Chamber Music John H Baron, 2010-06-10 *Chamber Music A Research and Information Guide* is a reference tool for anyone interested in chamber music. It is not a history or an encyclopedia but a guide to where to find answers to questions about chamber music. The third edition adds nearly 600 new entries to cover new research since publication of the previous edition in 2002. Most of the literature is books, articles in journals and magazines, dissertations and theses and essays or chapters in *Festschriften*, treatises and biographies. In addition to the core literature, obscure citations are also included when they are the only studies in a particular field. In addition to being printed, this volume is also for the first time available online. The online environment allows for information to be updated as new research is introduced. This database of information is a live resource, fully searchable and with active links. Users will have unlimited access; annual revisions will be made and a limited number of pages can be downloaded for printing. *Music in North America and the West Indies from the Discovery to 1850* Daniel Mendoza de Arce, 2006-06-22 Before one can seriously study, analyze or theorize about a subject, one needs to understand its foundation and be comfortable with its basic premises. *Music in North America and the West Indies from the Discovery to 1850* in conjunction with the author's first Scarecrow Press book *Music in Ibero America to 1850* intends to lay the groundwork for the musical and cultural history of North America. *Music in North America* is a survey of the people, events and institutions that helped shape music in the early centuries of North America. Collecting information from various historical data, author Daniel Mendoza de Arce presents straightforward descriptions of both religious and secular early music. Basic historical information about the Renaissance and Baroque periods in North America and the Caribbean are presented chronologically through 1850 along musical, geographic and cultural lines. A valuable study for researchers, students and interested readers alike, this treatise helps readers achieve a sense of perspective and a broader understanding of their place in world culture. Symphony no. 2 in D Minor, op. 24 ("Jullien") George Frederick Bristow, 2011-01-01 URL <https://www.areditions.com/rrra/a072.html> George Frederick Bristow 1825-98 American composer, conductor, teacher and performer was a pillar of the New York musical community for the second half of the nineteenth century. His participation in an important mid-century battle of words between William Henry Fry and the journalist Richard Storrs Willis and concerning a lack of support for American composers by the Philharmonic Society has unfortunately overshadowed his accomplishments as a composer, which were significant. Bristow is remembered today primarily for his opera *Rip van Winkle* 1855 and oratorio *Daniel* 1866, but he was also a skillful and productive composer of orchestral music, one of only a handful of American orchestral composers.

active at mid century Bristow wrote his Symphony no 2 Jullien in 1853 It is a substantial work in four movements scored for the standard orchestra of the early nineteenth century and strongly influenced by the personal styles of Beethoven and Mendelssohn whose works were performed regularly by the Philharmonic Society The symphony is skillfully crafted melodious and an intrinsically worthy work of musical artistry It was named to honor the French conductor Louis Jullien who visited the United States in 1853 54 with an unparalleled orchestra While in the United States Jullien both commissioned and performed American works including this symphony his support served as the catalyst for the Fry Willis battle The introductory essay to this symphony examines Bristow s career the composition of orchestral music in America at mid century and Jullien s role in the musical battle the edition makes available for the first time an important work that has been undeservedly forgotten for over 150 years *Encyclopedia of American Opera* Ken Wlaschin,2024-10-16 This encyclopedia lists describes and cross references everything to do with American opera works both operas and operettas composers librettists singers and source authors along with relevant recordings The approximately 1 750 entries range from ballad operas and composers of the 18th century to modern minimalists and video opera artists Each opera entry consists of plot history premiere and cast followed by a chronological listing of recordings movies and videos **'Food for Apollo'** Dorothy T.
