A Treatise on the Seven Rays Alice A. Bailey, 2013-07 2013 Reprint of 1950 Third Edition Full facsimile of the original edition not reproduced with Optical Recognition Software Volume One Only The books of Alice A Bailey written in cooperation with a Tibetan teacher between 1919 and 1949 constitute a continuation of the Ageless Wisdom a body of esoteric teaching handed down from ancient times in a form which is always suitable to each period Intended to precede and condition the coming era the Alice A Bailey writings offer an unparalleled spiritual approach to such subjects as the teaching on Shamballa and the Path of spiritual evolution the spiritual Hierarchy the new discipleship and training in meditation as a form of service the teaching on the seven rays and the new psychology of the soul the teaching on esoteric astrology and the new world religion which emphasizes the common thread of truth linking all the major world faiths Five volumes have been written under the overall title of *A Treatise on the Seven Rays* This sequence of books is based on the fact the nature and the quality of the seven basic streams of energy pervading our solar system our planet and all that lives and moves within its orbit Of the specialized subjects presented in these books two volumes are concerned with esoteric psychology the first in relation to basic energy patterns and structures the second particularly applied to the soul and the personality of man and to the working out of the Plan for humanity Psychology is defined in Webster's Dictionary as the science of mind at one time considered a branch of metaphysics Today we are more inclined to include all the conditioning subjective factors as psychological in nature mental and emotional impulses and soul contact to whatever degree it exists These subjective influences constitute the whole psychological background to a man's attitudes and behaviour and create the faculty of spiritual response The psyche is after all the human soul the centre of consciousness Esoteric psychology begins with a consideration of the human being as a soul manifesting in the form of a personality consisting of mental emotional and etheric physical substance and more or less in contact and control depending on the stage of evolution in the personality consciousness From the point of view of esoteric

psychology evolution is the evolution of consciousness by which the imbedded fragment of the soul within the personality progressively identifies its spiritual source and becomes at one with it The seven differentiated streams of ray energy play a significant role in this evolutionary process A blend of five energies in a human being determine his goals his problems his available qualities and energy resources and the correct method by which according to his dominant ray influence he may unfold his consciousness and make spiritual progress In this volume of Esoteric Psychology many of these distinctive ray qualities and methods are given as quotations or interpretations of The Old Commentary put into poetic and symbolic words The seven rays are shown as the Seven Creative Builders each one imbued with purpose and power functioning together as a synthesis in occult obedience to the purposes of our Solar Logos Such a detailed and comprehensive study of the ray energies influencing our planetary life and all kingdoms in nature is of inestimable value to the aspirant consciously preparing himself to become of planetary service as he learns to serve and to unite with his fellowmen

Esoteric Psychology - The Seven Rays Dr. Douglas M. Baker, 2014-04-09 Esoteric Psychology The Seven Rays The knowledge of the Seven Rays provided by this book will prove of immense value to all who seek to understand human nature and to achieve enhanced self awareness and integration of personality in themselves and others This masterly written and illustrated manual is an absolutely essential starting and reference work for all those who finally respond in this lifetime to their Purpose and Inner Voice This book emphasises that all is energy and that Man is an energy unit affected from both without and within It demonstrates that Ray Psychology is essentially practical and shows how the qualities of these energies may be understood and embraced in human behaviour and today s language It is plain that psychology will play an ever increasing role in the development of new age consciousness Already today millions of people who would be regarded as laymen practise their own psychology in everyday life This tendency has been boosted by the general interest in astrology A glimpse into the future will show that the new psychology will be based on many emerging astrological factors Esoteric psychology takes into account not only hereditary and environment but draws also upon that massive third factor which is the psychic and spiritual nature of Mankind The effect of karma the influence of previous lives etc are major contributions to the behaviour of those who seek to tread the path towards spiritual enlightenment Esoteric Psychology is based on two major precepts Firstly there is a cosmic force conveying seven streams of energy into our solar system that affect the nature behaviour and evolution of all forms within the ring pass not of this system These streams are termed the Seven Rays Secondly spiritual qualities emerging from the immortal component of Man s structure affect his behaviour and modify the contributing factors of his hereditary equipment and the environment into which it is thrust
