Improve Your Marriage by Getting Past Conflict (Sex, Relationships)* The Hyperink Team,2012-02-24 ABOUT THE BOOK We have all heard it said that getting married is easy but staying married is hard Keeping a marriage happy and functioning well can be even more difficult Marriage requires work and commitment and it is perfectly natural for couples to experience conflict No two people agree on everything and all relationships involve arguments The goal of a happy marriage is not to avoid conflict all together but rather to resolve conflicts in a healthy way with your spouse Too many couples simply get angry at one another and stay angry over relatively minor things A healthy marriage is one in which both partners feel able to express themselves Although it can be painful at times conflict can actually be a healthy part of a marriage because it leads to growth MEET THE AUTHOR The Hyperink Team works hard to bring you high quality engaging fun content If ever you have any questions about our products or suggestions for how we can make them better please don t hesitate to contact us Happy reading EXCERPT FROM THE BOOK Too often when couples argue they do not communicate with one another effectively When you feel like your partner does not understand you this can lead to long term marital problems In order to form a strong connection with your spouse it is essential that you work on understanding their needs Many women attempt to avoid conflict all together in marriage However simply being passive can lead to more problems in the future and a breakdown in marital communication Of course there are many issues that are not worth fighting about but it is important to let your partner know how you feel if something upsets you Instead of simply avoiding disagreements it is essential for a healthy marriage that you discuss your feelings with your partner so that you can resolve the issue together Fortunately there are a number of things that you can do that will help you resolve conflicts in your marriage These simple steps can help transform your marital arguments into learning experiences that will help you grow as husband and wife Buy a copy to keep reading [The Wholehearted Wife](#) Erin Smalley,Greg Smalley,Gary Smalley,2014-06-20 Although it takes two to have a great marriage an important truth for any marriage partner to realize is that he or she can really change no one other than him or herself Nevertheless changes in just one person can have an amazing impact on a marriage relationship Instead of focusing on How do I have a better marriage this book embraces that truth and helps women ponder the question How can I be the best wife I can be It provides every woman with skills information and encouragement to make a positive difference to this and future generations by wholeheartedly investing in her marriage and her relationship with her husband today The Wholehearted Wife is written by Erin and Greg Smalley along with Gary Smalley the creator and presenter of Keys to a Loving Relationship one of the best selling video series of all time Recognizing that most if not all married women have either experienced a time when her marriage felt lifeless or sat with another female friend or family member who was experiencing that situation this book is also a wonderful resource for those times **Save Your Marriage: Simple Fixes to the Most Common Marital Problems** Sarah Lilton,2012-07-26 Most

people are excited about their wedding day However the wedding day itself isn't nearly as important as the years of marriage to follow If you're truly committed to being married for better or for worse you need to learn how to communicate appropriately with your significant other About 20 percent of marriages end in divorce within the first five years of the marriage and most of these marriages fail because of communications issues Although financial problems problems with relatives and problems in the bedroom are among the top reasons for divorce the real issue usually has to do with the way the couple communicate about these problems In my experience as a coach in training people are often afraid to talk about problems because they don't want to mess up the relationship I've struggled with this as well and I've found that every time I swallow anger sadness or other negative feelings I get depressed Eventually the feelings come out in a negative or destructive way leaving me feeling embarrassed and causing unnecessary hurt to people I love I've learned that honesty draws me closer to my significant other as well as allowing me to avoid that entire pattern In any case failure to communicate can cause tiny problems to become dealbreakers For example if you don't say anything about your partner's tendency to leave dishes in the sink your partner may continue to leave the dishes undone and when you can't stand it anymore you might fire off a list of accusations that quickly become an argument Lack of communication can also lead to partners feeling defensive or picked on if criticized by the other partner and 93 percent of couples who fight unfairly or attack one another verbally will get divorced within 10 years of marriage You'll need to tone up your communication skills to help deal with bigger issues too The addition of a new baby into a family a child going off to college or a marriage partner changing jobs can cause both partners to become stressed out and then not deal with one another appropriately Communication is even more important when a couple faces these types of situations without communication marriage partners will blow off steam by complaining to other people about one another or get buried in work so that they don't have to speak to each other Poor communication causes marriage partners to feel undervalued and unloved and this in turn can cause partners to forget that they love one another in the first place Once this shift occurs partners begin to see one another as enemies and begin fighting each other out of a misplaced sense that their worth as human beings is being threatened Once the marriage has been derailed in this manner it's difficult to get it back on track Marriages that have deteriorated to this point require intervention from a counselor trained in teaching couples communication skills in order to stop the progression towards divorce Whether you're newly married or have been married for a while you can learn to communicate better with your partner and resolve common problems As communication skills increase so will your emotional intimacy The strength of your bond will keep the marriage from becoming another divorce statistic regardless of what problems you have to face together
