Reading Abbey Cartularies I:

English Medieval Books Alan Coates, 1999 This history of the books of Reading Abbey covers the period from the abbey's foundation to its dissolution and follows up the dispersal of the book collections to c 1610 It provides valuable material on the use ways in which books were used and about the intellectual life of a medieval monastery By continuing the story beyond the Dissolution and charting the initial stages of the dispersal of the Abbey's books many into the large institutional collections which are their homes today Alan Coates makes a valuable contribution to our understanding of the fate of monastic books and book collecting in the post Dissolution period *Reading Abbey Cartularies*, 1964 **Reading Abbey Cartularies: Berkshire documents, Scottish charters, and miscellaneous documents** B. R. Kemp, 1986 Henry I C. Warren Hollister, 2008-10-01 Henry I son of William the Conqueror ruled from 1100 to 1135 a time of fundamental change in the Anglo Norman world This long awaited biography written by one of the most distinguished medievalists of his generation offers a major reassessment of Henry's character and reign Challenging the dark and dated portrait of the king as brutal greedy and repressive it argues instead that Henry's rule was based on reason and order C Warren Hollister points out that Henry laid the foundations for judicial and financial institutions usually attributed to his grandson Henry II Royal government was centralized and systematized leading to firm stable and peaceful rule for his subjects in both England and Normandy By mid reign Henry I was the most powerful king in Western Europe and with astute diplomacy an intelligence network and strategic marriages of his children legitimate and illegitimate he was able to undermine the various coalitions mounted against him Henry strove throughout his reign to solidify the Anglo Norman dynasty and his marriage linked the Normans to the Old English line Hollister vividly describes Henry's life and reign places them against the political background of the time and provides analytical studies of the king and his magnates the royal administration and relations between king and church The resulting volume is one that will be welcomed by students and general readers alike **Reading Abbey Cartularies** B. R. Kemp, 1987 **A Legend of Reading Abbey** Charles MacFarlane, 1898 **Reading Abbey cartularies** B. R. Kemp, 1987 *Reading Abbey Cartularies* B. R. Kemp, 1986 Urban Society and Monastic Lordship in Reading, 1350-1600 Joe Chick, 2022 Interrogates the standard view of turbulent and violent town abbey relations through a combination of traditional and new research techniques The power of the medieval Church stretched far beyond the religious sphere Bishops and monasteries held lordship over vast areas of the realm often wielding political and judicial powers beyond those of secular lords Early twentieth century scholarship tended to view towns with monastic lords as highly distinctive characterised by robust lordship and violent town abbey relations and though subsequent studies have done much to modify this view of relationships between towns and their monastic lords the shadow of this dramatic interpretation still colours our understanding of these situations Conversely through a detailed examination of the governmental guild parish and testamentary records of Reading one of the more populous monastic towns of the period this book presents a view of town

abbey relations as largely non violent thus problematising the more traditional characterisation and interrogating its universality Uncovering a remarkably swift transition from monastic lordship to self government it illuminates how urban society functioned under two very different regimes both before and after the dissolution of the monasteries By combining traditional research methods with Social Network Analysis the author moves beyond a focus on the political elites and institutionalised bodies such as the corporation to look at lower status members of society and how they interacted with the successive governing authorities In particular it investigates what continuities and changes to local governance they experienced during this turbulent period

Saints and their Communities Simon Yarrow, 2006-02-23 *Saints and their Communities* offers a new approach to the study of lay religion as evidenced in collections of miracle narratives in twelfth century England There are a number of problems associated with the interpretation of this hagiographical genre and an extended introduction discusses these The first issue is the tendency to read these narratives as transparent accounts of lay religion as if it were something susceptible to static ethnographic treatment in isolation from wider social and political activities The second issue is the challenge of explaining the miraculous as a credible part of cultural experience without appealing to reductionist notions of a medieval mindset The third issue is the problem of how to take full account of the fact that these sources are representations of lay experience by monastic authors The author argues that miracle narratives were the product of and helped to foster lay notions of Christian practice and identity centred on the spiritual patronage of certain enshrined saints The six main chapters provide fully contextualized studies of selected miracle collections Yarrow looks at when these collections were made who wrote them the kinds of audiences they are likely to have reached and the messages they were intended to convey He shows how these texts served to represent specific cults in terms that articulated the values and interests of the institutions acting as custodians of the relics and how alongside other programmes of textual production these collections of stories can be linked to occasions of uncertainty or need in the life of these institutions A concluding chapter argues the case for miracle collections as evidence of the attempt by traditional monasteries to reach out to the relatively affluent peasantry and to urban communities in society and their rural hinterlands with offers of protection and opportunities for them to express their social status with reference to tomb centred sanctity

Anglo-Norman Studies XXXII C. P. Lewis, 2010 This latest volume reflects the full range and vitality of the current work on the Anglo Norman period Topics covered include economic history social history and a close study of the Surrey manor of Mortlake

Heresy and the Making of European Culture Andrew P. Roach, James R. Simpson, 2016-04-22 Scholars and analysts seeking to illuminate the extraordinary creativity and innovation evident in European medieval cultures and their afterlives have thus far neglected the important role of religious heresy The papers collected here reflecting the disciplines of history literature theology philosophy economics and law examine the intellectual and social investments characteristic of both deliberate religious dissent such as the Cathars of Languedoc the Balkan Bogomils the Hussites of Bohemia and those who knowingly or

unknowingly bent or broke the rules creating their own unofficial orthodoxies Attempts to understand police and eradicate all these through methods such as the Inquisition required no less ingenuity The ambivalent dynamic evident in the tensions between coercion and dissent is still recognisable and productive in the world today Reading Abbey Cartularies Brian Richard Kemp,1986 *The Letters of Robert Grosseteste, Bishop of Lincoln* Robert Grosseteste,2010-01-01 This is a highly readable and accurate translation The very useful annotations help to orient the modern reader with respect to medieval concepts reflecting a profound understanding of thirteenth century institutional history and the social and legal context of medieval Christianity An extraordinary piece of scholarship James Ginther Department of Theological Studies St Louis University Robert Grosseteste c 1170 1253 was an English statesman philosopher theologian and bishop of Lincoln and also one of the most controversial figures in his country s episcopate His long life coincided with the central period of institutional intellectual and religious consolidation in medieval Europe and his letters provide important insights into the practices and preoccupations of the English clergy and laity in the first half of the thirteenth century This volume contains the first complete translation of Grosseteste s collected Latin letters and shows that these were most likely chosen and arranged by Grosseteste himself Shedding light on some of the period s crucial debates on issues of theology law pastoral care and episcopal authority F A C Mantello and Joseph Goering s richly annotated English translation makes his letters more accessible than ever for scholars and students and for those interested in medieval history religion and culture **The Book of the Foundation of Walden Monastery** ,1999-08-19 The monastery of Walden was founded c 1136 by Geoffrey de Mandeville a prominent baron in the civil war of Stephen s reign Its site just outside the town of Saffron Walden in Essex is now occupied by the great Jacobean mansion known as Audley End House The Book of the Foundation of Walden Monastery written by a Walden monk soon after 1203 is here printed in its entirety for the first time This lively narrative relates the history of the Mandeville earls of Essex and the inheritance of their lands and title by King John s justiciar Geoffrey fitz Peter The monk author describes the development of the priory at Walden and its elevation to the status of a Benedictine abbey in 1190 and in the final section of the work he traces the consequent conflict with Geoffrey fitz Peter concluding the story with the death of Abbot Reginald in 1200 or 1203 The interest of The Book of the Foundation of Walden Monastery extends far beyond the local the editors introduction and notes establish its position as a valuable historical source *Charters and Charter Scholarship in Britain and Ireland* M. Flanagan,J. Green,2005-07-14 This book draws together a collection of essays looking at the ways in which charters and charter scholarship in different areas of Britain and Ireland highlighting comparisons and contrasts in charter production and use The book shows the crucial importance of charters as sources for understanding the history of royal administration and more broadly the perceptions and portrayals of kingly power as well as developments in written culture *Leaders of the Anglo-Saxon Church* Alexander R. Rumble,2012 Essays bring out the important and complex roles played by Anglo Saxon churchmen including Bede and lesser known figures Both episcopal and

abbatial authority were of fundamental importance to the development of the Christian church in Anglo Saxon England Bishops and heads of monastic houses were invested with a variety of types of power and influence Their actions decisions and writings could change not only their own institutions but also the national church while their interaction with the king and his court affected wider contemporary society Theories of ecclesiastical leadership were expounded in contemporary texts and documents But how far did image or ideal reflect reality How much room was there for individuals to use their office to promote new ideas The papers in this volume illustrate the important roles played by individual leading ecclesiastics in England both within the church and in the wider political sphere from the late seventh to the mid eleventh century The undeniable authority of Bede and Bishop thelwald is demonstrated but also the influence of less familiar figures such as Bishop Wulfsig of Sherborne Archbishop Ecgberht of York and St Leoba The book draws on both textual and material evidence to show the influence by both deed and reputation of powerful personalities not only on the developing institutions of the English church but also on the secular politics of their time Contributors Alexander R Rumble Nicholas J Higham Martyn J Ryan Cassandra Rhodes Allan Scott McKinley Dominik Wassenhoven Gale R Owen Crocker Debby Banham Joyce Hill

Pope Innocent II (1130-43) John Doran, Damian J. Smith, 2016-06-10 The pontificate of Innocent II 1130 1143 has long been recognized as a watershed in the history of the papacy marking the transition from the age of reform to the so called papal monarchy when an earlier generation of idealistic reformers gave way to hard headed pragmatists intent on securing worldly power for the Church Whilst such a conception may be a cliché its effect has been to concentrate scholarship more on the schism of 1130 and its effects than on Innocent II himself This volume puts Innocent at the centre bringing together the authorities in the field to give an overarching view of his pontificate which was very important in terms of the internationalization of the papacy the internal development of the Roman Curia the integrity of the papal state and the governance of the local church as well as vital to the development of the Kingdom of Sicily and the Empire
