Residential Indoor Air Quality And Energy Efficiency Series On Energy Conservation And Energy Policy:

Residential Indoor Air Quality and Energy Efficiency Peter Du Pont, John Morrill, 1989 Recent trends toward less drafty construction of homes have drawn attention to the quality of indoor air which has more impact on human health than outdoor air quality This book shows that reducing natural ventilation does not necessarily increase the concentration of pollutants in the home Useful to novices as well as experts the book begins by introducing basic concepts such as infiltration and source strength It goes on to summarize research on ventilation the sources and health effects of major indoor air pollutants monitoring techniques and effective mitigation strategies This book was prepared in cooperation with the National Rural Electric Cooperative Association NRECA and is available to NRECA members through its Washington D C office

Residential Indoor Air Quality and Energy Efficiency Peter Du Pont, John Morrill, 1989-01-01 **Energy Efficiency in Housing** Malcolm Bell, Robert Lowe, Peter Roberts, 1996 This is a book with a broad agenda which draws together a considerable body of current knowledge from related but discrete disciplines in one compact and readable volume It is particularly gratifying to find problems of acute fuel poverty within existing thermally sub standard mass housing addressed alongside prospects for new build housing as well as existing dwellings where thermal comfort is already affordable In the first case measures to introduce energy efficiency promise much improved comfort and well being for the occupants but little if any energy saving whereas in the second and third cases good design can offer significant savings in fuel and CO₂ output with quite short pay back periods The authors grasp this nettle firmly devoting a chapter to energy poverty and health as well as placing this in the context of global changes in climate conservation technologies structures of ownership land use planning and what is termed the behavioral dimension The scope of the book is wide and the order of content is well structured There are many useful references and it is a useful addition to the shelves of anyone operating in the housing and energy efficiency arena *Energy Abstracts for Policy Analysis* ,1988 *Energy Efficiency and the Environment* Edward L. Vine, Drury Crawley, Paul Centolella, 1991 This text addresses the direct correlation between conserving energy and mitigating environmental damage The 20 chapters examine how energy efficiency measures and programmes can reduce pollutant emissions and how planners can incorporate environmental externalities in the allocation of resources Topics covered include global warming public perspectives and CO₂ reduction potential efficiency improvements as an acid rain compliance strategy environmental externality costs integrated energy and environmental planning trees landscaping and urban heat islands CFCs and energy use in buildings **Energy Research Abstracts** ,1992 *Dynamics of Energy, Environment and Economy* Hassan Qudrat-Ullah, Muhammad Asif, 2020-07-02 The book addresses the vital and interwoven areas of energy environment and the economy within the field of sustainability research Fundamental technical details empirical data and case studies taking into account local and international perspectives are included Issues such as energy security depleting fossil fuel reserves global warming and climate change as well as novel energy technologies are covered

The dynamic global response will be discussed from the perspective of policy technology and economics Vital details in the form of text boxes illustrations graphs tables and appendices are included The book will serve as reference book for upper level undergraduate and graduate students researchers academics policy makers NGOs and developmental sector professionals within the field **Energy** ,1981 Energy: a Continuing Bibliography with Indexes ,1981 **Scientific**
