Artz, 1943 **Reaction and Revolution, 1814-1832 ... Illustrated** Frederick Binkherd ARTZ, 1934 **All in the Family**
Michael Herb, 2016-03-22 Michael Herb proposes a new paradigm for understanding politics in Saudi Arabia and the Gulf He
critiques the theory of the rentier state and argues that we must put political institutions and specifically monarchism at the
center of any explanation of Gulf politics All in the Family provides a compelling and fresh analysis of the importance of
monarchism in the region and points out the crucial role of the ruling families in creating monarchical regimes It addresses the
issue of democratization in the Middle Eastern monarchies arguing that the prospects for the gradual emergence of
constitutional monarchy are better than is often thought **Nonfictional Romantic Prose** Steven P. Sondrup, Virgil
Nemoianu, Gerald Gillespie, 2004 Nonfictional Romantic Prose Expanding Borders surveys a broad range of expository
polemical and analytical literary forms that came into prominence during the last two decades of the eighteenth century and
the first half of the nineteenth They stand in contrast to better known romantic fiction in that they endeavor to address the
world of daily empirical experience rather than that of more explicitly self referential fanciful creation Among them are
genres that have since the nineteenth century come to characterize many aspects of modern life like the periodical or the
psychological case study others flourished and enjoyed wide spread popularity during the nineteenth century but are much
less well known today like the almanac and the diary Travel narratives pamphlets religious and theological texts familiar
essays autobiographies literary critical and philosophical studies and discussions of the visual arts and music all had deep
historical roots when appropriated by romantic writers but prospered in their hands and assumed distinctive contours
indicative of the breadth of romantic thought SPECIAL OFFER 30% discount for a complete set order 5 vols The Romanticism
series in the Comparative History of Literatures in European Languages is the result of a remarkable international
collaboration The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce
five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its
principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction
to Romanticism have redefined themselves on into Modernism A glance at the index of each volume quickly reveals the
extraordinary richness of the series total contents Romantic Irony sets the broader experimental parameters of comparison
by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic
revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less
widely diffused language streams Romantic Drama traces creative innovations that deeply altered the understanding of

genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism's own self commentary in theoretical statements on the arts society life the sciences and more Nor are the discursive dimensions of imaginative literature neglected in the closing volume Romantic Prose Fiction where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age *War in the Modern World* Theodore Ropp, 2000-10-02 From the Renaissance to the Cold War the definitive survey of the social political military and technological aspects of modern warfare returns to print in a new paperback edition Topics include land and sea warfare from the Renaissance to the neoclassical age the Anglo American military tradition the French Revolution and Napoleon the Industrial Revolution and war and the First and Second World Wars and their aftermath *The Selection and Tenure of Judges* Evan Haynes, 2005 Haynes Evan The Selection and Tenure of Judges Newark The National Conference of Judicial Councils 1944 xix 308 pp Reprint available January 2005 by the Lawbook Exchange Ltd ISBN 1 58477 483 5 Cloth 85 With an introduction by Roscoe Pound Haynes offers a comprehensive overview of the factors that determine judicial selection in the United States It is also a useful history of the subject from the colonial era to 1943 Written with input from Pound Haynes offers a sociological analysis enriched with an impressive body of statistical data He examines such factors as class and region affiliation and whether elected judges are more liberal than their tenured colleagues He also compares American practices to those in Great Britain Canada France Italy Germany Scandinavia and Latin America Warmly received when it was first published it is recommended by Willard Hurst in *The Growth of American Law* The Lawmakers see p 454 *The Four Horsemen* Richard Stites, 2014-01-09 In a series of revolts starting in 1820 four military officers rode forth on horseback from obscure European towns to bring political freedom and a constitution to Spain Naples and Russia and national independence to the Greeks The men who launched these exploits from Andalusia to the snowy fields of Ukraine Colonel Rafael del Riego General Guglielmo Pepe General Alexandros Ypsilanti and Colonel Sergei Muraviev Apostol all hoped to overturn the old order Over the next six years their revolutions ended in failure The men who led them became martyrs In *The Four Horsemen* the late eminent

historian Richard Stites offers a compelling narrative history of these four revolutions Stites sets the stories side by side allowing him to compare events and movements and so illuminate such topics as the transfer of ideas and peoples across frontiers the formation of an international community of revolutionaries and the appropriation of Christian symbols and language for secular purposes He shows how expressive behavior and artifacts of all kinds art popular festivities propaganda and religion worked their way to various degrees into all the revolutionary movements and regimes And he documents as well the corruption abandonment of liberal values and outright betrayal of the revolution that emerged in Spain and Naples the clash of ambitions and ideas that wracked the unity of the Decembrists cause and civil war that erupted in the midst of the Greek struggle for independence Richard Stites was one of the most imaginative and broad ranging historians working in the United States This book is his last work a classic example of his dazzling knowledge and idiosyncratic yet accessible writing style The culmination of an esteemed career The Four Horsemen promises to enthrall anyone interested in nineteenth century Europe and the history of revolutions

The New Authoritarianism in Latin America David Collier, Fernando Henrique Cardoso, Joint Committee on Latin American Studies, 1979 While one of the most important attempts to explain the rise of authoritarian regimes and their relationship to problems of economic development has been the bureaucratic authoritarian model there has been growing dissatisfaction with various elements of this model In light of this dissatisfaction a group of leading economists political scientists and sociologists was brought together to assess the adequacy of the model and suggest directions for its reformulation This volume is the product of their discussions over a period of three years and represents an important advance in the critique and refinement of ideas about political development Part One provides an overview of the issues of social science analysis raised by the recent emergence of authoritarianism in Latin America and contains chapters by David Collier and Fernando Henrique Cardoso The chapters in Part Two address the problem of explaining the rise of bureaucratic authoritarianism and are written by Albert Hirschman Jose Serra Robert Kaufman and Julio Coder In Part Three Guillermo O Donnell James Kurth and David Collier discuss the likely future patterns of change in bureaucratic authoritarianism opportunities for extending the analysis to Europe and priorities for future research The book includes a glossary and an extensive bibliography

Haas, 2018-09-05 How do leaders perceive threat levels in world politics and what effects do those perceptions have on policy choices Mark L Haas focuses on how ideology shapes perception He does not delineate the content of particular ideologies but rather the degree of difference among them Degree of ideological difference is he believes the crucial factor as leaders decide which nations threaten and which bolster their state s security and their own domestic power These threat perceptions will in turn impel leaders to make particular foreign policy choices Haas examines great power relations in five periods the 1790s in Europe the Concert of Europe 1815 1848 the 1930s in Europe Sino Soviet relations from 1949 to 1960 and the end of the Cold War In each case he finds a clear relationship between the degree of ideological differences that divided state leaders and those leaders perceptions of threat level and so of appropriate foreign policy choices These relationships held in most cases regardless of the nature of the ideologies in question the offense defense balance and changes in the international distribution of power **Giacomo Meyerbeer** Marco Clemente Pellegrini, 2008-10-01 This Guide has resulted from years of research on the papers and music of Giacomo Meyerbeer and aims to provide a bibliographical aid and point of reference for further research The first part presents the private papers connected to the composer and his principal librettist Eug ne Scribe both archival and printed with working papers and correspondence as found in Berlin Paris and some of the famous libraries of the world The body of Part 2 draws together all the known resources on Meyerbeer s life and historical reputation from full scale biographies and entries in reference books through critical discussions to website resources to records of symposia The third part provides material about his background with its unique mixture of Jewish and Prussian elements the powerful role of the city of Berlin in his life and work The fourth part lists bibliographic material for Meyerbeer s music looking at his operas grouped as German Italian and French with each individual entry providing a record of the scores available both modern and historical the various arrangements made from the operas during the heyday of their popularity reviews of modern performances discography and bibliography of studies and publications pertinent to the wider cultural and historical contexts of the works The next two sections constitute an extended record of material pertinent to the contemporaries of Meyerbeer In the fifth section are select bibliographies of composers authors artists performers politicians those who played some part in the composer s life or anyone of significance in his wider contemporary circumstances This is continued in the sixth part where the cultural and aesthetic elements of the composer s milieu or life in the theatre during seventy years of the nineteenth

century are listed The seventh part adds a bibliography of social and historical background where the incidental issues of Judaism in nineteenth century Europe and the wider political historical and geographical circumstances of Meyerbeer's life his relentless travelling and closely recorded experiences in Germany France Italy Belgium England and Austria The eighth section provides a thematic key to this extensive material Part 9 provides an extended tripartite series of lists of the published scores arrangements and some special studies of Meyerbeer over the period 1820 to 2005 in alphabetical chronological and thematic ordering The last two sections furnish the modern equivalent of this record of Meyerbeer and his compositions showing in Part 11 the list of performances of his operas since the Second World War and in Part 12 listing the recordings of the operas both commercial and private for the same period The thirteenth and last section is iconographical pictures that represent an interesting survey of the popular response to Meyerbeer in the 19th century

Political Censorship of the Arts and the Press in Nineteenth-Century Europe Robert Justin Goldstein, 1989-08-14 Political Censorship of the Arts and the Press in Nineteenth Century Europe presents a comprehensive account of the attempts by authorities throughout Europe to stifle the growth of political opposition during the nineteenth century by censoring newspapers books caricatures plays operas and film Appeals for democracy and social reform were especially suspect to the authorities so in Russia cookbooks which referred to free air in ovens were censored as subversive while in England in 1829 the censor struck from a play the remark that honest men at court don't take up much room While nineteenth century European political censorship blocked the open circulation of much opposition writing and art it never succeeded entirely in its aim since writers artists and consumers often evaded the censors by clandestine circulation of forbidden material and by the widely practised skill of reading between the lines

The Meek and the Militant Paul N. Siegel, 2005 An invaluable critical analysis of how religion shapes politics encouraging both submission and at times revolution

Europe on the Path to Self-Destruction Jack L. Schwartzwald, 2022-07-27 Between the years 1815 and 1945 Europe achieved unrivaled global dominance only to see it shattered by two world wars This frenetic rise and fall was attended by immense societal change In 1815 Europe remained largely agricultural and dependent upon horsepower By 1945 the power of the atom had been unleashed Two industrial revolutions occurred in the interim the first founded upon coal iron and steam the second upon oil steel electricity and internal combustion The implications for humanity were profound This concise yet comprehensive study is divided into three sections In section one the map of Europe emerges in its modern visage as unrestrained nationalist fervor gives rise to an assemblage of new nation states In section two the continent attains global hegemony as massive industrialization fuels a mad scramble for colonial markets and raw materials In section three a cauldron of national ethnic and class hatreds spawn the rise of totalitarianism and the overthrow of European hegemony in two calamitous world wars By tracing the events and undercurrents of this vital period in European history this book offers trenchant insights for the lay reader and the student of history alike

Publishers Weekly *Political Repression in 19th Century Europe* Robert Justin Goldstein, 2013-06-17 Originally published
in 1983 The nineteenth century was a time of great economic social and political change As Europe modernized previously
ignorant and apathetic elements in the population began to demand political freedoms There was pressure also for a freer
press for the rights of assembly and association The apprehension of the existing elites manifested itself in an intensification
of often brutal form of political repression The first part of this book summarizes on a pan European basis the major
techniques of repression such as the denial of popular franchise and press censorship This is followed by a chronological
survey of these techniques from 1815 1914 in each European country The book analyzes the long and short term importance
of these events for European historical development in the 19th and 20th centuries
