La Formación Docente, 2005 *Políticas de formación docente* Miguel Roque Russo, 2022-12-01 Una investigación sobre reforma curricular induce a reflexionar que lo que se enseña en las escuelas no es independiente de lo que sucede en otras dimensiones de la vida social tales como la economía, el desarrollo del conocimiento científico y tecnológico, el sistema político y la estructura social entre otros. El currículum cambia en cada período o etapa del proceso histórico aunque tampoco existe un ajuste automático entre lo que sucede en la sociedad y lo que se enseña en las escuelas. Tenti Fanfani 2000 El análisis de las reformas curriculares y la participación de los actores intervinientes permiten comprender cuáles son las intencionalidades en las modificaciones de los contenidos por enseñar. Pretende identificar a los factores que inducen a una variación curricular y se procura instalar como visibilizador de algunos de esos factores como anticipadores para percibir posibles cambios y condiciones de posibilidad para reformar los diseños curriculares. Este libro es el resultado de la investigación en el marco de la tesis doctoral defendida en 2020 y una invitación a pensar la política educativa, la formación docente y las reformas próximas.

La enseñanza en la formación docente Silvia Bernatén, 2022-11-24 La enseñanza en la formación docente. Avatares del Consejo Federal de Educación se propone analizar la producción normativa del Consejo Federal de Educación destinada a la formación docente desde los aportes teóricos del campo de la Didáctica desde su creación en 1972 hasta el año 2012. Como se trata de definiciones de políticas públicas para la Educación presenta el ineludible diálogo entre tres objetos de estudios preferenciales del campo: las prácticas de enseñanza, la formación docente y el currículum. El trabajo está ordenado en cuatro períodos y en cada uno de ellos se analiza el contexto, la actuación normativa del organismo, las principales características de la formación docente, las decisiones sobre el currículum y las prácticas de enseñanza que sostienen los documentos elaborados por el Consejo Federal de Educación. Se trata de una sistematización inédita de un corpus de más de un centenar de documentos que son analizados a partir de las relaciones de su contenido con el contexto sociopolítico y las categorías del campo de la Didáctica. La autora invita de este modo a transitar continuidades y rupturas en vínculos que ponen en diálogo formación docente, enseñanza y currículum e insiste como afirma Adela Coria en el prólogo en que enseñar es político y que siempre la palabra emerge no como destino inexorable, vuelve renovada para hablar de lo que se trata en cada momento histórico.
