How to Resolve Conflicts Through Listening Pramila Ahuja,G. C. Ahuja,Amita Ahuja,1997-08-01 **Language, Reading, and the Communication Process** International Reading Association,1971 **Literature as Communication** Roger D. Sell,2000 This book offers foundations for a literary criticism which seeks to mediate between writers and readers belonging to different historical periods or social groupings This makes it among other things a timely intervention in the postmodern culture wars though the theory put forward will be of interest not only to students of literature and culture but also to linguists Sell describes communication in general as strongly interactive as very much affected by the disparate situationalities of sending and receiving yet as by no means completely determined by them Seen this way men and women are both social beings and individuals capable of empathizing with sociohistorical formations which are alien to them sometimes even to the extent of changing their own life world By treating literary activity as communicational in this same dynamic sense Sell radically modifies the main paradigms of twentieth century literary theory casting much new light on questions of genre interpretation affect and ethics *Communication and Conflict Transformation through Local, Regional, and Global Engagement* Peter M. Kellett,Thomas G. Matyók,2016-12-13 Central to a transformational approach to conflict is the idea that conflicts must be viewed as embedded within broader relational patterns and social and discursive structures and must be addressed as such This implies the need for systemic change at generative levels in order to create genuine transformation at the level of particular conflicts Central also to this book is the idea that the origins of transformation can be momentary or situational small scale or micro level as well as bigger and more systemic or macro level Micro level changes involve shifts and meaningful changes in communication and related patterns that are created in communication between people Such transformative changes can radiate out into more systemic levels and systemic transformative changes can radiate inwards to more micro levels This book engages this transformative framework Within this framework this book pulls together current work that epitomizes and highlights the contribution of communication scholarship and communication centered approaches to conflict transformation in local community regional environmental and global conflicts in various parts of the world The resulting volume presents an engaging mix of scholarly chapters think pieces and experiences from the field of practice The book embraces a wide variety of theoretical and methodological approaches as

well as transformative techniques and processes including narrative dialogic critical cultural linguistic conversation analytic discourse analytic and rhetorical This book makes a valuable contribution to the ongoing dialogue across and between disciplines and people on how to transform conflicts creatively sustainably and ethically *Senate Journal* Hawaii. Deconstructing Communication Briankle G. Chang,1996 Through a detailed examination of the basis of the idea of communication with its semantic core of commonality or the transcendence of

difference Chang argues against the tendency of theorists to value understanding over misunderstanding clarity over ambiguity order over disorder To this end the author revisits the thought of Derrida and considers deconstruction in general Specifically he uses the critique of the phenomenological tradition emerging from poststructuralism to clarify the commitments and assumptions inherent in models of communication A seminal work Deconstructing Communication will serve as the guiding framework for a constructive debate about the future direction of communication theory Situated at the intersection of current debates regarding meaning and representation Deconstructing Communication casts doubt on the seeming innocence of the activity of communication Using poststructuralist literary theory and philosophy Brian K. G. Chang argues that modern theories fail to provide an adequate explanation for how communication is possible
