Re Orienting Australia China Relations 1972 To The Present:

Re-Orienting Australia-China Relations Nicholas Thomas, 2017-03-02 Drawing on contributors from academic and policy communities this volume explores the major aspects of Australia China relations The frequently overlooked connection between Australia and Taiwan is also considered to allow readers to reach a full appreciation of the restraints engendered by the relationship with China as well as its many benefits Moving beyond the traditional state centric analysis the work incorporates new material on sub state relations as well as examining the impact of global economic and social forces on the Australia China friendship In addition to providing a contemporary understanding of the bilateral ties this work also provides a benchmark against which Australia s other relations with the countries of East Asia can be measured **Complex**

Interdependence and China-Australia Relations Lei Yu, Sophia Sui, 2023-09-08 This book examines China and Australia s economic and security relations against the background of China s increasing economic and political role Utilizing the theory of complex interdependence the authors consider whether greater interdependence between Beijing and Canberra augments closer economic cooperation and trade or prompts political leverage and a security challenge Exploring China Australia relations from the mainstream Chinese perspective this book will be of interest to scholars and students of international relations Chinese studies global political economy governmental and intergovernmental organizations Transcultural

The Belt and Road Initiative and Australian Mainstream Media Jon Yuan Jiang, 2024-04-01 This book focuses on Australian mainstream media narratives about the Belt and Road Initiative BRI from 2013 to 2020 Set against the background of Sino Australian relations and taking into account the different media systems of China and Australia this book

also critically investigates the Chinese public diplomacy narratives of the BRI Drawing on my analysis and semi structured interviews with prominent experts in this area the book addresses an important but under explored question how have Australian mainstream media narratives portrayed the BRI of the Chinese Government from 2013 to 2020 This book fills a gap regarding the portrayal of the BRI in Australian mainstream media and provides new insights into the reasons for narrative shifts in the coverage of the BRI More concretely the book finds that the public diplomacy narratives of the BRI were not explained well by Chinese officials thus allowing Australian journalists and commentators to project their own negative fearful narratives of China onto the BRI project particularly from 2017 onwards More importantly this book argues that the Australian Federal Government's policy towards China had a significant impact on the Australian media's coverage of the BRI that the media clearly followed the Australian Federal Government's lead and not vice versa Thus in many ways Australian mainstream media narratives of the BRI have had a similar outcome as China's ostensibly much more restrictive and propagandistic state dominated media system Noticeably this book not only has academic significance in the international research community but also holds practical importance in the real world benefiting Australian business leaders media professionals think tank specialists and policymakers

China's Rise - Threat or Opportunity? Herbert S. Yee, 2010-10-15 The phenomenal growth of Chinese economic and military power in the first decade of the 21st century has drawn world wide attention Perceptions of China's rise have shifted from seeing China as a threat to a more mixed view where China is seen as playing a key role in economic recovery taking an increasingly responsible role in world affairs and contributing significantly to scientific and technological advances This book argues that China will only become a truly global power when its rising power status is accepted or at least tolerated by other major powers and China's neighbours Filling a major gap in the existing literature it presents a comprehensive overview of how China's rise is perceived in a wide range of countries and regions these include China's neighbours other world powers the parts of China not part of mainland China Taiwan Hong Kong and Macau and regions of the world where China is having an unexpected impact such as the Middle East It also examines changing perceptions of China in the western media Overall the book demonstrates that whilst many countries and regions are much more positive about China's rise than they were before considerable nervousness and concern persists

Australia-China Relations post 1949 Yi Wang, 2016-04-08 This book challenges the common perceptions of Australian dependence upon great power allies in the conduct of its foreign relations through a critical examination of Australia's relations with the People's Republic of China The author focuses on the economic and political dimensions of the policy making process from the founding of the PRC in 1949 to the present era against an analytical framework that takes into account both internal and external factors in the formulation and implementation of Australian foreign policy Informed by political science and international relations the book differs from the conventional literature on Sino Australian relations which has either focused on pure economic analysis or concentrated on chronicling historical events

The author weaves theoretical insights from political science and international relations into the historical analysis while seeking to examine the interplay between political and economic factors over time in shaping policy outcomes The book draws not only on primary and secondary sources but also on information and insights obtained from interviews with a vast array of direct participants in the policy process including almost all the former ambassadors from both China and Australia covering the entire period of the diplomatic relationship As a result the book breaks new ground especially from the Hawke era onwards revealing hitherto overlooked details of interest in the policy process

China in Australasia James Beattie, Richard Bullen, Maria Galikowski, 2019-04-18 Drawing on expertise in art history exhibition studies and cultural studies as well as politics and international relations China in Australasia presents significant new perspectives on the role of art in the cultural diplomacy of the People's Republic of China The book tells the forgotten story of the loan exchange and gifting of Chinese art museum exhibitions and the use of Chinese arts more broadly in growing diplomatic relations with Australia and New Zealand from 1949 to the present day Its scope includes pre modern modern and contemporary sculpture painting and peasant art as well as ancient artefacts performance arts and gardens In considering the geopolitical connections opened by the arts this book presents new insights into some of the ways in which China often in conjunction with local supporters sought to present itself to the people of Australia and New Zealand It also considers how for their part New Zealanders and Australians worked to expand understandings of their powerful northern neighbour within changing political contexts The first of its kind this book length interdisciplinary study of Chinese soft diplomacy in Australasia will be invaluable to students and scholars of Chinese studies cultural diplomacy museum studies and art history

Chinese Activism of a Different Kind Gao Jia, 2013-09-19 In Chinese Activism of a Different Kind Jia Gao examines the social behavior and patterns of actions of 45 000 or so Chinese students as they fought to obtain the right to stay permanently in Australia after the June 4 Tiananmen Square incident of 1989 In a time of relative Internet infancy their response to the shifting stances of the Australian government saw them build networks make use of media and develop a range of strategies In achieving success this diverse group of students became the largest intake of onshore asylum seekers in the history of Australian immigration Through their testimonies Jia Gao provides a fascinating addition to our knowledge of Chinese activism and to the history of Chinese migration

Australia and Human Rights Caroline Fleay, 2020-05-22 The Howard government's term in office in Australia from 1996 to 2007 is often portrayed as one where Australia retreated from its international human rights obligations Throughout this era a range of government policies attracted much criticism for downplaying or ignoring human rights Less attention has been given to the human rights policies of previous Australian governments and the heritage they provided for the Howard government Situating the policies of the Howard government within those of previous Australian governments provides a greater understanding of human rights in Australia This book examines human rights policies in Australia in three key areas human rights in Australia China relations responses to asylum seekers and refugees and engagement with human rights at the United Nations These areas highlight where the Howard government clearly deviated from some of the more positive human rights policies of its predecessors The book also challenges the perception that Australia has a proud history of human rights policy by revealing where the Howard government continued or revived policies of earlier Australian governments that were not consistent with international human rights standards Such an understanding of human rights in Australian policy is imperative for informed analysis and debate on current and future policy trends **Shifting Power in**

Asia-Pacific? Enrico Fels, 2016-11-03 This book investigates whether a power shift has taken place in the Asia Pacific region since the end of the Cold War By systematically examining the development of power dynamics in Asia Pacific it challenges the notion that a wealthier and militarily more powerful China is automatically turning the regional tides in its favour With a special emphasis on Sino US competition the book explores the alleged linkage between the regional distribution of relevant material and immaterial capabilities national power and the much cited regional power shift The book presents a novel concept for measuring power in international relations by outlining a composite index on aggregated power CIAP that includes 55 variables for 44 regional countries and covers a period of twenty years Moreover it develops a middle power theory that outlines the significance of middle powers in times of major power shifts By addressing political military and economic cooperation via a structured focused comparison and by applying a comparative historical analysis the book analyses in depth the bilateral relations of six regional middle powers to Washington and Beijing *Different Histories,*
