Resources And Environment In Asias Marine Sector:

Resources & Environment in Asia's Marine Sector James B. Marsh, 2018-12-18 This volume brings together a cross section of marine experts who provide a comprehensive exploration of the major facets of Asia's marine sector. It considers both the marine mineral and fish stocks in Asian waters. This extensive volume examines official statistics with an objective eye and provides an overview of fish stock with much focus on the access and management of tuna. It considers global economic issues concerning fishing rights, looks at joint ventures between nations and considers law enforcement efforts. The volume devotes a section to sea lanes and another to off shore mineral deposits. It also considers current and growing problems and possible solutions regarding pollution.

The Routledge Handbook of Environmental Economics in Asia Shunsuke Managi, 2015-02-11 Problems of climate change, biodiversity and air pollution are clearly growing globally but more particularly in Asia because of its economic importance and richness in nature. The increasing interest in environmental and resource economics applied in regions of Asia will make this book an outstanding resource to the existing literature particularly in the fields of environmental and resource economics and the integration of applied content in traditional and agricultural development. At present there is no single handbook or text on the state of current knowledge in environmental economics in Asia or one which offers a comprehensive guide to students and academics on the subjects of environmental economics research. This book will help to fill the gap in the existing literature.

Peace and Security in Northeast Asia Peter Hayes, Young Whan Kihl, 2016-09-16 This work provides an analysis of North Korea's nuclear controversy from a variety of perspectives including nuclear reactor technology and technology transfer, economic sanctions and incentives, confidence building measures, environmental challenges and the views of Korea and the major powers.

Oceanography and Coastal Informatics: Breakthroughs in Research and Practice Management Association, Information Resources, 2018-11-02 To date a vast amount of the world's oceans remains uncharted. With water covering more than 70 percent of the Earth's surface, maritime and oceanographic exploration and research is vital. *Oceanography and Coastal Informatics: Breakthroughs in Research and Practice* is a critical source of academic knowledge centered on technologies, methodologies and practices related to the biological and physical aspects of the ocean and coastal environments. This publication is divided into four sections: climate change and environmental concerns, data analysis and management, fisheries management and ecology, and GIS, geospatial analysis and localization. This publication is an ideal reference source for oceanographers, marine and maritime professionals, researchers and scholars interested in current research on various aspects of oceanography and coastal informatics.

Environmental Change in South-East Asia Mike Parnwell, Raymond L. Bryant, 1996 *Environmental Change in South East Asia* brings together scholars, journalists, consultants and NGO activists to explore the interaction of people, politics and ecology. Ostensibly green activities, plantation, forestry, eco tourism, hydro electricity are revealed as guises used by elites to promote their own political and

economic interests Highlighting fatal flaws in presently exclusive economic and ecological approaches the authors stress that neither the quest for sustainable development nor the process of environmental change itself can be understood without reference to political processes Naval Strategy in Northeast Asia Duk-Ki Kim,2012-10-12 Over the past decade Northeast Asia has been dominated by quite significant strategic change which is ongoing and brings with it many uncertainties naval capabilities in Northwest Asia are instrumental in promoting maritime security interests helping to build a stable security environment through active participation in regional naval co operation This landmark book explores the region s maritime peace and stability and examines in depth the strategic military and apolitical issues that underpin any effort to develop maritime co operation **Handbook of Development Economics** Hollis Burnley Chenery,J. Behrman,T.N. Srinivasan,1988 Handbooks of development economics edit Chenery v 1 Economic Analysis of Environmental Impacts John A. Dixon,1994 First Published in 1994 Routledge is an imprint of Taylor Francis an informa company **Assessment, management and future directions for coastal fisheries in Asian countries** Silvestre, G. et al,2003-12-08 In Asia the fisheries sector is important in terms of food security livelihoods and foreign exchange earnings However as in many parts of the world there are signs that capture fisheries are fully exploited or overfished Management of fisheries in the region is often hampered by lack of information on the status of fisheries in terms of biological social economic policy and governance aspects This regional project documents an alarming decline on coastal fishery resources based on historic research surveys in South and Southeast Asia Socio economic analyses and policy reviews highlight the importance of the fisheries sector but also the challenges facing it Potential interventions to improve fisheries management in the countries are outlined and defined with environmental socioeconomic and institutional objectives **Priorities in Aquatic Resources Research in the Asia-Pacific Region** Modadugu V. Gupta,Natalie Macawaris-Ele,1999 **Economic Analysis of Environmental Impacts** John Dixon,Louise Scura,Richard Carpenter,Paul Sherman,2013-11-05 This revised and updated guide to the environmental economics of development projects demonstrates how the environmental impacts of projects can be translated into monetary values The theoretical bases are examined and the techniques themselves given detailed exposition supported by extensive case studies illustrating a wide range of applications The text should become a useful complement to all standard forms of project analysis **Sharing the Resources of the South China Sea** Mark J. Valencia,Jon M. van Dyke,Noel A. Ludwig,2021-09-27 This book should be helpful to decision makers negotiators and academics desirous of a peaceful solution to these disputes *Economic and Regional Cooperation in Northeast Asia* ,1995 **Maritime Challenges and Priorities in Asia** Joshua Ho,Sam Bateman,2013-02-15 Maritime issues are particularly important for Asian countries where there is a high reliance on shipping routes for international trade many difficult disputes over maritime boundaries and the prospect of increasing tensions where maritime power might play a significant role This book uses contributions by 17 experts to build a comprehensive survey of the maritime issues affecting Asia It discusses the issues overall goes on to examine the issues from

the perspective of each of 14 key countries and concludes by assessing the prospects for resolving common problems in order to preserve good order at sea *Asian and Pacific Technology Transfer Handbook - Strategic Information, Regulations, Developments* IBP, Inc.,2013-08 2011 Updated Reprint Updated Annually Asian and Pacific Technology Transfer Handbook **Status and Management of Tropical Coastal Fisheries in Asia** Geronimo Silvestre,Daniel Pauly,1997
