God's Pattern for Revitalization Robert Beckett, 2023-03-30 The most common question that most pastors and church leaders ask themselves is "Where do I start in revitalizing my church?" Revitalizing a church can seem like a daunting task, but there are some key steps that pastors and church leaders can take to begin the process of transforming their church into an active and vibrant center of the Christian community. The first step that pastors should take is to prayerfully assess the current state of the church. This will involve reflecting on the church's current successes and challenges to better understand where changes need to be made. That understanding can come only from God himself. God has provided us with an example of how revitalization and revival can take place in a church. This book will enlighten and inform on the way that God intends for his church to be vibrant and alive again in the community of believers and surrounding neighbors. Using Scripture as the pattern and guide, readers will gain confidence and courage to move their church forward in revitalization.

Business of the Heart John Corrigan, 2023-04-28 The Businessmen's Revival was a religious revival that unfolded in the wake of the 1857 market crash among white middle-class Protestants. Delving into the religious history of Boston in the 1850s, John Corrigan gives an imaginative and wide-ranging interpretive study of the revival's significance. He uses it as a focal point for addressing a spectacular range of phenomena in American culture: the ecclesiastical and business history of Boston, gender roles and family life, the history of the theater and public spectacle, education, boycott culture, and especially ideas about emotion during this period. This vividly written narrative recovers the emotional experiences of individuals from a wide array of little-used sources, including diaries, correspondence, public records, and other materials. From these sources, Corrigan discovers that for these Protestants, the expression of emotion was a matter of transactions. They saw emotion as a commodity and conceptualized relations between people and

between individuals and God as transactions of emotion governed by contract Religion became a business relation with God with prayer as its legal tender Entering this relationship they were conducting the business of the heart This innovative study shows that the revival with its commodification of emotional experience became an occasion for white Protestants to underscore differences between themselves and others The display of emotion was a primary indicator of membership in the Protestant majority as much as language skin color or dress style As Corrigan unravels the significance of these culturally constructed standards for emotional life his book makes an important contribution to recent efforts to explore the links between religion and emotion and is an important new chapter in the history of religion
