*Poulenc* Roger Nichols, 2020-04-14 An authoritative account of the life and work of Francis Poulenc one of the most prolific and striking figures in twentieth century classical music Francis Poulenc is a key figure in twentieth century classical music as well as an unorthodox and striking individual Roger Nichols draws upon Poulenc's music and other primary sources to write an authoritative life of this great artist Although associated with

five other French composers in what came to be called Les Six Poulenc was very much sui generis in personality and in his music where he excelled over a wide repertoire opera songs ballet scores chamber works piano pieces sacred and secular choral works orchestral works and concertos This book fully covers this wide range while also describing the vicissitudes of Poulenc's life and the many important relationships he had with major figures such as Satie Ravel Stravinsky Diaghilev Cocteau and others

**Details of Consequence** Gurminder Kaur Bhogal, 2013-09-11 *Details of Consequence* examines a trait that is taken for granted and

rarely investigated in fin de siècle French music ornamental extravagance Considering why such composers as Claude Debussy Maurice Ravel Gabriel Fauré Igor Stravinsky and Erik Satie turned their attention to the seemingly innocuous and allegedly superficial phenomenon of ornament at pivotal moments of their careers this book shows that the range of decorative languages and unusual ways in which ornament is manifest in their works doesn't only suggest a willingness to decorate or render music beautiful Rather in keeping with the sorts of changes that decorative expression was undergoing in the work of Eugène Grasset Pierre Bonnard Henri Matisse and other painters composers also invested their creative energies in reimagining ornament relying on a variety of decorative techniques to emphasize what was new and unprecedented in their treatment of form meter rhythm melody and texture Furthermore abundant displays of ornament in their music served to privilege associations that had been previously condemned in Western philosophy such as femininity sensuality exoticism mystery and fantasy Alongside specific visual examples author Gurinder Kaur Bhogal offers analyses of piano pieces orchestral music chamber works and compositions written for the Ballets Russes to highlight the disorienting effect of musical experiments with ornament Acknowledging the willingness of listeners to borrow vocabulary from the visual arts when describing decorative music Bhogal probes the formation of art music metaphors and studies the cognitive impetus behind tendencies to posit stylistic parallels She further illustrates that the rising expressive status of ornament in music and art had broad social and cultural implications as evidenced by its widespread involvement in debates on French identity style aesthetics and progress Drawing on a range of recent scholarship in the humanities at large including studies in feminist theory nationalism and orientalism *Details of Consequence* is an intensely interdisciplinary look at an important facet of fin de siècle French music
