## **Resort City In The Sunbelt Las Vegas 1930 197:**

*Resort City In The Sunbelt, Second Edition* Eugene P. Moehring, 2016-10-01 Resort City in the Sunbelt is a non sensationalistic scholarly account of Las Vegas from the building of the Hoover Dam to the construction of the MGM Grand Hotel Historian Eugene Moehring provides a balanced view of the city s urban development Although a unique city in many ways Las Vegas has displayed characteristics common to other sunbelt cities across the western United States including underfunded social services low density urbanization with a heavy reliance upon automobiles a sluggish response to problems within minority communities a preference for efficient business like government and a mania for low taxes The gaming and resort aspects are fully considered but Moehring emphasizes the city as part of the continually expanding sunbelt From this important study historians will conclude that despite some of its unusual traits Las Vegas is much like other western cities and therefore deserves recognition as one of the fastest growing centers in postwar America In a new and expanded epilogue to this edition Moehring looks at the major events of the three decades leading up to 2000 and their underpinnings

**Resort City In The Sunbelt, Second Edition** Eugene P. Moehring, 2000 2005 is Las Vegas centennial year This book updated to take account of the dramatic changes that have taken place in the city since the 1970s sheds light not only on the history of the city but also provides insight into its future

**Resort City in the Sunbelt** Eugene P. Moehring, 1995 This is an account of Las Vegas from the building of the Hoover Dam to the construction of the MGM Grand Hotel It traces the city s development focusing on issues common to sunbelt cities across the United States such as underfunded social services and a mania for low taxes

*The Social History of Crime and Punishment in America* Wilbur R. Miller, 2012-07-20 Several encyclopedias overview the contemporary system of criminal justice in America but full understanding of current social problems and contemporary strategies to deal with them can come only with clear appreciation of the historical underpinnings of those problems Thus this five volume work surveys the history and philosophy of crime punishment and criminal justice institutions in America from colonial times to the present It covers the whole of the criminal justice system from crimes law enforcement and policing to courts corrections and human services Among other things this encyclopedia explicates philosophical foundations underpinning our system of justice charts changing patterns in criminal activity and subsequent effects on legal responses identifies major periods in the development of our system of criminal justice and explores in the first four volumes supplemented by a fifth volume containing annotated primary documents evolving debates and conflicts on how best to address issues of crime and punishment Its signed entries in the first four volumes supplemented by a fifth volume containing annotated primary documents provide the historical context for students to better understand contemporary criminological debates and the contemporary shape of the U S system of law and justice

**Gangster Priest** Robert Casillo, 2006-01-01 Widely acclaimed as America s greatest living film director Martin Scorsese is also some argue the pre eminent Italian American artist Although he has treated various subjects in over

three decades his most sustained filmmaking and the core of his achievement consists of five films on Italian American subjects *Who's That Knocking at My Door*, *Mean Streets*, *Raging Bull*, *GoodFellas* and *Casino* as well as the documentary *Italianamerican*. In *Gangster Priest* Robert Casillo examines these films in the context of the society, religion, culture and history of Southern Italy from which the majority of Italian Americans including Scorsese derive. Casillo argues that these films cannot be fully appreciated either thematically or formally without understanding the various facets of Italian American ethnicity as well as the nature of Italian American cinema and the difficulties facing assimilating third generation artists. Forming a unified whole, Scorsese's Italian American films offer what Casillo views as a prolonged meditation on the immigrant experience, the relationship between Italian America and Southern Italy, the conflicts between the ethnic generations and the formation and development of Italian American ethnicity and thus identity on American soil through the generations. Raised as a Catholic and deeply imbued with Catholic values, Scorsese also deals with certain forms of Southern Italian vernacular religion which have left their imprint not only on Scorsese himself but also on the spiritually tormented characters of his Italian American films. Casillo also shows how Scorsese interrogates the Southern Italian code of masculine honour in his exploration of the Italian American underworld or Mafia and through his implicitly Catholic optic discloses its thoroughgoing and longstanding opposition to Christianity. Bringing a wealth of scholarship and insight into Scorsese's work, Casillo's study will captivate readers interested in the director's magisterial artistry, the rich social history of Southern Italy, Italian American ethnicity and the sociology and history of the Mafia in both Sicily and the United States. *Nevada Historical Society Quarterly*, Nevada Historical Society, 2005. Tourism in the USA: Dimitri Ioannides, Dallen Timothy, 2011-01-25. This is the first book to offer students a comprehensive overview of both tourism and travel in this region, paying specific attention to the disciplines of Geography, Tourism Studies and more generally Social Science. *SP016: Geologic Tours in the Las Vegas Area*, 2008. **La controverse Learning from Las Vegas** Valéry Didelon, 2014-06-12. Manifeste sur le postmodernisme architectural américain. La publication par les architectes américains Robert Venturi et Denise Scott Brown de *Learning from Las Vegas* d'abord sous forme d'articles puis de livre a entraîné, à partir de 1968, une controverse sans équivalent dans l'histoire moderne de l'architecture. L'historien Stanislaus von Moos a parlé ce propos d'une polarisation de pratiquement l'ensemble du champ architectural et pas seulement en Amérique entre les opposants et les sympathisants des supposées ou réelles positions des Venturi. En revenant sur les nombreux arguments mobilisés alors par les architectes, les critiques et les universitaires et en observant la dynamique des débats sur une durée de vingt ans, Valéry Didelon claire ici d'un jour nouveau l'émergence du postmodernisme en architecture, mouvement culturel dont *Learning from Las Vegas* allait devenir, tort ou raison, l'un des principaux manifestes. Un ouvrage qui retrace l'histoire de l'architecture aux États-Unis, thèses critiques et débats. CE QU'EN PENSE LA CRITIQUE. L'auteur, architecte critique et historien de l'architecture, montre comment cette apologie de l'esthétique du paysage vulgaire produite par le capitalisme américain est au cœur d'un

renouvellement idéologique qui pr figure le post modernisme Archiscopie n 24 décembre 2011 A PROPOS DE L AUTEUR Val  
 ry Didelon est architecte et Docteur de l Université Paris I Panthéon Sorbonne Il est aujourd'hui Maître assistant titulaire l'école  
 nationale supérieure d'architecture de Paris Malaquais et membre du laboratoire Architecture Culture Société ACS *Flight  
 Maps: adventures With Nature In Modern America* Jennifer Jaye Price, 1999-04-22 A quirky brilliant debut book that explores  
 the evolution of our relationship to nature and the ways in which we attach meaning to it today Flight Maps should find its  
 place on any bookshelf with the likes of David Quammen and John McPhee *Betting the Line* Richard O. Davies, Richard G.  
 Abram, 2001 A study of gambling particularly sports gambling and how it has thrived in American culture According to Davies  
 and Abram the culture of betting results from two complementary influences in American society risk taking and speculation  
 This is the first effort by academic writers to describe and interpret the history of sports wagering in the United States  
 Although many books have been written about 3how to bet and win 4 Betting the Line presents a serious history of this  
 popular activity in Colonial and Civil War eras to today from early betting on horse racing and baseball to the modern venues  
 of basketball and football By considering topics as diverse as the business of a bookie the expansion of legalized gambling  
 and the increase in popularity of televised sports the authors offer readers an insightful look into a practice that has become  
 commonplace in American popular culture In a mere seventy years the number of states where gambling is legal jumped  
 from one to forty eight Yet Nevada remains the only state where sports betting is legal This book challenges many long  
 standing myths and stereotypes that revolve around the enterprise arguing that sports gambling is reflective of the American  
 free enterprise culture *Geologic Tours in the Las Vegas Area* Joseph V. Tingley, 2001 A travel guide featuring five  
 geological tours in the Las Vegas area The tours cover the Red Rock Canyon Tule Springs and the Spring Mountains  
 Frenchman Mountain and the Valley of Fire Lake Mead Hoover Dam and Nelson and the urban Las Vegas area Reno, Las  
 Vegas, and the Strip Eugene P. Moehring, 2014-09-15 Eugene P Moehring analyzes the development of Reno and Las Vegas  
 since 1945 with special emphasis on the years after 1970 Major factors that shaped the development of both cities were the  
 growth of corporate gaming and megaresorts and increased personal leisure and affluence Moehring provides an engaging  
 informative and readable history of the divergent paths that Reno and Las Vegas took over the past forty years Reno the  
 nation's gambling mecca in the 1950s led the way developing the successful tourist economy that Las Vegas later embraced  
 Through the 1970s the two cities resembled each other greatly but Las Vegas grew to achieve global significance while Reno  
 slowly declined searching for new industries to power its future Moehring shows that the development of the Las Vegas Strip  
 was crucial to southern Nevada's success The casinos hotels and entertainments of the Strip and the workers they supported  
 formed a new urban center ringed by offices residences shopping and a major university In effect it became a third  
 metropolis governed by county commissioners larger than Reno and Las Vegas combined Moehring brings the story of the  
 three cities to the present day examining lessons learned from the Great Recession and the efforts under way in all three

metropolises to diversify their economies Moehring makes an important contribution with the only current study of Nevada's cities focusing on urban development issues rather than social history or the gaming industry As the service economy continues to grow not only in Nevada but throughout the United States Moehring's work has many implications for urban studies and particularly the study of urban development in other metropolitan areas *D and B Million Dollar Directory*, 2001
