The International Criminal Court and the Responsibility to Protect Stefano Marinelli, 2022-07-28 This book examines the parallel development and interaction between the International Criminal Court ICC and the doctrine of the Responsibility to Protect RtoP assessing this relationship over time and through case studies of Darfur Libya and Syria The similarities and connections between the doctrine and the Court have been highlighted by UN bodies the organs of the Court and scholars yet their relationship and common impact on international law have been less explored This book fills this gap in presenting an overview of how the development of RtoP and the ICC affect various branches of international law The research shows that while the doctrine and the Court experienced significant implementation problems in their first decades of life they nonetheless have the potential to contribute to the historical evolution of international law in combining their values of promoting international peace and protecting human rights This interdisciplinary study will be useful for scholars of international law and international relations It will also be beneficial to persons working for international organisations and for civil society organisations focused on the activity of the ICC and on the development of RtoP

The Responsibility to Protect Gareth Evans, 2009-08-01 Never again the world has vowed time and again since the Holocaust Yet genocide ethnic cleansing and other mass atrocity crimes continue to shock our consciences from the killing fields of Cambodia to the machetes of Rwanda to the agony of Darfur Gareth Evans has grappled with these issues firsthand As Australian foreign minister he was a key broker of the United Nations peace plan for Cambodia As president of the International Crisis Group he now works on the prevention and resolution of scores of conflicts and crises worldwide The primary architect of and leading authority on the Responsibility to Protect R2P he shows here how this new international norm can once and for all prevent a return to the killing fields The Responsibility to Protect captures a simple and powerful idea The primary responsibility for protecting its own people from mass atrocity crimes lies with the state itself State sovereignty implies responsibility not a license to kill But when a state is unwilling or unable to halt or avert such crimes the wider international community then has a collective responsibility to take whatever action is necessary R2P emphasizes preventive action above all That includes assistance for states struggling to contain potential crises and for effective rebuilding after a crisis or conflict to tackle its underlying causes R2P's primary tools are persuasion and support not military or other coercion But sometimes it is right to fight faced with another Rwanda the world cannot just stand by R2P was unanimously adopted by the UN General Assembly at the 2005 World Summit But many misunderstandings persist about its scope and limits And much remains to be done to solidify political support and to build institutional capacity Evans

shows compellingly how big a break R2P represents from the past and how with its acceptance in principle and effective application in practice the promise of Never

State Responses to Human Security Courtney Hillebrecht, Tyler R. White, Patrice C. McMahon, 2013-11-07 The aim of this book is to analyse why and how states respond to human security both at home and abroad Although states still define security as the defense of territory from military attack increasingly security pertains to the protection of human beings from violence This violence can emerge from rebels drug traffickers terrorism and even environmental and demographic changes While previous literature in this field has provided rich empirical detail about human security crises it is generally quiet about how states respond to these crises *State Responses to Human Security* fills this lacuna by bringing in concepts from international security studies and focusing on states perceptions of power and the changing nature of human security Instead of debating whether or not human security exists the authors in this volume agree that human security has been redefined to include policies associated with violence toward individuals and groups and draw on recent events in the Middle East China and Mexico to understand how and when human security issues prompt state responses and affect international relations The case studies analysed in this book suggest that states respond to human security threats differently but in both the domestic context and abroad power and perceptions matter greatly in shaping states reactions to human security concerns This book will be of much interest to students of human security foreign policy international relations and security studies in general

Nonviolence Senthil Ram, Ralph Summy, 2008 The so called war on terror has gone badly for the West playing directly into the strategy of al Qaeda and the rest of the terrorist network Why did this happen Were there other approaches that might have been implemented with better prospects of success This edited collection of perspectives on the non violent counter to terrorism opens the topic to serious consideration The development of a non violent paradigm brings into sharp focus the deficiencies of present thinking and paves the way for comprehending how non violence might overcome those deficiencies and introduce viable alternatives Since there is a general ignorance about the history theory and operational dynamics of non violence these aspects are featured throughout the book and related to the special case of terrorism To understand empathetically the background and mind set of the opponent without condoning his actions to study his culture to avoid the strategic trap he has set to examine the different gender reactions of a Muslim Society to differentiate between non violent Islam and Islamic Terrorism to jettison the misinformed baggage we carry about violence to appreciate the positive role education and aesthetics can play and to investigate ways in which a non violent counter to terrorism might be staged including a Gandhian response These are just some of the tasks that the contributors have collectively pursued Their ideas excitingly open up a whole new set of possibilities for a more peaceful

Constructing Global Civil Society D. Chandler, 2004-09-13 Global Civil Society is a crucial concept in International Relations today used as both a description of new mechanisms of non state actor and NGO engagement in international policy making and as a normative political project of international change David Chandler critically investigates the claims made by the advocates of global civil society analyzing the limits of the concept as a way of describing actual policy processes and the political dynamics behind the search for an international source of collective ethical values and social change

Family Ambiguity and Domestic Violence in Asia Maznah Mohamad, Saskia E Wieringa, 2013-06-06 This book revisits the issue of Domestic Violence DV in Asia by exploring the question of family ambiguity and interrogating DV's relationship between concept law and strategy Comparative experiences in the Asian context enable an examination of the effectiveness of family regulations and laws in diverse national cultural and religious settings Key questions relate to the limits and relevance of the human rights discourse in resolving family conflicts the extent to which power and control in intimate relationships can actually be regulated by a set of inanimate homogeneous and uniform policies and legislations and how the state relates to the family as an ambiguous unit given state rules of governance that perpetuate unequal gender relations Many of the difficulties in understanding DV have sprung from the fact that the family unit is ambiguous When the state intervenes e.g. reproductive health the family is treated as a public concern yet with respect to individual human multicultural rights the family is considered a private domain Complications and contradictions arise with regard to different legislative religious practices across Asia for example the enforcement of Sharia technocratic imperatives with regard to demographic goals of marriage and reproduction and state interference of gender

imbalances and inequality The politics and culture around DV is thus a mirror of modern day Family State collusion which sustains rather than curtails discrimination based on sexuality and gender This book views gender inequality for instance in relation to heteronormativity as the fundamental basis of intimate violence rather than violence as a generic and neutral phenomenon requiring generic solutions It offers new theoretical insights to the conceptualisation of the family culture and law with respect to DV And it provides reasoned new perspectives on the effectiveness inadequacy of present policies laws and enforcement strategies against domestic violence in Asia

Peace Operations and Global Order Alex J. Bellamy, Paul Williams, 2014-01-02 Peacekeeping in Global Politics investigates the changing role of peacekeeping and competing perspectives about what that role should be It begins by addressing broad issues connected with the transition from a Westphalian to post Westphalian international society the ethical and legal dilemmas provoked by armed intervention and the alternative ways of conceptualising the role that peacekeeping plays It goes on to critically chart the development of traditional peacekeeping before outlining how the role of force in peacekeeping operations has changed and the close links between peacekeeping conflict prevention and conflict resolution The final part of the volume focuses specifically on globalization and the effects that this has had on peacekeeping practices In particular it focuses on the changing conflict environment the growing tendency towards subcontracting peacekeeping duties and the development of regional peacekeeping capabilities Overall this volume makes two contributions to the way we think about peacekeeping first it demonstrates that the theory and practice of peacekeeping is embedded in global politics and second it shows that there is an on going debate about what peacekeeping is for
