion of witness **The Way of the Sea** Roald Kverndal,2008-01-01 The sea has been both a source of bounty and a bridge of communication through the ages The Way of the Sea explores the unique role of seafarers in promoting the revealed plan of the Creator and Redeemer of both land and sea As a follow up to The Seamen s Mission Kverndal s comprehensive survey of maritime mission presents both historical and current perspectives While The Way of the Sea provides a much needed tool for the developing field of maritime Missiology people from all walks of life will learn from the rich history and culture of kingdom minded seafarers

For the Sake of the World Jonas Ideström,2010-01-01 The church exists for the sake of the world The crucial ecclesiological question that this book raises is How How does the church exist for sake of the world One can describe the theological reflections in this book as a form of concrete ecclesiology critical theological reflections on the way the church is manifested in social and historical contexts as a social body By using concepts like body queer human rights practices social process and space the manifestations of the concrete church are critically and constructively analyzed from a theological perspective The arguments in the articles were presented at a symposium in Sweden The purpose of the symposium was not to reach consensus but to stimulate creative and critical discussions concerning theology politics and the identity of the church with a focus on Church of Sweden American theologian William T Cavanaugh who has made himself known as a distinct voice in the discussion of ecclesiology and politics participated and contributes with critical and constructive reflections on the relationship between church and state This book offers important arguments and reflections into the discussion on ecclesiology and politics that has relevance far beyond the Swedish context Contributors JONAS IDESTROM WILLIAM T CAVANAUGH ARNE RASMUSSEN HENRIK WIDMARK GORAN GUNNER NINNA EDGARDH ANTJE JACKELEN and OLA SIGURDSON Complex Identities in a Shifting World Pamela Couture,Robert Mager,Pamela McCarroll,Natalie Wigg-Stevenson,2015 Clear and well defined identities are hard to sustain in a rapidly shifting world Peoples goods and

cultures are on the move The internet and other technologies increase the amount the speed and the intensity of cultural exchanges Individuals organizations and nations develop complex identities out of many traditions different ideals various ways of life and many models of organization Religious traditions both collide and interact with spiritual journeys crossing religious boundaries In this book more than 20 contributors from different backgrounds and academic disciplines offer an array of practical theological perspectives to help understand these complex identities and negotiate this shifting world

Series International Practical Theology Vol 17 Subject Religious Studies Cultural Studies **Secularism, Theology and Islam** Jennifer Elisa Veninga, 2014-03-27 Secularism Theology and Islam offers a uniquely theological analysis of the historic Danish cartoon crisis of 2005 2006 in which the publication of twelve images of the Prophet Muhammad in the Danish newspaper Jyllands Posten ignited violent global protests The crisis represents a politically culturally and religiously important event of the early 21st century and Jennifer Veninga explores the important question of why the cartoons were published in Denmark when they were and why this matters to the larger global community The book outlines three main interpretations of the affair as they were framed by international news media as an issue exclusively about freedom of speech as related to a clash of civilizations or exclusively as a matter of international politics Whilst these are important to note the author argues that the crisis was far more complex than any of these interpretations suggest and argues that an alternative methodology can be found in philosopher Charles Taylor's concept of the social imaginary which refers to the shared norms expectations images and narratives of a community or nation that inform many of its shared practices Describing the Danish social imaginary as a paradox of Christianity and secularism Veninga explains why the new presence of Islam has been perceived as such a threat to Danish identity The author also maintains that despite tendencies toward exclusion the Danish imaginary also supports a move toward authentic religious pluralism Understanding the Danish cartoon crisis is important for any community struggling with new religious diversity especially those with largely secular identities Furthermore the method used to examine the crisis provides a theological analytical framework applicable to a wide variety of contemporary social and political movements and issues

The Third Room of Preaching Marianne Gaarden, 2017-09-29 In this cutting edge homiletical study Marianne Gaarden offers new perspectives for understanding how listeners create meaning when hearing a sermon Drawing on sociological psychological and other empirical research Gaarden presents the notion of the Third Room of Preaching the place where the preacher's words and the listener's prior experiences come together to create a surplus of meaning outside of both the preacher's intent and the listener's frame of reference The preacher cannot control the production of meaning but must surrender to the process giving up the role of creator of meaning in order to become a vessel and a tool for meaning's creation Gaarden's insights challenge conventional understandings of preaching and invite homileticians to reflect on the implications for the sermon as an act of communication The book includes an appendix that helps to facilitate the Third Room model in homiletics classes

Mending the World? Niclas Blader,Kristina Helgesson Kjellin,2017-06-16 Religion has played a major role in history affecting the course of events and influencing individuals Today one frequently hears the expression the return of religion but opinions differ as to how this return is to be understood It is clear that modernity and postmodernity have not meant that religion is dead or relegated to society s backyards Religion is still of vital importance for many people It has to some extent changed shape but has not lost its legitimacy and attractiveness to broad groups Religion is public visible and has a sought for voice but it is also wrestling with extremism ignorance and preconceptions Just like ideologies religions are capable of activating diametrically opposite traits in humans It is this dual tension that is implicit in the question mark in this book s title Mending the World This book s aim is to help explore whether how and in what ways religion church and theology can contribute constructively to the future of a global society In thirty one chapters researchers from around the world address the relation between religion and society
