Occupying Our Space Cristina Devereaux Ramírez,2015-04-02 Winifred Bryan Horner Outstanding Book Award Winner

Occupying Our Space sheds new light on the contributions of Mexican women journalists and writers during the late nineteenth and early twentieth centuries marked as the zenith of Mexican journalism Journalists played a significant role in transforming Mexican social and political life before and after the Revolution 1910 1920 and women were a part of this movement as publishers writers public speakers and political activists However their contributions to the broad historical changes associated with the Revolution as well as the pre and post revolutionary eras are often excluded or overlooked This book fills a gap in feminine rhetorical history by providing an in depth look at several important journalists who claimed rhetorical puestos or public speaking spaces The book closely examines the writings of Laureana Wright de Kleinhans 1842 1896 Juana Bel n Guti rrez de Mendoza 1875 1942 the political group Las mujeres de Zit cuaro 1900 Hermila Galindo 1896 1954 and others Grounded in the overarching theoretical lens of mestiza rhetoric Occupying Our Space considers the ways in which Mexican women journalists negotiated shifting feminine identities and the emerging national politics of the late nineteenth and early twentieth centuries With full length Spanish primary documents along with their translations this scholarship reframes the conversation about the rhetorical and intellectual role women played in the ever changing political and identity culture in Mexico *Official Gazette of the United States Patent and Trademark Office* ,2002 *Space and Time in African Cinema and Cine-scapes* Kenneth W. Harrow,2022-06-28 This book is the first of its kind to bring basic notions of contemporary physics to bear on African cine scapes In this book renowned African cinema scholar Kenneth W Harrow presents unique new ways to think about space and time in film with a specific focus on African and African diasporic cinema Through a series of case studies he explores how cinema creates and represents time and space and more specifically how a cinema centered in African landscapes and figures accomplishes this He reflects on the issues and problems posed by scientists when faced with the basic questions of what space and time are and their solutions or conclusions giving both film studies and African studies scholars access to new ways to formulate their thinking about African cine scapes Working beyond the limits of a framework based in a postcolonial and cultural understanding of time and space Harrow demonstrates how a scientific understanding of time and space can open up new approaches to African cinema and cinema in general A unique interdisciplinary book that encourages brand new ways to approach cinematic texts and specifically African cine scapes

Positive Discipline: The First Three Years, Revised and Updated Edition Jane Nelsen,Cheryl Erwin, MA,Roslyn Ann Duffy,2015-02-24 The celebrated Positive Discipline brand of parenting books presents the revised and updated third edition of their readable and practical guide to communicating boundaries to very young children and solving

early discipline problems to set children up for success Over the years millions of parents have used the amazingly effective strategies of Positive Discipline to raise happy well behaved and successful children Research has shown that the first three years in a child s life are a critical moment in their development and that behavior patterns instilled during that time can have profound implications for the rest of a child s life Hundreds of thousands of parents have already used the advice in Positive Discipline The First Three Years to help set effective boundaries forge strong foundations for healthy communication and lay the groundwork for happy and respectful relationships with their young children Now this classic title has been revised and updated to reflect the latest neuroscientific research and developments in positive discipline parenting techniques

Garretson,2023-03-31 If China s space ambitions continue unchallenged America will be seriously economically and militarily disadvantaged This book provides a comprehensive strategy to secure U S primacy in the space domain From Moon landings to plans for asteroid mining China is beginning to exploit space to achieve its great power ambitions Its strategy could over time severely and adversely impact U S economic and military security The United States needs to structure its approach to space to ensure that it can meet or surpass PRC timelines Authors Richard M Harrison and Peter A Garretson both from the American Foreign Policy Council review the literature on Chinese space ambitions and assess U S space related initiatives across the government military and private sector to understand the maturity of technology available to support space initiatives Their first hand research and findings are supplemented by interviews with industry experts corporate space leaders and government and military officials The Next Space Race describes and seeks to influence the development of American space policy to ensure the U S industrial base is ready to meet or surpass PRC milestones empower and clarify the mission of the newly minted Space Force provide guidance to NASA and other federal agencies and incentivize private sector companies to contribute to ensuring American space primacy *Electromagnetic Radiation in Space* J.G.

Emming,2012-12-06 The subject of this volume in the Astrophysics and Space Science Library is Electro magnetic Radiation in Space It is essentially based on the lectures given at the third ESRO Summer School which was held from 19 July to 13 August 1965 in Alpbach Austria Fifty eight selected students attended the courses representing the following countries Austria 2 Belgium 1 Denmark 1 France 12 Germany 10 Italy 7 Netherlands 2 Spain 4 Sweden 6 Switzerland 3 United Kingdom 9 United States 1 Thirteen lectures courses and nine seminars were given by sixteen different scientists in total In this book the courses and seminars have been classified in three parts according to the kind of radiation which they mainly deal with Ultraviolet Radiation X Radiation and Cosmic Radiation These parts can be broken down further in theoretical and observational aspects whereas in the first and second part solar as well as stellar ultraviolet and X radiation can be

distinguished Due to various reasons the publication of this volume had to be delayed it was therefore judged appropriate to bring the text up to date The various lecturers have been asked to revise the manuscripts and to eventually add new information which has been acquired in this rapidly evolving field of space astrophysics Most authors have responded positively to this request some even have completely rewritten the manuscript
