Circus of Dreams John Walsh, 2022-04-07 Something extraordinary happened to the UK literary scene in the 1980s In the space of eight years a generation of young British writers took the literary novel into new realms of setting subject matter and style challenging and almost eclipsing the Establishment writers of the 1950s It began with two names Martin Amis and Ian McEwan and became a flood Julian Barnes William Boyd Graham Swift Salman Rushdie Jeanette Winterson and Pat Barker among them The rise of the newcomers coincided with astonishing changes in the way books were published and the ways in which readers bought them and interacted with their authors Suddenly authors of serious fiction were like rock stars fashionable sexy creatures shrewdly marketed and feted in public The yearly bunfight of the Booker Prize became a matter of keen public interest Tim Waterstone established the first of a chain of revolutionary bookshops London publishing houses became the playground of exciting visionary entrepreneurs who introduced new forms of fiction magical realist feminist post colonial gay to modern readers Independent houses began to spend ostentatious sums on author advances and glamorous book launches It was nothing short of a watershed in literary culture And its climax was the issuing of a death sentence by a fundamentalist leader whose hostility to Western ideas of free speech made him literally the world's most lethal critic Through this exciting hectic period the journalist and author John Walsh played many parts literary editor reviewer interviewer prize judge and TV pundit He met and interviewed numerous literary stars attended the best launch parties and digested all the gossip and scandal of the time In Circus of Dreams he reports on what he found first with wide-eyed delight and then with a keen eye on what drove this glorious era The result is a unique hybrid of personal memoir oral history literary investigation and elegy for a golden age

Fiction and the Break-Up of Britain Hywel Dix, 2011-11-03 This study explores how British identity has been explored and renegotiated by contemporary writers. It starts by examining the new emphasis on space and place that has emerged in recent cultural analysis and shows how this spatial emphasis informs different literary texts. Having first analysed a series of novels that draw an implicit parallel between the end of the British Empire and the break up of the unitary British state, the study explores how contemporary writing in Northern Ireland, Scotland and Wales contributes to a sense of nationhood in those places and so contributes to the break up of Britain symbolically. Dix argues that the break up of Britain is not limited to political devolution in Northern Ireland, Scotland and Wales. It is also an imaginary process that can be found occurring on a number of other conceptual coordinates. Feminism, class, regional identities and ethnic communities are all terrains on which different writers carry out a fictional questioning of received notions of Britishness and so contribute in different ways to the break up of Britain.
