business world and helped shape society as we know it. There are just a few of the stories collected in this anthology of commercial ingenuity. Drawing on a wealth of sources, this priceless collection brings to life extraordinary achievements, many of them forgotten or little known. How Robert Morris, the preeminent merchant of the eighteenth century, financed the American Revolution with his personal credit. How Ray Kroc used a shrewd real estate strategy to turn a faltering hamburger franchise operation into the McDonald's fast food empire. And how Mary Kay Ash built a billion-dollar direct sales cosmetics company by preaching a message of economic empowerment to women. Love, 2004-08 **Evanston Wyoming** Dennis J. Ottley, 2019-01-28 Evanston Wyoming Boom Bust Politics is a story about an old Union Pacific railroad tent city once called Hell on Wheels that eventually grew to become an amazing community in southwestern Wyoming and about one man's experience as a city official. Evanston survived and thrived through many boom and bust cycles by having a good, strong base of loving, committed citizens. Told through the eyes of a city official who served Evanston as a three-term city council member and a three-term mayor and meticulously documented using city council minutes, Mayor Ottley shows how this role affected his life and family and the hell he went through trying to keep the community together through one of the most challenging boom periods in Wyoming history. The book gives a full account of the best and worst of politics in a small town and how untruths, innuendoes, partisan politics, and right-down-vicious lies came close to splitting the city. But this mayor, who was dedicated to the people and driven by his love for his community, was able to keep the economy strong and the community united. *Fast Food* Andrew F. Smith, 2016-04-15 The single most influential culinary trend of our time is fast food. It has spawned an industry that has changed eating, the most fundamental of human activities. From the first flipping of burgers in tiny shacks in the western United States to the forging of neon signs that spell out Pizza Hut in Cyrillic or Arabic scripts, the fast food industry has exploded into dominance, becoming one of the leading examples of global corporate success. And with this success, it has become one of the largest targets of political criticism, blamed for widespread obesity, cultural erasure, oppressive labor practices, and environmental destruction on massive scales. In this book, expert culinary historian Andrew F. Smith explores why the fast food industry has been so successful and examines the myriad ethical lines it has crossed to become so. As he shows, fast food is plain and simple, devised a perfect retail model, one that works everywhere, providing highly flavored calories with speed, economy, and

convenience But there is no such thing as a free lunch they say and the costs with fast food have been enormous an assault on proper nutrition a minimum wage labor standard and a powerful pressure on farmers and ranchers to deploy some of the worst agricultural practices in history As Smith shows we have long known about these problems and the fast food industry for nearly all of its existence has been beset with scathing exposés boycotts protests and government interventions which it has sometimes met with real changes but more often with token gestures blame passing and an unrelenting gauntlet of lawyers and lobbyists Fast Food ultimately looks at food as a business an examination of the industry's options and those of consumers and a serious inquiry into what society can do to ameliorate the problems this cheap and tasty product has created
