the critical scholarship and merits of YA literature *Reclaiming Rhetorica* Andrea A. Lunsford, 1995-04-15 Women's contribution to rhetoric throughout Western history like so many other aspects of women's experience has yet to be fully explored In pathbreaking discussions ranging from ancient Greece through the Middle Ages and the Renaissance to modern times sixteen closely coordinated essays examine how women have used language to reflect their vision of themselves and their age how they have used traditional rhetoric and applied it to women's discourse and how women have contributed to rhetorical theory Language specialists feminists and all those interested in rhetoric composition and communication will benefit from the fresh and stimulating cross disciplinary insights they offer **WPA, Writing Program Administration**, 1994 Understanding and Teaching Reading Emerald Dechant, 2013-09-13 In the words of Aldous Huxley Every man who knows how to read has it in his power to magnify himself to multiply the ways in which he exists to make his life full significant and interesting Few people question the value of reading in fact most extol its virtues As our culture becomes more complex reading plays an increasingly greater role in satisfying personal needs and in promoting social awareness and growth In the last 20 years the teaching of this invaluable skill has focused so intensely on comprehension and prediction from context that it has lost sight of the significance of automaticity and fluency in the word identification process Reading is a synthesis of word recognition and comprehension thus this text is about these basic processes and their integration A common plea from teachers today is that research and psychology be translated into teaching behavior Therefore the aim of this book is twofold one to identify report organize and discuss those bits of data research and theory that are most relevant to the teacher's understanding of the reading process and two to help educators to interpret and apply theory and research data to everyday classroom teaching as well as to the problems encountered frequently in developmental and remedial teaching **Academic Advocacy for Gifted Children** Barbara Gilman, M.S., 2020-01-01 Formerly titled Empowering Gifted Minds Educational Advocacy That Works this book is the definitive manual on gifted advocacy for gifted students The author tells parents and teachers how to document a child's abilities to provide reasonable educational options year by year This book provides imperative information on testing considerations curriculum successful programs and planning your child's education It is an essential guide You Are What You Read Robert DiYanni, 2022-10-25 How you can enrich your life by becoming a more skillful and engaged reader of literature We are what we read according to Robert DiYanni Reading may delight us or move us we may read for instruction or inspiration But more than this in reading we discover ourselves We gain access to the lives of others explore the limitless possibilities of human existence develop our understanding of the world around us and find respite from the hectic demands of everyday life In *You Are What You Read* DiYanni provides a practical guide that shows how we can increase the benefits and pleasures of literature by becoming more skillful and engaged readers DiYanni suggests that we attend first to what authors say and the way in which they say it rather than rushing to decide what they mean He considers the various forms of literature from the essay to the novel the short story to the poem

demonstrating rewarding approaches to each in sample readings of classic works Through a series of illuminating oppositions he explores the paradoxical pleasures of reading solitary versus social reading submitting to or resisting the author reading inwardly or outwardly and more DiYanni closes with nine recommended reading practices thoughts on the different experiences of print and digital reading and advice on what to read and why Written in a clear inviting and natural style *You Are What You Read* is an essential guide for all who want to enrich their reading and their life **Current opinion**,1921 **Current Opinion** Edward Jewitt Wheeler, Frank Crane, 1921 *Understanding Children's Literature* Peter Hunt, 2006-05-17 Edited by Peter Hunt a leading figure in the field this book introduces the study of children's literature addressing theoretical questions as well as the most relevant critical approaches to the discipline The fourteen chapters draw on insights from academic disciplines ranging from cultural and literary studies to education and psychology and include an essay on what writers for children think about their craft The result is a fascinating array of perspectives on key topics in children's literature as well as an introduction to such diverse concerns as literacy ideology stylistics feminism history culture and bibliotherapy An extensive general bibliography is complemented by lists of further reading for each chapter and a glossary defines critical and technical terms making the book accessible for those coming to the field or to a particular approach for the first time In this second edition there are four entirely new chapters contributors have revisited and revised or rewritten seven of the chapters to reflect new thinking while the remaining three are classic essays widely acknowledged to be definitive *Understanding Children's Literature* will not only be an invaluable guide for students of literature or education but it will also inform and enrich the practice of teachers and librarians Carr V.
