Reservoirs Of Sri Lanka And Their Fisheries Fao Fisheries Technical Paper No 298:

FAO Fisheries Technical Paper ,2004 **Freshwater Fisheries Ecology** John F. Craig,2016-01-12 Inland fisheries are vital for the livelihoods and food resources of humans worldwide but their importance is underestimated probably because large numbers of small local operators are involved Freshwater Fisheries Ecology defines what we have globally what we are going to lose and mitigate for and what given the right tools we can save To estimate potential production the dynamics of freshwater ecosystems rivers lakes and estuaries need to be understood These dynamics are diverse as are the earths freshwater fisheries resources from boreal to tropical regions and these influence how fisheries are both utilized and abused Three main types of fisheries are illustrated within the book artisanal commercial and recreational and the tools which have evolved for fisheries governance and management including assessment methods are described The book also covers in detail fisheries development providing information on improving fisheries through environmental and habitat evaluation enhancement and rehabilitation aquaculture genetically modified fishes and sustainability The book thoroughly reviews the negative impacts on fisheries including excessive harvesting climate change toxicology impoundments barriers and abstractions non native species and eutrophication Finally key areas of future research are outlined Freshwater Fisheries Ecology is truly a landmark publication containing contributions from over 100 leading experts and supported by the Fisheries Society of the British Isles The global approach makes this book essential reading for fish biologists fisheries scientists and ecologists and upper level students in these disciplines Libraries in all universities and research establishments where biological and fisheries sciences are studied and taught should have multiple copies of this hugely valuable resource About the Editor John Craig is Editor in Chief of the Journal of Fish Biology and has an enormous range of expertise and a wealth of knowledge of freshwater fishes and their ecology having studied them around the globe including in Asia North America Africa the Middle East and Europe His particular interests have been in population dynamics and life history strategies He is a Fellow of the Linnean Society of London and the Royal Society of Biology *Reservoir and Culture-based Fisheries* Sena S. De Silva,2001 Reservoir and Culture Based Fisheries Biology and Management gives details of the ACIAR proceedings of 1998 **Dams, Fish and Fisheries** Food and Agriculture Organization of the United Nations,2001-01-01 The four papers presented in this publication address major fishery issues in relation to dam projects as identified by the World Commission on Dams WCD for the purpose of it s global reviews on Dams and development

Characteristics and performance of fisheries co-management in Asia Cohen, P.J., Roscher, M., Wathsala Fernando, A., Freed, S., Garces, L., Jayakody, S., Khan, F., Mam, K., Nahiduzzaman, M., Ramirez, P., Ullah, M.H., van Brakel, M., Patrick Smallhorn-West, P., DeYoung, C.,Food and Agriculture Organization of the United Nations ,2021-05-19 The overarching objective of this report was to determine from current evidence and experiences from the region a view of co management application and performance Among the findings of the review are 1 Co management is associated with positive trends

across a range of social ecological and governance indicators 2 While overall trends in co management performance are positive between years the outcomes experienced by fishers and community members vary substantially between positive experiences and improvements and negative experiences and declines 3 There is substantial variation in the systems to which co management is applied and the degrees of inclusion agency influence and authority of managing partners 4 Impacts of co management on environmental and resource condition and on the livelihood and economic conditions are determined as much by macro level drivers of change as by co management 5 Initiatives associated with improved or alternative livelihoods were frequent 6 A history of institutional and policy change created conditions enabling co management arrangements 7 Co management is associated with improvements to representation and inclusion of resource users and beneficiaries 8 National and international commitments have been made to progress gender equity women s empowerment and socially inclusive processes and outcomes but substantial challenges remain in meeting them 9 Co management is generally associated with higher levels of buy in and compliance by resource users 10 Monitoring and evaluation should move towards best practice impact evaluation techniques 11 Co management arrangements for fisheries are widespread diverse dynamic and supported by a range of institutional structures and organizations

Reservoir Fisheries of India V. V. Sugunan,Food and Agriculture Organization of the United Nations,1995-01-01 The existing literature on limnology and fisheries of Indian reservoirs has been reviewed by covering more than 100 reservoirs located in various parts of the country An assessment of environment mediated production functions of reservoirs has been attempted Since the ecosystem processes in reservoirs belonging to different geo climatic regions exhibit wide variations depending on meteorological morphometric and hydro edaphic features of the impoundments an effort has been made to gauge the influence of these abiotic variables on the production dynamics Authentic information on water areas under different categories of reservoirs has been collected and interpreted in respect of all the Indian States An attempt has also been made to resolve the anomalies

pertaining to classification and nomenclature to the extent possible Various fisheries management norms followed in the reservoirs of the country including the selection of species for stocking stocking rate and introduction of exotic species have been reviewed Indian reservoirs have been stocked with the Indo Gangetic carps for many decades and the impact of this stocking has been assessed in terms of fish production and the indigenous faunistic diversity Different modes of exploitation and the types of craft and gear employed in different reservoirs of the country are discussed The reservoir fisheries resources and their utilization are dealt with separately in respect of each State along with a few case studies describing the water quality biotic communities craft and gear and fisheries management practices followed The status of reservoir fisheries in the States has been reviewed and the factors responsible for the slow rate of development identified Tropical River Fisheries Valuation ,2008 **FAO Circulaire Sur Les Pêches** ,2001 *An Indexed List of FAO Publications Related to Aquaculture, 1964-2005* A.
