Newsome, 2001-09-15 Based on a thorough analysis of the imagery and inscriptions of seven stelae erected in the Great Plaza at Copan Honduras by the Classic Period ruler 18 Rabbit God K this study argues that stelae were erected not only to support a ruler's temporal claims to power but more importantly to express the fundamental connection in Maya worldview between rulership and the cosmology inherent in their vision of cyclical time After an overview of the archaeology and history of Copan and the reign and monuments of 18 Rabbit God K Elizabeth Newsome interprets the iconography and inscriptions on the stelae illustrating the way they fulfilled a coordinated vision of the king's ceremonial role in Copan's period ending rites She also links their imagery to key Maya concepts about the origin of the universe expressed in the cosmologies and mythic lore of ancient and living Maya peoples Because previous scholarship has never assigned all seven monuments to a single

period or the patronage of one ruler the uniqueness of Newsome's study lies in the way it explicates the overall meaning and function of the stela series with respect to the long term activities and agendas of one king

field provided by Blackwell North America Inc All Rights Reserved **Reading the Dream** Peter Dale Scott, 2024-01-16 In Reading the Dream the poet and scholar Peter Dale Scott has composed a poem in prose for our time This is a work of art emerging from a passionate social vision Scott examines our present state of post secularity through the imagination of the past Using devices such as the rational and nonrational or the yin and the yang Scott focuses not just on the reasoned current of written history but also on myths beliefs and even dreams The author searches for moreness throughout the culture of the past He reawakens the ultimate human quest for transcendence of ourselves to repair a political order in ruins This book seeks to transcend the slow breakdown of our current global political order by returning to its generative cultural roots in enlightenment that is both secular and spiritual enlightenment It sees our emerging global culture as dialectical on interconnected levels the tension between scientific yang analysis and non rational yin hopes and dreams the source of this tension in the bicameral human brain in competing rural and urban ethical values and in the master servant relationship Behind the screen history of chaotic political violence it revives a vision of cultural progress in which the vertical imposition of political order from above is slowly supplanted by the emerging post secular tolerance of cultural diversity including both religion and science from below
