Resistible Theatres Enterprise And Experiment In The Late Nineteenth Century:

Resistible Theatres: Enterprise and Experiment in the Late Nineteenth Century John Stokes, 1972 A discussion of the history and theatre movements in Great Britain Resistible Theatres John Stokes, 1972 A discussion of the history and theatre movements in Great Britain Resistible theatres: enterprise and experiment in the late nineteenth century John Stokes, **The Repertory Movement** George Rowell, Tony Jackson, Anthony Jackson, 1984-10-18 This is an account of the origins development and current state of the repertory theatre movement in Britain The movement had its roots in ideas experiments and traditions stretching back into the nineteenth century and first found its voice in 1907 with Miss Horniman's company in Manchester Since then it has played a vital often a dominant role in British twentieth century theatre As a method of theatre organisation repertory refers to those theatres based primarily in the regions housing a resident acting company and seeking to maintain each season a programme of plays catering for the tastes of the whole community But the theory has never been dogmatic and the movement has evolved from a gamut of complex factors not least the visions of particular personalities Major landmarks in the history include the effects of the two World Wars the advent of substantial state funding for the Arts the growth of cinema and television and the renewal of theatre's link with the community in the form of such initiatives as Theatre in Education The history concludes with a detailed study of six representative regional theatres The Nottingham Playhouse The Citizens Theatre Glasgow The Salisbury Playhouse The Victoria Theatre Stoke The Everyman Liverpool and The Royal Exchange Manchester Appendixes include a Chronology sample repertory programmes from the period audience attendance figures and some comparative statistics about funding Interspersed through the text are photographs of selected theatre exteriors auditoria stages and productions English Theatre in Transition 1881-1914 James Woodfield, 2015-07-16 Originally published in 1984 The turn of the nineteenth and twentieth centuries was a time of considerable change in the English theatre Victorian attitudes were shocked or shattered by the new drama of Ibsen the major figure of George Bernard Shaw dominated the period theatre censorship was the subject of a long and furious contest and staging conventions changed from the spectacular stylings of Irving and Beerbohm Tree to the masking and statuesque styles of Isadora Duncan and the inner realism of Stanislavsky This book traces the activities of the leading figures in the English theatre notably William Archer who introduced Ibsen to this country and who became one of the main promoters of the idea of a National Theatre Other personalities discussed include Harley Granville Barker particularly his association with Shaw at the Court Theatre and his part in campaigns against censorship and for changes in the staging of Shakespeare and Edward Gordon Craig whose rebellion against the Victorian theatre took an anti-realist direction This is a stimulating account of the background to the modern English theatre which can only increase appreciation of its standard and variety

Russomania Rebecca Beasley, 2020-03-31 *Russomania* Russian Culture and the Creation of British Modernism provides a new account of modernist literature's emergence in Britain British writers played a central role in the dissemination of

Russian literature and culture during the early twentieth century and their writing was transformed by the encounter This study restores the thick history of that moment by analyzing networks of dissemination and reception to recover the role of neglected as well as canonical figures and institutions as well as individuals The dominant account of British modernism privileges a Francophile genealogy but the turn of the century debate about the future of British writing was a triangular debate a debate not only between French and English models but between French English and Russian models Francophile modernists associated Russian literature especially the Tolstoyan novel with an uncritical immersion in life at the expense of a mastery of style and while individual works might be admired Russian literature as a whole was represented as a dangerous model for British writing This supposed danger was closely bound up with the politics of the period and this book investigates how Russian culture was deployed in the close relationships between writers editors and politicians who made up the early twentieth century intellectual class the British intelligentsia Russomania argues that the most significant impact of Russian culture is not to be found in stylistic borrowings between canonical authors but in the shaping of the major intellectual questions of the period the relation between language and action writer and audience and the work of art and lived experience The resulting account brings an occluded genealogy of early modernism to the fore with a different arrangement of protagonists different critical values and stronger lines of connection to the realist experiments of the Victorian past and the anti formalism and revived romanticism of the 1930s and 1940s future

Hubert Crackanthorpe: Selected Writings William Greenslade, Emanuela Ettorre, 2020-10-19 Hubert Crackanthorpe 1870 1896 made a critically significant contribution to the evolution of the modernist short story in Britain His unexplained death in Paris at the age of 26 cut short a highly promising literary career The striking realism of Crackanthorpe s first collection of short stories Wreckage 1893 followed by the psychologically complex Sentimental Studies and posthumous Last Studies 1896 together with the prose poems of Vignettes 1896 were much admired by Henry James and his contemporaries Dowson Johnson and Symons as the work of a leading innovative writer of critical Decadence Indeed his stories combine an unrelenting realism with a conscious aestheticizing of their often troubling bleak subject matter As co editor of the short lived periodical The Albermarle and campaigning literary journalist Crackanthorpe was a key critical participant in central literary and artistic debates of the early 1890s facts versus effects in literature the efficacy of realism naturalism questions of taste reticence and the handling of controversial subject matter This fully annotated critical text comprises the most extensive collection to date of Crackanthorpe s writing As well as uncollected stories the volume includes a short story never previously published in book form This edition also contains a selection of Crackanthorpe s critical writings and a bibliographical survey of his work

Aubrey Beardsley and British Wagnerism in the 1890s Emma Sutton, 2002 Aubrey Beardsley and British Wagnerism in the 1890s is an interdisciplinary study of the influence of the operas writing and personality of Richard Wagner 1813 1883 on the work of Aubrey Beardsley 1872 1898 Examining Beardsley s drawings and prose of the 1890s the study considers the

ways in which Wagner's works were appropriated by this seminal figure of the British decadent movement. Despite recent critical interest in Beardsley and the fin de siècle and considerable research on Wagnerism, Aubrey Beardsley and British Wagnerism in the 1890s is the first study in English to consider at length Wagner's presence in Beardsley's work. Beardsley combined allusions to the German composer with many of the touchstones of decadent art: the exotic, the morbid, the erotic and the mannered. In exploring Beardsley's often iconoclastic versions or perversions of Wagner's work, Aubrey Beardsley and British Wagnerism in the 1890s aims to investigate the role of Wagnerism with fin de siècle British culture in particular: the relations between Wagnerism and contemporary decadence.

E. Cummings. Taken together, these essays enter into an ongoing fruitful debate about the terms modern and drama and build a much-needed bridge between literary studies and performance studies.

Archaeology Barry W. Cunliffe, Wendy Davies, Colin Renfrew, 2002. Twenty-six leading scholars from around the world have come together to celebrate the strengths, the energies and the sheer intellectual excitement of their discipline. They unashamedly proclaim that over the last hundred years, archaeology has transformed itself from a genteel antiquarian pursuit deeply rooted in the classical tradition to a rigorous and demanding discipline spanning the humanities and the sciences yet at the same time one widely accessible to the public at large. The contributors show how our understanding of the past has changed, reveal the exciting ideas under current debate and offer their visions of the future. The result is a remarkable overview of world archaeology focusing on new and unexpected themes at the cutting edge of the discipline.

Romantic Stages Alicia Finkel, 2005-07-01. Though Romantic elements in stage design are often thought to have ended with the advent of the Victorian era, they in fact persisted into the second half of the nineteenth century.
