Refiguring Mimesis:

Refiguring Mimesis Jonathan Holmes, Adrian Streete, 2005 A wide ranging collection by an exciting group of scholars this is a timely and impressive contribution to a topic that since Plato has continued to perplex and stimulate philosophers and literary scholars alike Jacket

Emulation on the Shakespearean Stage Vernon Guy Dickson, 2017-03-02 The English Renaissance has long been considered a period with a particular focus on imitation however much related scholarship has misunderstood or simply marginalized the significance of emulative practices and theories in the period This work uses the interactions of a range of English Renaissance plays with ancient and Renaissance rhetorics to analyze the conflicted uses of emulation in the period including the theory and praxis of rhetorical imitatio humanist notions of exemplarity and the stage's purported ability to move spectators to emulate depicted characters This book emphasizes the need to see emulation not as a solely or even primarily literary practice but rather as a significant aspect of Renaissance culture giving insight into notions of self society and the epistemologies of the period and informed by the period's own sense of theory and history Among the individual texts examined here are Shakespeare's *Titus Andronicus* and *Hamlet* Jonson's *Catiline* and Massinger's *The Roman Actor* with its strong relation to Jonson's *Sejanus*

Re-Figuring Theology Stephen H. Webb, 1991-07-03 Here is a rhetorical treatment of Karl Barth's early theology Although scholars have long noted the rhetorical power of Barth's work calling it volcanic and explosive this book uses rhetoric to illuminate the peculiar nature of his prose It displays a Barth whose prose is radically unstable and inseparable from his theological arguments The author connects Barth's early theology to the Expressionism of the Weimar Republic He develops an original theory of figures of speech relying on the philosophies of Paul Ricoeur and Hayden White to delve more deeply into the particular configurations of Barth's writings Nietzsche's hyperbole and Kierkegaard's irony are examined as rhetorical precedents of Barth's style The closing chapter surveys Barth's later realistic theology and then suggests ways in which his earlier tropes especially the figures of excess and self negation can serve to enable theology to speak today

Imitation and Contamination of the Classics in the Comedies of Ben Jonson Tom Harrison, 2022-10-12 This book focuses on the influence of classical authors on Ben Jonson's dramaturgy with particular emphasis on the Greek and Roman playwrights and satirists It illuminates the interdependence of the aspects of Jonson's creative personality by considering how classical performance elements including the Aristophanic Great Idea chorus Terentian Plautine performative strategies and performative elements from literary satire manifest themselves in the structuring and staging of his plays This fascinating exploration contributes to the performative turn in early modern studies by reframing Jonson's classicism as essential to his dramaturgy as well as his erudition The book is also a case study for how the early modern education system's emphasis on imitative contaminative practices prepared its students many of whom became professional playwrights for writing for a theatre that had a similar emphasis on recycling and recombining performative tropes and structures

The Shakespearean Death Arts William E. Engel, Grant Williams, 2022-05-05 This is the first book to view Shakespeare's plays from the prospect of the premodern death arts not only the ars moriendi tradition but also the plurality of cultural expressions of memento mori funeral rituals commemorative activities and rhetorical techniques and strategies fundamental to the performance of the work of dying death and the dead The volume is divided into two sections first critically nuanced examinations of Shakespeare's corpus and then second of Hamlet exclusively as the ultimate proving ground of the death arts in practice This book revitalizes discussion around key and enduring themes of mortality by reframing Shakespeare's plays within a newly conceptualized historical category that posits a cultural divide at once epistemological and phenomenological between premodernity and the Enlightenment

Contagious Metaphor Peta Mitchell, 2013-03-14 The metaphor of contagion pervades critical discourse across the humanities the medical sciences and the social sciences It appears in such terms as social contagion in psychology financial contagion in economics viral marketing in business and even cultural contagion in anthropology In the twenty first century contagion or thought contagion has become a byword for creativity and a fundamental process by which knowledge and ideas are communicated and taken up and resonates with Andr Siegfried's observation that there is a striking parallel between the spreading of germs and the spreading of ideas In *Contagious Metaphor* Peta Mitchell offers an innovative interdisciplinary study of the metaphor of contagion and its relationship to the workings of language Examining both metaphors of contagion and metaphor as contagion *Contagious Metaphor* suggests a framework through which the emergence and often epidemic like reproduction of metaphor can be better understood

Mediating Religious Cultures in Early Modern Europe Torrance Kirby, Matthew Milner, 2014-07-03 In recent years writing on early modern culture has turned from examining the upheavals of the Reformation as the ruptured birth of early modernity out of the late medieval towards a striking emphasis on processes of continuity transition and adaptation No longer is the religious seen as institutional or

doctrinaire but rather as a cultural and social phenomenon that exceeds the rigid parameters of modern definition Recent analyses of early modern cultures offer nuanced accounts that move beyond the limits of traditional historiography and even the bounds of religious studies At their centre is recognition that the scope of the religious can never be extricated from early modern culture Despite its many conflicts and tensions the lingua franca for cultural self understanding of the early modern period remains ineluctably religious The early modern world wrestled with the radical challenges concerning the nature of belief within the confines of church or worship but also beyond them This process of negotiation was complex and fuelled European social dynamics Without religion we cannot begin to comprehend the myriad facets of early modern life from markets to new forms of art to public and private associations In discussions of images the Eucharist suicide music street lighting or whether or not the sensible natural world represented an otherworldly divine religion was the fundamental preoccupation of the age Yet even in contexts where unbelief might be considered we find the religious providing the fundamental terminology for explicating the secular theories and views which sought to undermine it as a valid aspect of human life This collection of essays takes up these themes in diverse ways We move from the 15th century to the 18th from the core problem of sacramental mediation of the divine within the strict parameters of eucharistic and devotional life through discussion of images and iconoclasm music and word to more blurred contexts of death street life and atheism Throughout the early modern period the very processes of adaption even change itself were framed by religious concepts and conceits

Domestic Life and Domestic Tragedy in Early Modern England Catherine Richardson, 2013-07-19 In a theatre which self consciously cultivated its audiences imagination how and what did playgoers see on the stage This book reconstructs one aspect of that imaginative process It considers a range of printed and documentary evidence the majority previously unpublished for the way ordinary individuals thought about their houses and households It then explores how writers of domestic tragedies engaged those attitudes to shape their representations of domesticity It therefore offers a new method for understanding theatrical representations based around a truly interdisciplinary study of the interaction between literary and historical methods The plays she cites include Arden of Faversham Two Lamentable Tragedies A Woman Killed With Kindness and A Yorkshire Tragedy
