Re Imagining Sociology:

Re-Imagining Sociology in India Gita Chadha, M.T. Joseph, 2018-05-16 This book maps the intersections between sociology and feminism in the Indian context. It retrieves the lives and work of women pioneers of and in sociology asking crucial questions of their feminisms and their sociologies. The chapters address the experiential realities of women in the field, pedagogical issues, methodological frameworks, mentoring processes and artistic engagements with academic work. The volume's strength lies in bringing together Indian scholars from diverse social backgrounds and regions reflecting on the specificity of the Indian social sciences. The chapters cover a range of key areas including sexuality, law, environment, science and medicine. This volume will greatly interest students, teachers, researchers and practitioners of sociology, women's studies, gender studies and feminism, politics and postcolonial studies.

Re-Imagining Economic Sociology Patrik Aspers, Nigel Dodd, 2015-11-19 The purpose of this book is to explore new developments in the field of economic sociology. It contains cutting edge theoretical discussions by some of the world's leading economic sociologists with chapters on topics such as the economic convention, relational sociology, economic identity, economy and law, economic networks and institutions. The book is distinctive in a number of ways. First, it focuses on theoretical contributions by pulling together and extending what the contributors believe to be the most important theoretical innovations within their own particular areas of the field. Second, there are contributions by leading economic sociologists from both the US and Europe which gives the book both wider scope and appeal while also creating the opportunity for some interesting dialogue between distinct theoretical traditions. The book will be of interest to researchers, Ph.D. students and advanced students on both sides of the Atlantic and indispensable in advanced economic sociology courses.

Re-Imagining Leisure Studies Tony Blackshaw, 2016-10-14 In this provocative new book, Tony Blackshaw argues that Leisure Studies is in a quiet but deep state of crisis. The twenty-first century has brought profound change to all aspects of society, including a plurality of new leisure worlds and traditional concepts of Leisure Studies fail to capture this richness. This book aims to reinvigorate Leisure Studies by revealing and unpacking these leisure worlds, thereby changing the way we think about leisure and the way we do Leisure Studies. Both trivial and serious in its implications, it is precisely this paradox that makes leisure such a fascinating subject of study. **Re-Imagining Leisure Studies** presents a new and radical set of methodological rules for studying leisure trends and cultures in contemporary society. It discusses the critical issues that underpin recent developments in leisure theory and explores the key themes of social class, community, politics, freedom and globalization. Marking a turning point in the reception and understanding of Leisure Studies, this book is vital reading for all students and scholars with a social scientific interest in leisure.

Re-imagining Curriculum Lynn Quinn, 2019-11-15 The book argues that academics, academic developers and academic leaders need to undertake curriculum work in their institutions that has the potential to disrupt common sense notions about curriculum and create spaces for engagement with scholarly concepts and theories to re-imagine curricula for the changing

times Now more than ever in the history of higher education curriculum practices and processes need to be shared the findings of research undertaken on curriculum need to be disseminated to inform curriculum work We hope the book will enable readers to look beyond their contextual difficulties and constraints to find spaces where they can dream and begin to implement innovative and creative solutions to what may seem like intractable challenges or difficulties

Re-imagining Cultural Studies Andrew Milner,2002-09-17 Re imagining Cultural Studies restores Williams to a central position in relation to the formation and development of cultural studies This book is a reappraisal of the Williams approach

Re-imagining sociology Steve Fuller,2005

Re-Imagining Class Michiel Rys,Liesbeth François,2024-05-20 Unique cross cultural and multimedial approach to class identity and precarity in literature theatre and film Contemporary culture not merely reflects ongoing societal transformations it shapes our understanding of rapidly evolving class realities Literature theatre and film urge us to put the question of class back on the agenda and reconceptualize it through the lens of precarity and intersectionality Relying on examples from British French Spanish German American Swedish and Taiwanese culture the contributors to this book document a variety of aesthetic strategies in an interdisciplinary dialogue with sociology and political theory Doing so this volume demonstrates the myriad ways in which culture opens up new pathways to imagine and re imagine class as an economic relation an identity category and a subjective experience Situated firmly within current debates about the impact of social mobility precarious work intersectional structures of exploitation and interspecies vulnerability this volume offers a wide ranging panorama of contemporary class imaginaries

Re-Imagining Writing: Interdisciplinary Perspectives Phil Fitzsimmons,Johanna Pentikäinen,2019-01-04 This volume was first published by Inter Disciplinary Press in 2014 Across the globe the nature of writing in the twentifirst century is coming under increasing scrutiny as technology becomes an ever increasing component of everyday life and as measuring human output also takes hold in many disciplines This book offers an alternative to these twin developments providing instead many alternatives Coming from an international set of authors with different world views paradigms and praxes the common theme of writing is explored with deep enthusiasm interest in productivity and human capacity and that leads to a polyphonic and progressive inquiry to the subject matter Each author s initial contribution suggest that writing as an object of study needs reimagining be it connected to learning knowledge creation or artistic expression Writing is a deeply person centred process and its open transformative and multidimensional nature escaped definitions but can be understood through the metaphor of the gift

Re-imagining Life Together in America Catherine T. Nerney,Hal Taussig,2002 Well written and highly accessible this book interweaves a thorough review of developments in Christian community from the first century to the present with powerful new discoveries in scriptural theological and historical research that has uncovered deep communal strands in the foundational literature and notions of Christianity The result is a profound call for the renewal of Christian community and churches as crucial models and inspirations for the new search for wholeness in America

Re-imagining Religion and

Belief Christopher Baker, Beth R. Crisp, Adam Dinham, 2018-08-29 The need to reimagine religion and belief is precipitated by their greater visibility in public life. Meanwhile, social policy responses often see them from a problem-based rather than an asset-based approach. However, with growing diversity of religion and belief in every sector, comes the potential for new dialogues across previously impermeable policy and disciplinary silos. This volume brings together leading international authors to critically consider these challenges within legal and policy frameworks including security and cohesion, welfare, law, health, and social care, inequality, cohesion, extremism, migration, and abuse. It challenges policy makers to re-imagine religion and belief as an integral part of public life that contains resources, practices, forms of knowledge, and experience that are essential to a coherent policy approach to diversity, enhanced democracy, and participation. **Re-imagining Playwork**

through a Poststructural Lens Linda Jane Shaw, 2022-07-29 This book explores how poststructural theory can make an important contribution to the growing body of work on playwork as an academic field of practice and research. Drawing on theoretical concepts used by sociologists and philosophers such as the sociological imagination, Mills' hauntings, and the fictive Derrida, and technologies of power and the self, Foucault, the text considers how these devices may be methodologically productive for playwork research. It reframes research into children and childhood as a process in which research and practice are connected but diverse skills. The book raises questions around power and voice and highlights the complexity of research which involves human participants and their roles as researcher and/or researched. Chapters relate concepts from post-structural feminist research and frame them within the context of playwork practice through the use of vignettes constructed from stories told by playwork practitioners and the children with whom they work. A valuable addition to an emerging academic field, this book will be of great interest to researchers and students in the fields of playwork, research, education, and youth studies, early childhood studies, and the sociology of education. **Reimagining the Landscape of**

Religious Education Zehavit Gross, 2023-03-13 This book brings together new thinking and research on religious education's complex and evolving role in the multicultural, diverse postmodern era. It facilitates new realism and understanding of the current situation from empirical and reflective accounts relating to a variety of countries and political contexts, as well as providing innovative methodological approaches to the study of education and religion. In different contexts around the world, at different levels of education, and from different theoretical lenses, religious education occupies a contested space. The ongoing, changing nature of the world due to increasing secularization, rapid technological change, mass immigration, globalization, processes of conflict, and challenging security issues from inter- to intra-state levels, and with shifting geopolitical power balances, generates the need to reconceptualize where religious education is positioned. It claims that religious education on its own can be an agent of moral, social, and spiritual transformation, but this is disputed. There is significant controversy about whether special religious education that is in faith education still has a role within the post-modern world.

Reimagining Textuality Elizabeth Bergmann Loizeaux, Neil Fraistat, 2002 What happens when in the wake of postmodernism the old enterprise of bibliography textual criticism or scholarly editing crosses paths and processes with visual and cultural studies In *Reimagining Textuality* major scholars map out in this volume a new discipline drawing on and redirecting a host of subfields concerned with the production distribution reproduction consumption reception archiving editing and sociology of texts

Reimagining God and Resacralisation Alexa Blonner, 2019-05-14 This book shows that widespread resacralisation has been taking place which is producing new ways of perceiving God and the divine The last century has seen unmistakable changes in religious practices and the concept of spirituality right across the world There was a broad expectation for much of the twentieth century that religious worldviews would eventually succumb to the challenge of secularist materialism but this process of secularisation has yet to occur as predicted The book begins by contrasting theories of secularisation and resacralisation Throughout the book conceptual threads or new religious themes related to this resacralisation are discussed in terms of three main categories reimagining God s nature substance and location reimagining human value and purpose and reimagining modes of redemption Finally the book considers how these threads are moving in various different directions and what the religious future might hold This is a bold examination of contemporary spirituality that will appeal to academics and scholars of religious studies new religious movements and the sociology of religion

Re-Imagining Labour Law for Development Diamond Ashiagbor, 2019-07-25 The aim of this book is to explore labour law s conceptual and normative narrative If labour law is informed by the wider political and economic landscape within which it operates then given the declining prevalence of the post war model of full employment within a formal welfare state regime what shape does or should labour law assume in response to the transformation of the political

economy in countries of the global North Correspondingly what is the proper role to be played by labour law and labour relations institutions in the development process within industrialising countries of the global South where informal employment has long been and remains the predominant form Drawing on the expertise of leading labour law scholars this collection addresses those questions by examining the growth and continued prevalence of informality Offering research that is both empirically grounded and doctrinally astute the book explores the changing character of labour law in the global North and South Re-Imagining Spaces and Places Stefano Rozzoni,Beitske Boonstra,Teresa Cutler-Broyles,2022-03-29

Contested Communities Campbell, Elizabeth,Pahl, Kate,Elizabeth Pente,2018-03-21 This look offers a close look at contested communities through the lens of Rotherham an English town struggling to survive in terms of its image profile and identity Recently divided and left reeling from the powerful impact of the Jay report on Child Sexual Exploitation and increasingly used as a center for activism and agitation by the far right Rotherham could be seen as an exemplar of a contested community But what happens when a community confronts an identity that has been forced upon it How does a community re define itself More than simply a book about Rotherham this is a book about history culture feelings methods and ideas that will help to articulate the lived meanings of political cultures in Britain today Re-imagining Teaching Improvement David Lynch,Tony Yeigh,Wendy Boyd,2024-01-01 This research based book focuses on re imagining how to improve pedagogical and environmental approaches to teaching and teacher education across the early childhood to higher education sectors It motivates educators academics and researchers to stimulate thinking around the use of research to transform professional teaching and teacher education in imaginative ways It showcases insights into the design and
