Sushmita Dutta, 2023-04-20 Goals are the cornerstone of success Goals serve as an aim or purpose that one works forward with effort and determination People have many different kinds of goals These include career goals relationship goals life goals and educational goals We can sum it up like this a goal is a dream with a deadline Setting goals helps us in taking a step backward to get an idea on what's really important in life It's the first step towards creating a life full of meaning At work setting goals as a team helps each team member perform better in their role One common thing that all human beings have are various goals that they would like to accomplish for themselves These goals vary from person to person However most people today have a tendency of going aimlessly in their quest to achieve their goals Aimlessness leads to failure and therefore young people are encouraged to have an aim in their lives and move towards that aim This book will not only help you realize your goals but make you learn the joy and satisfaction that comes from attaining your purpose in life Build your life around your goals and they will shape who you are at the end of the day *Counseling & Planning for Employee Development* Brian Estes, 1978
