The Story of the Dinosaurs in 25 Discoveries Donald R. Prothero,2019-07-16 Today any kid can rattle off the names of dozens of dinosaurs But it took centuries of scientific effort and a lot of luck to discover and establish the diversity of dinosaur species we now know How did we learn that Triceratops had three horns Why don t many paleontologists consider Brontosaurus a valid species What convinced scientists that modern birds are relatives of ancient Velociraptor In *The Story of the Dinosaurs in 25 Discoveries* Donald R Prothero tells the fascinating stories behind the most important fossil finds and the intrepid researchers who unearthed them In twenty five vivid vignettes he weaves together dramatic tales of dinosaur discoveries with what modern science now knows about the species to which they belong Prothero takes us from eighteenth century sightings of colossal bones taken for biblical giants through recent discoveries of enormous predators even larger than Tyrannosaurus He recounts the escapades of the larger than life personalities who made modern paleontology including scientific rivalries like the nineteenth century Bone Wars Prothero also details how to draw the boundaries between species and explores debates such as whether dinosaurs had feathers explaining the findings that settled them or keep them going Throughout he offers a clear and rigorous look at what paleontologists consider sound interpretation of evidence An essential read for any dinosaur lover this book teaches us to see an ancient world ruled by giant majestic creatures anew **The Monster's Bones (Young Readers Edition): The Discovery of T. Rex and How It**

Shook Our World David K. Randall,2023-08-14 The thrilling tale of America s early paleontologists and the discovery of the first T Rex fossil now adapted for young readers From the dust of the Gilded Age Bone Wars two vastly different men emerge to fill the empty halls of New York s struggling American Museum of Natural History socialite Henry Fairfield Osborn and intrepid fossil hunter Barnum Brown When Brown unearths the first Tyrannosaurus Rex fossils Osborn sees a path to save his

museum from irrelevancy As the public turns out in droves to cower before this bone chilling giant of the past and wonder at the mysteries of its disappearance Brown and Osborn turn dinosaurs into a beloved part of culture In this vivid and engaging young readers adaptation New York Times best selling author David K Randall journeys from prehistory to present day from remote Patagonia to the unforgiving Badlands of the American West to the penthouses of Manhattan The Monster s Bones reveals how a monster of a bygone era ignited a new understanding of our planet and our place within it **The Bone Wars**

Jane Kurtz,2023-11-21 Discover the true story of the race between two paleontologists to find the best dinosaur fossils in this fascinating fast paced nonfiction picture book Who will win the Bone Wars Did you know that many of the dinosaur skeletons you see in museums are rooted in a scientific battle between two paleontologists O C Marsh and Edward Cope met in 1863 and bonded over their shared love of fossils becoming the best of friends until the day Marsh discovered an error in Cope s work and the Bone Wars began Marsh and Cope stopped collaborating and started competing excavating fossils as fast as they could and trying to find the most important never before seen discoveries They each wanted the biggest best dinosaur bones And fast They used code names and disguises they snooped and tricked and did everything possible to keep their finds secret The race was messy and there were many mistakes along the way but in the end Marsh and Cope discovered all kinds of new dinosaur skeletons to share with the world fossils we still get to see today American Dinosaur Abroad Ilja

Nieuwland,2019-05-15 In early July 1899 an excavation team of paleontologists sponsored by Andrew Carnegie discovered the fossil remains in Wyoming of what was then the longest and largest dinosaur on record Named after its benefactor the Diplodocus carnegii or Dippy as it s known today was shipped to Pittsburgh and later mounted and unveiled at the Carnegie Museum of Natural History in 1907 Carnegie s pursuit of dinosaurs in the American West and the ensuing dinomania of the late nineteenth century coincided with his broader political ambitions to establish a lasting world peace and avoid further international conflict An ardent philanthropist and patriot Carnegie gifted his first plaster cast of Dippy to the British Museum at the behest of King Edward VII in 1902 an impulsive diplomatic gesture that would result in the donation of at least seven reproductions to museums across Europe and Latin America over the next decade in England Germany France Austria Italy Russia Argentina and Spain In this largely untold history Ilja Nieuwland explores the influence of Andrew Carnegie s prized skeleton on European culture through the dissemination reception and agency of his plaster casts revealing much about the social political cultural and scientific context of the early twentieth century **Dinosaur Digs** Mary Quigley,2005-09 Examines dinosaurs and dinosaur discoveries as well as the science of paleontology
