Lemos, Clarissa Pepe-Ferreira, Ana María Espinoza Catalán, 2025-02-07 Society's most important challenges require the best evidence to address the problems they entail. This is the main objective of the Research Topic Seeking Equal Opportunities and Safe Environments Research from a Gender Perspective. Considering that gender violence is a significant public health problem and social scourge affecting millions of individuals around the world, this issue aims to tackle all forms of gender-based violence, discrimination, and inequalities in order to foster safe environments for all people. High-level psychosocial, cultural, political, health, and educational research is needed to the pursuit of equal opportunities in the 21st century and very importantly to do so with a social impact that is reflected in an improvement of society. To meet the challenges in society and following The Sustainable Development Goals from the United Nations 2030 Agenda, research is sought *inter alia* on vulnerable populations who are specially affected by gender violence: children, adolescents, women, migrant groups, ethnic minorities, groups with special educational needs, LGBTIQ collective. This is intended to contribute to the objectives of Goal 4 Quality Education, Goal 5 Achieve gender equality and empower all women and girls, Goal 10 Reduce inequality, and Goal 16 Promote justice, peaceful and inclusive societies. With this in mind to carry out this important task, we are looking for research that provides evidence on the current global situation from a gender perspective and interventions that promote and support equality between men and women in a safe social context where violence and discrimination have no place.
