*Straddling Borders* Elaine Rusinko, 2003-01-01 The

Subcarpathian Rusyns are an east Slavic people who live along the southern slopes of the Carpathian mountains where the borders of Ukraine Slovakia and Poland meet Through centuries of oppression under the Austro Hungarian and Soviet empires they have struggled to preserve their culture and identity Rusyn literature reflecting various national influences and written in several linguistic variants has historically been a response to social conditions an affirmation of identity and a strategy to ensure national survival In this first English language study of Rusyn literature Elaine Rusinko looks at the literary history of Subcarpathia from the perspective of cultural studies and postcolonial theory presenting Rusyn literature as a process of continual negotiation among states religions and languages resulting in a characteristic hybridity that has made it difficult to classify Rusyn literature in traditional literary scholarship Rusinko traces Rusyn literature from its emergence in the sixteenth century through the national awakening of the mid nineteenth century and its struggle for survival under Hungarian oppression to its renaissance in inter war Czechoslovakia She argues that Rusyn literature provides an acute illustration of the constructedness of national identity and has prefigured international postmodern culture with its emphasis on border crossings intersecting influences and liminal spaces With extracts from Rusyn texts never before available in English Rusinko s study creates an entirely new perspective on Rusyn literature that rescues it from the clichés of Soviet dominated critical theory and makes an important contribution to Slavic studies in particular and post colonial critical studies in general Honest Doubt James A. Haught,2010-06-02

Despite the prevalence of religious belief in the United States nearly 200 million Americans belong to 350 000 congregations a growing minority 14 percent of U S adults identify with no religion whatsoever Journalist James A Haught addresses the secular segment of American society in this interesting collection of incisive essays that give voice to honest doubts about religious beliefs Taken together Haught s essays endorse the idea that freedom of religion must include freedom to doubt as well as to believe Individually the articles present many different reasons to doubt Intellectual integrity demands that we express doubts about beliefs for which there is no scientific evidence The historical record past and present shows that religion is often the cause of evils from the Inquisition and the burning of witches to current terrorist violence committed in the name of religion Natural evils such as the 2004 Asian tsunami and devastating diseases should make any thoughtful person question whether an all powerful and all merciful God governs the universe The sheer number and diversity of often conflicting belief systems raise serious doubts about the philosophical coherence of religion as an approach to finding the truth Scandals among the clergy undermine the credibility of religion as a sound basis for morality Written in a straightforward conversational style that makes clear the many scientific philosophical and ethical difficulties that plague religion Haught s thought provoking essays will appeal to atheists agnostics and anyone with questions about religion **Towards a History of the Literary Cultures in East-Central Europe**
