Reading Development In A Second Language Theoretical Empirical And Classroom Perspectives:

Reading Development in a Second Language Elizabeth Buchter Bernhardt, 1991 Bernhardt advocates more principled research and instruction in second language literacy This book is a personal statement based on her own theory and research as well as that of others It provides a comprehensive review of what is known about the second language reading process based on principles drawn from the synthesis of empirical data The discussion is set forth from four main perspectives an examination of theoretical models of the reading process and their application to second language contexts a synthesis of empirical data of second language reading research from 1973 to 1989 descriptions of reader based interactions with second language texts and curriculum instruction and assessment Reading Development in a Second Language Elizabeth

Buchter Bernhardt, 1991-01-01 eading Development in a Second Language attempts to provide a thorough account of what is known about the acquisition of reading abilities in a second language Its aim is to foster more principled research and instruction in second language literacy In order to teach the aim discussion is set forth from a variety of perspectives first through examinations of theoretical models of the reading process and their application to a second language context second through a synthesis of the empirical data base from 1973 to the present third by means of descriptions of reader based interactions with second language texts and finally through concepts of curriculum instruction and assessment **Reading**

in a Second Language A.H. Urquhart, Cyril J. Weir, 2014-06-06 Reading in a Second Language sets the testing and teaching of reading against a theoretical background discussing research from both applied linguistics and cognitive psychology Where possible it focuses on research into second language readers and distinguishes different kinds of reading particularly expeditious as opposed to careful reading and emphasizes the validity of each Sandy Urquhart and Cyril Weir relate testing and teaching discussing similarities and differences providing a comprehensive survey of both methods with the emphasis on those which have been substantiated or supported by research evidence Finally the book proposes specific research topics and detailed advice on how to construct tests of language for academic purposes and suggestions for further research
