Connor, 2016-02-26 Learning to read may be the most complex cognitive operation that children are expected to master and the latest research in cognitive development has offered important insights into how children succeed or fail at this task The Cognitive Development of Reading and Reading Comprehension is a multidisciplinary evidence based resource for teachers and researchers that examines reading comprehension from a cognitive development perspective including the principal theories and methods used in the discipline The book combines research into basic cognitive processes genetics perception memory executive functioning and language with an investigation of the effects that context and environment have on literacy outcomes making clear how factors such as health family life community policy and ecology can influence children s cognitive development **Improving Reading and Reading Engagement in the 21st Century** Clarence Ng, Brendan

Bartlett, 2017-05-31 This book presents cutting edge research findings in areas critical to advancing reading research in the 21st century context including new literacies reading motivation strategy instruction and reading intervention studies While students reading performance is currently receiving unprecedented attention there is a lack of research that adopts an international perspective and draws on research expertise from different parts of the world to present a concerted effort discussing key research models and findings on how to improve reading education Addressing this gap in the literature the book also responds to the challenge of promoting higher levels of literacy and supporting and developing readers who can enjoy and critique texts of every genre Reading Development and Difficulties Kate Cain, 2010-06-21 This accessible text brings together research on word reading and comprehension development which are often treated separately and provides a comprehensive and detailed introductory text to reading development and difficulties Key features include An introduction to the important issues in reading research and the skills involved in reading words and understanding text from the point of

view of both a beginner and a skilled reader A consideration of the similarities and differences between written and spoken language and the advantages and disadvantages of different methodological approaches An examination of how failures in reading comprehension skills can create difficulties and disorders A consideration of the implications of this research for the teaching of reading and the diagnosis and treatment of reading difficulties This text will be useful to many different groups of readers not only researchers and students in psychology but also those who work in more applied settings such as students in education and speech and language therapy who may have a limited background knowledge of the psychology of reading

Language Acquisition and Development Brian Tomlinson, 2007-04-01 Examines language acquisition and development across a wide range of languages and contexts *Teaching Reading Comprehension to English Learners in Secondary Schools: A Research-Based Approach* Cekiso, Madoda, Olifant, Florence, Mokhtari, Kouider, 2025-04-23 Teaching reading comprehension to English learners ELs in secondary schools presents unique challenges as these students must navigate the complexities of academic texts and the intricacies of language acquisition Effective instruction requires a research based approach that considers the diverse linguistic cultural and cognitive backgrounds of these learners Recent studies highlight the importance of integrating strategies that build both language proficiency and content knowledge essential for helping ELs develop the skills needed to comprehend complex materials Fostering metacognitive awareness through strategies like summarizing questioning and making connections can empower students to become active and strategic readers This approach recognizes the need for a supportive inclusive classroom environment that encourages language development while promoting academic achievement in content areas Further research may help educators provide English learners with the tools to thrive as capable readers in secondary school *Teaching Reading Comprehension to English Learners in Secondary School A Research Based Approach* explores various aspects of teaching reading comprehension to English Second Language ESL learners in secondary schools It examines current challenges and evidence based strategies in reading comprehension This book covers topics such as language learning reading strategies and teacher training and is a useful resource for academicians researchers and scientists *Children's Literacy Development* Catherine McBride, 2015-12-14 In the thoroughly updated second edition of this unique book Catherine McBride examines how the languages we know help structure the process of becoming literate Taking an ecological and distinctively cross cultural perspective the book looks at reading and writing development and impairment across a range of languages scripts and contexts The book covers issues including The importance of phonological sensitivity for learning to read and to write The first units or building blocks of literacy learning in different scripts such as Chinese English Korean Hangul Hebrew Hindi and Arabic The role of visual processing in reading and writing skills How the latest research can inform the teaching of reading An overview of our understanding of dyslexia including recent neuroscientific research The developmental challenges in becoming biliterate What is special about writing for beginners and later for comprehensive writing Basics of reading comprehension Children s

Literacy Development Second Edition is a timely and important contribution to our understanding of literacy around the world. Written by an eminent scholar in the field, it is the only book available that provides an overview of how children learn to read and write in different languages and will be essential reading for all students of Developmental Psychology, Educational Psychology, Psycholinguistics and Speech Therapy. **Dyslexia and Literacy** Gavin Reid, Janice Wearmouth, 2002-10-11. Dyslexia and Literacy provides a comprehensive practical introduction for all professionals seeking an understanding of dyslexia in children. Divided into four parts, the book firstly introduces the various theoretical perspectives and follows this up with identification and assessment techniques with an emphasis on practical classroom related issues. The third part of the text covers topics related to the school curriculum and a final section covers issues that relate to the learning process. Development and Education Studies Prof. Dr. Hatice BEKİR, Ph.D. Vedat BAYRAKTAR, Res. Asst. Şerife Nur KARAÇELİK, 2020-11-08. Early math skills are crucial to children's math and school success in the following years. The use of storybooks as a mathematics learning method has been discussed frequently in recent years. Shared book reading allows different mathematical conversations to pass between parent or teacher and child. NCTM 1989 promotes the using of mathematics storybooks as a way of introducing mathematical ideas to children as it offers a meaningful context for teaching mathematics concepts to children. Shared book reading improves children's problem solving skills, allows for an exchange of ideas, establishes logical and may prompt discussion of abstract concepts. This chapter reviews how children learn mathematics and research on the use of storybooks for mathematics skill development. It concludes with examples of how explicit and implicit storybooks in either paper or digital versions may be used. **Keywords:** Storybooks, mathematics, children's learning of mathematics, children's development. *Contemporary Debates in Childhood Education and Development* Sebastian Suggate, Elaine Reese, 2012. *Contemporary Debates in Childhood Education and Development* is a unique resource and reference work that brings together leading international researchers and thinkers with divergent points of view to discuss contemporary problems and questions in childhood education and developmental psychology.
