**Facets of Modernity** Dmitri Nikulin,2021-05-11 What does it mean to be human in modernity This book examines being human in its theoretical practical and productive aspects not in abstraction from historical social and political settings but rather as set in concrete historical and material circumstances Through the analysis and close reading of a number of texts of the modern thinkers which include those of Nietzsche Dostoevsky Tolstoy Kracauer Heidegger Benjamin Hans Jonas and Agnes Heller it demonstrates that the complexity and variety of the human experience is grounded in the modern subjectivity which establishes itself as universal rational autonomous and necessary Such a subjectivity is characterised as self legislating or establishing the universal moral law and is further defined by historicity or the interpretation of its actions as conditioned by the previous and current social and political circumstances The book then shows that the multiple facets of modernity make the experience of being human fascinating complicated and ultimately unique
