The Creative Mind in Coleridge's Poetry Kathleen M. Wheeler, 1981 Five of Coleridge's major poems are given fresh scrutiny in this arresting study One of its unusual features is the attention given the Preface to Kubla Khan the Gloss to The Ancient Mariner and other prose accompaniments to the poems usually dismissed as extraneous Devices such as these the author argues are strategically employed by Coleridge in an effort to engage the reader in a fully imaginative response Kathleen Wheeler elucidates the texts in terms of aesthetic experience and also in terms of the philosophical principles that inform them showing how Coleridge's theories of mind and imagination function within the poems and shape their design A subtle and gifted reader of poetry she enriches our understanding of poems we thought we knew well and provides insights along the way into the creative process

Self and Symbolism in the Poetry of Michelangelo, John Donne and Agrippa D'Aubigne A.B. Altizer, Alma B. Altizer, 1973-07-31 Alienation ecstasy death rebirth in the poetry of Michelangelo Donne and d Aubigne these archetypal themes make possible the ultimate formulation of new poetic symbolizations of self and world As their poetry evolves from a primarily rhetorical towards a fully symbolic mode images of loss of self in ecstasy or in alienation of death and rebirth recur with increasing frequency and intensity Whether the context is love poetry or religious poetry the basic problem remains the same love is the link between the two kinds of poetry And love is indeed a problem for these three poets since it involves the self in relation to the other the other being either God or another human being Increasingly the work of each poet centers on a need to analyze or abolish the gulf separating subject and object self and other The dominant mode of most of the three poets work is neither rhetorical nor symbolic but expressive This transitional mode reveals the individual poet's most urgent concerns and conflicts his sense of self in Its most isolated or burdensome affirmative or struggling state Under lying most of their poems is a profound self consciousness a heightened awareness of self as a powerful separate entity with a corresponding objectification of all reality outside of self The Renaissance in general is a time of increasing individualism and 1 self consciousness

Mother-play and Nursery Songs; Poetry, Music and Pictures for the Noble Culture of Child Life Friedrich Wilhelm August Froebel, 1906 [A Hundred Little 3D Pictures / Poetry](#) Daniel Abdal-Hayy Moore, 2013 A Hundred Little 3D Pictures started out from those once popular computer generated images a certain stare unfocused or crosseyed could render in layered three dimensions with some really astonishing results Recall the excitement in childhood when we looked into a diorama and saw back and back past whatever was being portrayed not very far back really perhaps maybe only a

Day Lewis,2011-09-28 This book a most important and original contribution to the literature of interpretative criticism contains the Clark Lectures delivered at Cambridge University in 1946 Its theme is poetic imagery not only in its stricter sense of simile metaphor and image but in the wider application of the term by which every good poem is itself a total image made up of a multiplicity of component images The book is therefore more than an academic study of one aspect of poetic material and technique it is an investigation into the nature of poetry itself taking as its clue the belief as old as Aristotle that the power of image making is the one sure sign of poetic genius Beneath all the manifestations of the poetic image Mr Day Lewis traces one principle at work the abiding impulse in every human being to seek order and harmony behind the manifold and the changing *Heavenly Realms and Earthly Realities in Late Antique Religions* Ra'anana S. Boustani,Annette Yoshiko Reed,2004-08-16 The idea of heaven held a special place in the late antique imagination which was marked by a poignant sense of the relevance of otherworldly realities for earthly life Such concerns can be found not only in Judaism and Christianity but also in the Greco Roman religious philosophical scientific and magical traditions Transcending social regional and creedal boundaries the preoccupation with heaven in Late Antiquity serves as a focus for an interdisciplinary approach to understanding this formative era in Western culture and history Drawing upon the expertise of scholars of Classics Ancient History Jewish Studies and Patristics this volume explores the different functions of heavenly imagery in different texts and traditions in order to map the patterns of unity and diversity within the religious landscape of Late Antiquity *The Function of Imagery in the Appreciation and Interpretation of Poetry* Ina Maude Perego,1925 *Reflections on Spanish American Poetry* Jorge C. Andrade,1973-06-30 In these five essays the Ecuadorian poet Jorge Carrera Andrade traces the evolution of Spanish American poetry from the sixteenth century to the present The author shows how Spanish American literature grew out of the special conditions produced when the New World environment totally transformed Old World culture and society Initially the brilliance of the land and its extraordinary peoples inspired European interest in exotic travel and utopianism later Old World literary currents came to have distinctive expression in Spanish American writing Poetry and Society in Spanish America follows the historic commitment of the New World poets to social issues particularly such unique ones as the endeavor to bring the Indians into national life while Trends in Spanish American Poetry dwells on the more purely aesthetic concerns that have stimulated the poets of the twentieth century Throughout Carrera Andrade ties his analysis to specific poems and poets In the last two essays the author presents a clear perspective of his poetic development from 1930 to 1960 A Decade of My Poetry and Poetry of Reality and Utopia will especially interest readers of Carrera Andrade s poetry for not only do they elucidate the personal history and philosophy informing his poems they also reveal how truly his inspiration springs from that unique Spanish American world he has so clearly delineated Islamic Images and Ideas John Andrew Morrow,2013-11-05
