**Contemporary Military Reserves** Eyal Ben-Ari,Vincent Connelly,2022-12-30 This book offers a comparative study of military reserves in contemporary democracies A combination of budgetary pressures new missions and emerging military roles during the past three decades has led the armed forces of democracies to rethink the training and use of reserve forces Moreover reservists have become central to the armed forces as part of moves towards total or comprehensive defense Despite this a scholarly bias towards studying regulars and conscripts means that reservists and reserve soldiers continue to receive only marginal attention This volume fills that lacuna through a series of country studies examining how best to understand the peculiarities of reservist service In contrast to regulars and conscripts reservists are marked by their dual management of civilian and military careers different family dynamics diverse motivations and commitment to the armed forces the material and non material incentives they are offered and their place in the political sphere This volume suggests two frames to make sense of such differences first it looks at reservists as transmigrants traveling between the military and civilian worlds and second it analyzes the multiple informal contracts and negotiations that bind them to the military All the chapters adopt these conceptualizations granting the volume a common focus and integrative frame The volume will be of much interest to students of military and strategic studies civil military relations sociology and International Relations

Hunter,2016-12-23 The classic reference work that provides annually updated information on the countries of the world 1993-1994 Brian Hunter,2021-06-21 No detailed description available for 1993 1994 **Support for Armed Forces Veterans in Wales** Great Britain: Parliament: House of Commons: Welsh Affairs Committee,2013-02-12 This Report examines whether the level of support provided to Armed Forces veterans in Wales both immediately before they leave the service and once they return to civilian life is adequate The key recommendation is that the Welsh Government take forward proposals to establish a network of one stop shops for veterans across Wales A great deal of support is available for veterans in Wales but often a lack of awareness means that support is not taken up A one stop

shop for veterans would be a convenient way for veterans to access information and receive advice on a range of important issues such as housing finances and employment To avoid duplication however the Welsh Government needs to take into account the support launched or planned by local authorities as part of their Community Covenants There should also be better co ordination of the work done by the many charities supporting veterans In the light of recent court cases which have illustrated the need for vigilance to prevent fraudsters taking advantage of the public s willingness to give to veterans charities there should be much more stringent inspection of charities finances There is also concern about charities providing treatments for complex psychological issues that do not meet NICE guidelines The regulation of charities may be insufficiently robust in this area The Charity Commission should insist that veterans charities which offer medical psychological or counselling services provide documentation from the relevant professional bodies to confirm that they have the appropriate endorsement for the services they offer **The Encyclopedia Americana** ,1927 **Air University**
