The Routledge Research Companion to Electronic Music: Reaching out with Technology Simon Emmerson, 2018-05-16 The theme of this Research Companion is connectivity and the global reach of electroacoustic music and sonic arts made with technology The possible scope of such a companion in the field of electronic music has changed radically over the last 30 years The definitions of the field itself are now broader there is no clear boundary between electronic music and sound art Also what was previously an apparently simple divide between art and popular practices is now not easy or helpful to make and there is a rich cluster of streams of practice with many histories including world music traditions This leads in turn to a steady undermining of a primarily Euro American enterprise in the second half of the twentieth century Telecommunications technology most importantly the development of the internet

in the final years of the century has made materials practices and experiences ubiquitous and apparently universally available though some contributions to this volume reassert the influence and importance of local cultural practice Research in this field is now increasingly multi disciplinary Technological developments are embedded in practices which may be musical social individual and collective The contributors to this companion embrace technological scientific aesthetic historical and social approaches and a host of hybrids but most importantly they try to show how these join up Thus the intention has been to allow a wide variety of new practices to have voice unified through ideas of reaching out and connecting together and in effect showing that there is emerging a different kind of global music *Red, Green, or Murder* Steven F. Havill, 2024-04-02 Former Posadas County Sheriff Bill Gastner now a New Mexico Livestock Inspector is enjoying a day on Herb Torrance s ranch soaking in the sun counting a small herd of cattle and thinking about meeting an old friend back in town for lunch But suddenly a light breeze stirs the dust a horse spooks and Bill finds himself ferrying a broken cowpuncher in the back of his SUV headed out to meet an ambulance Moments later Bill s day goes from bad to worse He is summoned by undersheriff Estelle Reyes Guzman to investigate an unattended death Too impatient to wait for Bill his friend George Payton decided to eat lunch on his own A couple of bites later he collapsed dead of an apparent heart attack But something isn t right Then the small herd of cattle Bill had just counted is found wandering down a county highway But there s no sign of cowpuncher Pat Gabaldon or his boss 40 000 truck and livestock trailer Forced into two tangled investigations Bill faces one of the most complex cases in his 35 year career **The Prisoner in the Opal** Alfred Edward Woodley Mason, 1928 Mysterious events surrounding a secret magical society the Black Mass and a house party near Bordeaux

The Family in Bahia, Brazil, 1870-1945 Dain Edward Borges, 1992-07 This history of the Brazilian family in the nineteenth and twentieth centuries studies the relationship between the informal institution of the family and such formal social institutions as medicine the law organized politics and the church The author focuses primarily on middle and upper class families for whom adequate documentation is available and shows the change from a patriarchal model of the family to one that was more conjugal and nuclear a change necessitated by an insecure and urbanizing economy Nevertheless Bahian families maintained many traditional values and traditional kin networks The author examines the daily life and dynamics of households including what is known about lower class families where consensual arrangements were the norm He looks at the history of the medical profession the legal profession and the Catholic church and he describes the attempts of each group to mobilize the family for its own political social and cultural ends The author argues that family ideology and families themselves resisted and transformed the efforts of these institutions to impose their will The book also deals with the changes and continuities in Bahian attitudes and beliefs about courtship honor and the place of women as well as the ways in which Bahians projected a familial ethic onto social relations outside the home Within families conduct was governed by a belief in the traditional rituals of life in the family circle weekly family dinners at the table of an older relative residence in family compounds around an old mansion or in several apartments of a single building nepotism in public bureaucracies and the management of both small and large

businesses by families and their relatives Although these patterns of family life were transformed over time this study demonstrates that such traditions did survive even thrive well into the twentieth century **The Hill Witch JJ**
