Research Utilization In The Social Services Innovations In Practice And Administration:

Research Utilization in the Social Services Anthony J. Grasso, Irwin Epstein, 1992 Here is a comprehensive review of the science and art of research utilization available in social work today Written by the field s most experienced and pioneering practitioners on the topic this important book examines the new practice research models that have evolved in social work over the past decade and projects their future developments discusses the role of computerization in all forms of social work practice and presents pedagogical issues related to the teaching of research utilization in undergraduate and graduate programs *Social Work Practice Research for the Twenty-First Century* Anne E. Fortune, Philip McCallion, Katharine Briar-Lawson, 2010-09-21 Social work professionals must demonstrate their effectiveness to legislators and governments not to mention clients and incoming practitioners A thorough evaluation of the activities ethics and outcomes of social work practice is critical to maintaining investment and interest in the profession and improving the lives of underserved populations Incorporating the concerns of a new century into a consideration of models for practice research this volume builds on the visionary work of William J Reid 1928 2003 who transformed social work research through empirically based and task centered approaches and more recently synthesized intervention knowledge for framing future study This collection reviews the task centered model and other contemporary Evidence Based Practice models for working with individuals families groups communities and organizations Essays demonstrate the value of these pragmatic approaches in the United States and international settings Contributors summarize state of the art methods in several key fields of service including children and families aging substance abuse and mental health They also evaluate the research movement itself outlining an agenda for today s sociopolitical landscape and the profession This volume inspires practice research to prioritize evidence as a base for the profession **A Guide to Evidence-Based Group Work** Mark J. Macgowan, 2008-02-12 This is the first textbook that illustrates step by step how to practice evidence based group work As group workers are increasingly being held accountable to evaluate monitor and improve their practice there are scant resources available that apply specifically to their practice General books on evidence based practice lack the rich material on group work organized for the first time in this one volume Designed specifically as a supplement for undergraduate and graduate group work courses the text is organized around the process and philosophy of evidence based practice formulating appropriate practice questions searching for evidence critically reviewing available evidence applying the evidence with judgment skill and concern for the group members and evaluating the outcomes achieved The evidence based group work framework teaches students how to skillfully apply best practices through practical learning activities case examples research designs step by step guidelines and checklists assessment tips and detailed instructions for formulating questions and evaluating answers It will be equally valuable as a handy reference for professionals eager to hone their practice skills **Evidence for Child Welfare Practice** Michael J. Austin, 2013-09-13 This book provides a work in progress that seeks to

capture the micro direct service and macro managerial perspectives related to identifying evidence for practice within the practice domain of public child welfare. It is divided into two categories namely evidence for direct practice and evidence for management practice. In Part I the articles are categorized in the areas of child welfare assessment and child welfare outcomes. Expanded versions of the chapters can be accessed at www.bassc.net. In Part II the focus is on organizational issues that relate to evidence for management practice. This section includes an overview of evidence based practice from an organizational perspective along with evidence related to the experiences of others in implementing evidence based practice. This book pushes the discussion of evidence based practice in several new directions regarding 1 the use of structured reviews to complement the systematic reviews of the Cochrane and Campbell Collaboratives 2 the process of viewing the call for evidence based practice as a goal or future vision of practice and evidence for practice provides a more immediate approach to promote evidence informed practice and 3 a recognition that evidence informed practice is part of building agency based knowledge sharing systems that involve the tacit and explicit knowledge needed to improve the outcomes of social services. This book was published as a special issue of the Journal Of Evidence Based Social Work.

Practice-Based Research in Social Work Sarah-Jane Dodd, Irwin Epstein, 2012-03-12 This unique textbook explores practice based research PBR using numerous practice examples to actively encourage and engage students and practitioners to embrace research as a meaningful support for their practice. Whilst evidence based practice gives practitioners access to information about universal best practices it does not prioritize practitioner generated knowledge or promote new research based interventions relevant to their own practice circumstances as PBR does. This book discusses the evolution of PBR as a distinct social work research approach describes its principles and methods and presents a range of exemplars illustrating the application of PBR within different practice methods in different practice settings. The chapters cover Identifying the research question in a PBR model Designing a study and identifying a methodology Sampling Literature reviews Gathering data Ethics Analyzing data and interpreting results Putting research into practice Viewing the practitioner as central to the research process and research as a necessary component of practice. This invaluable book emphasizes the seamless integration of practice and research. It is about research in social work practice rather than research on social work practice. Each chapter includes an overview an introduction and a key concepts summary. Practice Based Research in Social Work is a very accessible text suitable for social work students particularly MSW students and practitioners.

Science and Social Work Stuart A. Kirk, William James Reid, 2002 Historically there have been two main approaches to the proper role and function of science in social work. This work presents a balanced appraisal demonstrating how the fruits of scientific research can aid clinical practice.

Dolan, 2021-09-21 Crossing the traditional divide between social work with children and families and adults this text applies a lifecourse perspective within an ecological frame Based on the principle that practice drives theory a practical approach for social work is put forward using five interconnected themes duality of support and protection life transitions and life events intergenerational relations civic partnership and engagement health and wellbeing Designed for students and practitioners this text takes an enquiry based approach using Critical ART analysis reflection and thinking The book features case studies research examples tips for Critical ART in practice further reading and resources *Practice Research Partnerships in Social Work* Christa Fouché, 2015-02-11 Practice research partnerships in social work can make a significant difference to social work service delivery This comprehensive accessibly written resource is designed to help students and practitioners to actively engage with research through their frontline work Through clear practice scenarios critical questions and examples from research the text guides researchers students educators practice managers funders and practitioners to creatively explore partnerships in creating contributing consuming commissioning or critiquing evidence in and for social work practice The text encourages collaborative practice by demonstrating the transformative nature of knowledge networks to make a difference in social work practice An essential text for students undertaking professional training at all levels as well as meeting the needs of qualified staff for continued professional development *The Routledge Handbook of Social Work Practice Research* Lynette Joubert, Martin Webber, 2020-04-13 The Routledge Handbook of Social Work Practice Research is the first international handbook to focus on practice research for social work Bringing together leading scholars in the field from Europe the USA and the Asia Pacific region it provides an up to the minute overview of the latest thinking in practice research whilst also providing practical advice on how to undertake practice research in the field It is divided into five sections State of the art Methodologies Pedagogies Applications Expanding the frontiers The range of topics discussed will enhance student development as well as increase the capacity of practitioners to conduct research develop coordinating and leadership roles and liaise with multiple stakeholders who will strengthen the context base for practice research As such this handbook will be essential reading for all social work students practitioners and academics as well as those working in other health and social care settings *Social Work Treatment 4th Edition* Francis J. Turner, 1996-09-01 **Encyclopedia of Social Work**, 1965 **Evaluation in Child and Family Services** Tiziano Vecchiato, Anthony N. Maluccio, Cinzia Canali, As child and family interventions assume greater international application it will be helpful to examine the various ways in which service innovations are being evaluated As demonstrated in the seminar from which these chapters resulted only by sharing our specific professional interests our too frequent problems in measurement our despair in implementing complicated studies and our successes can we advance the evaluation of human services and their outcomes This volume considers a variety of programs and issues in the field of child and family services While different perspectives are evident among the authors in terms of their focus and or emphasis there is common concern about the value of examining each program or

service so as to maximize its impact as well as its potential for dissemination Intervention research should spur and motivate cross national efforts not only among researchers but also among social workers and other practitioners from diverse professions engaged in the delivery of human services Such collaboration would contribute to the ultimate goals of achieving greater clarity about the specifics of best practices in child and family services protocols for assessing outcomes and ways of improving service delivery How then can researchers and policymakers in diverse settings within diverse countries improve practice and service delivery on behalf of children and families What particular program findings can be generalized to improve services How can we share and implement new solutions The contributions to this volume address such questions from varying international perspectives Contributors provide answers and generate discussion points for consideration by practitioners as well as researchers The book is a must for social work parishioners in areas involving the delivery of goods as well as services Tiziano Vecchiato is scientific director of the Fondazione Emanuela Zancan Padua Italy Anthony N Maluccio is professor of social work at Boston College Graduate School of Social Work Chestnut Hill Massachusetts Cinzia Canali is research associate at the Fondazione Emanuela Zancan Padua Italy

Bibliometrics in Social Work Gary Holden, Gary Rosenberg, Kathleen Barker, 2013-01-11 Bibliometrics in Social Work examines the cross disciplinary field of bibliometrics including the multiple techniques and applications that have been described in the scholarly literature Moving beyond this general overview the authors examine applications of bibliometrics in social work Subsequent chapters detail how the technique can be used to demonstrate the eventual impact on the field of publications in selected journals These analyses are conducted using the bibliometric technique referred to as citation analysis The authors then move on to present what will be a controversial proposal to some in the field using bibliometrics techniques in making academic personnel decisions The authors propose that hiring retention tenure and promotion decisions could be made more uniform and fair by using citation analysis A series of experts in bibliometric analyses then critically respond to these initial chapters The authors conclude by weaving their responses to these commentators with new scholarship on bibliometrics that has recently appeared This unique book is a valuable aid for social work scholars Drawing on broad interdisciplinary streams of scholarship from around the world the collection illuminates a field that is not well known to social workers While cautiously advocating for a number of applications of the technique the authors balance this position by presenting a comprehensive summary of the criticisms of the technique and by the inclusion of a series of critical commentaries by the leading experts on these issues in the field of social work Bibliometrics in Social Work both summarizes what we know and pushes the field to think about how social work professionals can use this approach to improve our scholarship and the evaluation of scholars Bibliometrics in Social Work addresses theoretical and methodological issues pros and cons from the view of numerous bibliometric scholars bibliometrics outside of social work applications within social work previously reported in the literature estimates that have been reported in the literature of how much social workers publish and how much impact those

publications have had how citation analysis can be used to analyze a selection of publications in a single journal and their subsequent impact how citation analysis might be used to improve academic employment decisions concerns regarding self citation and multiple authorship measurement issues in bibliometrics e g age adjustments concentration citedness and uncitedness the Price Index lag times persistence synchronous and diachronous self citations the Multiple Author Qualifier Bibliometrics in Social Work critically examines these methods and their applications in social work The book will be an enlightening read for social work scholars and those academic administrators involved in the evaluation of social work scholars as well as academic librarians that support social work programs
