**Classic and Contemporary Readings in Sociology** Ian Marsh, Rosie Campbell, Mike Keating, 2014-05-12 Classic and Contemporary Readings in Sociology introduces the reader to sociological

issues theories and debates providing extracts of primary source material from both classical and contemporary theorists. Theorists are examined within their historical and sociological framework and the text provides an analysis of developments in sociological thought and research. The text is divided into four main sections. Part One, Origins and Concepts, surveys the history of the discipline of sociology and examines key themes which have influenced sociological theorising and investigation in particular social control, culture and socialisation. Parts Two and Four, Sociological Theories and Sociological Research, include a number of readings from the founding theorists and investigators including Auguste Comte, Emile Durkheim, Karl Marx, Max Weber and Charles Booth and also include more recent theoretical writing and research approaches. The focus on theory and research is extended by a selection of readings centred around the theme of Differences and Inequalities. Part Three, these readings provide students with examples of work from an area where sociological theorising and research has been widely applied.

Evaluating Research Francis C. Dane, Elliot Carhart, 2022-02-09. The third edition of *Evaluating Research* by Francis C. Dane and Elliot Carhart provides students with the skills to read and evaluate research studies. Aimed at courses where it is more important for students to develop an understanding of methods rather than conduct their own research, this book covers all aspects of reading social, behavioral and health science research from the basics such as the structure of reports and accessing research as well as overviews of the main types of research methods. The authors emphasize critical reading skills to enable students to become experts in evaluating research so students can decide whether to incorporate that research into their future professional activities. Each chapter includes an overview at the beginning and exercises at the end to reinforce the content learned. Starting from the basic principles of why we do research, the book moves readers through the practicalities of finding studies to the principles of the scientific method and how to break down and analyze research reports. New to the third edition, Understanding Checks placed throughout each chapter help students cement their learning. The organization of the book is now more logical with a new chapter on accessing research up front and ending with a chapter on statistical analyses. New research examples throughout, including such topical examples as mindfulness, college attendance and bias in healthcare, help students see the relevance of research in their lives.

Designing Social Research Ian Greener, 2011-04-13. *Designing Social Research* aims to guide students and new researchers using everyday non-jargonised language through the jungle of setting up their own research study. Ian Greener provides readers an accessible combination of guidance on how to practically plan one's research and understand the underpinning methodological principles that should inform the decisions we make about the methods we plan to use. This is the perfect starter book for anyone looking to design their own research project and make sense of and justify the many decisions that go into the research design process. The goal throughout is to enable students and researchers to assess the appropriateness of a range of methods and to get understanding of the strengths and limitations of different approaches to research. Greener highlights key debates in the field, both philosophical and practical, and presents them in such a way that

they remain constantly relevant to research practice of his readers Coverage includes Framing an effective research question problem Examining the jargon of social research The links between theory methodology and method The role of literature reviewing in research design Managing and planning the research process Sampling Qualitative designs Quantitative designs Mixed methods designs Data analysis Designing Social Research will be ideal first reading for M level students and undergraduates planning significant research projects for their dissertations It will also be invaluable to first year PhD students considering how they will go about their research projects      *Research Methods for English Studies* Gabriele Griffin,2013-09-13 With a revised Introduction and with all chapters revised to bring them completely up to date this new edition remains the leading guide to research methods for final year undergraduates postgraduates taking Masters degrees and PhDs students of 19th an      *The Craft of Ritual Studies* Ronald L.
