Responsible Parent A Study In Divorce Mediation:

The Responsible Parent Christine Piper, 1993 Drawing on research investigating the parenting lives and mediation appointments of 24 sets of parents this book focuses on two aspects of the relationship between mediation and parental responsibility *Divorce: A Psychosocial Study* Shelley Day Sclater, 2017-07-05 Several jurisdictions have attempted to render divorce more harmonious by abolishing matrimonial fault and facilitating the resolution of divorce disputes by mediation This book presents a challenge to the underlying assumptions that conflict and the adversarial system are undesirable particularly topical in the light of the recent decision of the British Government to postpone the implementation of the Family Law Act 1996 and the acknowledged need for research to inform policy **Vulnerabilities, Care and Family Law** Julie Wallbank, Jonathan Herring, 2013-11-26 While in the past family life was characterised as a haven from the harsh realities of life it is now recognised as a site of vulnerabilities and a place where care work can go unacknowledged and be a source of social and economic hardship This book addresses the strong relationships that exist between vulnerability and care and dependency in particular contexts where family law and social policy have a contribution to make A fundamental premise of this collection is that vulnerability needs to be analysed in a way that gets at the heart of the differential power relationships that exist in society particularly in respect of access to family justice including effective social policy and law targeted at the specific needs of families in mutually dependent caring relationships It is therefore crucial to critically examine the various approaches taken by policy makers and law reformers in order to understand the range of ways that some families and some family members may be rendered more vulnerable than others The first book of its kind to provide an intersectional approach to this subject Vulnerabilities Care and Family Law will be of interest to students and practitioners of social policy and family law *Undercurrents of Divorce* Shelley Day Sclater, Christine Piper, 2019-07-12 Published in 1999 Despite considerable comment about divorce reform and the post divorce family in the press and in academia by professionals and politicians much has been left unsaid There are undercurrents of divorce which are not visible and are not discussed because they do not fit into the dominant discursive framework for talk about divorce This book brings these undercurrents to the surface and does two things It explains how and why aspects of divorce and the lives of those divorcing have become marginalized in professional and political discussion and it makes visible the practical and legal effects of such exclusion It argues that there are good policy reasons for this particular socio legal critique at this time as the implementation of the Family Law Act 1996 gets underway **Law's Families** Alison Diduck, 2003-07 Examining the diversity of perspectives and approaches in family law scholarship and drawing upon this work this book provides an analysis of recent trends in family law from a socio legal and feminist perspective and questions the nature of the nuclear family **Dispute Processes** Michael Palmer, Simon Roberts, 2020-07-09 This new edition considers a wide range of materials dealing with dispute processes and current debates on civil justice Family Law, Gender and the State Alison

Diduck, Felicity Kaganas, 2012-02-07 The third edition of this work on family law comprising text cases and materials provides not only an explication of legal principle but also explores primarily from a feminist perspective some of the assumptions about and constructions of gender sexual orientation class and culture that underlie the law It examines the ideology of the family and in particular the role of the law in contributing to and reproducing that ideology Structured around the themes of equality welfare and family privacy the book aims to offer the benefits of a textbook while also giving students a wide ranging set of materials for classroom discussion As well as providing a firm grounding in family law the text sets the law in its social and historical context and encourages a critical approach by students to the subject It provides an ideal introduction to family law for undergraduates but will be equally helpful for postgraduate students of family law for whom it provides a challenging selection of materials set within a theoretical framework rich in ideas and arguments Review of the second edition Diduck and Kaganas examine legal developments to shed light on society principally by investigating the ways in which family law constructs and regulates family life and responsibilities Theirs is an important and ambitious book that aims ultimately at a feminist restatement of family law The book is written and referenced in such depth that it is a useful resource for legal as well as social science researchers at all levels whether looking for theoretical inspiration or drawing up a literature review The range of diverse sources that Diduck and Kaganas draw on is impressive they seem to have included every bit of material that helps feminists make sense of family law There is a well pitched selection of further reading of such material at the end of each chapter What's more they undersell themselves by describing their book as Text Cases and Materials because they have woven by far the largest proportion of the cases and materials into the text Helen Reece Times Higher Education May 2007 Reviews of first edition A stimulating work which attempts to situate family law in its social historical and political context Its appeal should not be confined to family law students as its commitment to a critical and analytical approach offers insights and ideas with broader significance Mary Childs Child and Family Law Quarterly September 2002 The arguments are provocative the analysis is stimulating and the materials amassed strongly support the authors aim to question the axiomatic status of what is traditionally designated as the family Fiona E Raitt Infant and Child Development September 2002 It is not often that one can say of a textbook in Law that it makes interesting reading with quite the enthusiasm that can be expressed for this text This new publication offers something that few textbooks seem to offer a book you CAN open up virtually anywhere and find an interesting piece on almost any aspect of the broad family law spectrum Penny Booth The Law Teacher September 2002 All the major themes in feminist and constructionist perspectives in family law are presented together with a wealth of readings and extensive references As a teaching manual it is excellent a coherent feminist perspective across the entire range of family law Marty Slaughter Feminist Legal Studies July 2003

Rethinking Family Mediation Rachael Blakey,2025-02-26 Over several decades policies have made mediation a key part of the English and Welsh family justice system As the process faces increasing demand from a diverse and complex client base some argue for a return to a fully funded court system However this dominant view overlooks the longstanding problems with the court process as well as the potential value of mediation This book based on original research highlights the evolving role of mediators who assist families without legal support By doing so it reveals a contemporary vision of family justice that addresses some of the challenges in today s landscape

Investing in Children Christine Piper,2013-05-13 This book brings together insights from a range of disciplines including law sociology criminology and history to identify and explain the complex and inter related factors which help or hinder the state to invest in children and young people The first part of the book examines the intangibles the ideologies social constructions and moral precepts which obstruct or encourage the passage and full implementation of legislation policy and practice which hopes to improve

the lives and prospects of children and young people. Notions of family and parental responsibility, assumptions about what children and young people are and the extent to which they should be held accountable, and ideas around state investment against future risks are the key factors considered. The second part of the book focuses on the difficulties in practice of implementing policies aimed at investing in children's lives and futures. It reviews the role of science in the identification of risk factors related to poor outcomes for children and in the selection of target groups or areas for risk-based intervention to provide early support and preventative programmes for children and their families. It also assesses whether and how law does or could help to deliver an appropriate investment of time and money in children, with a focus on the existence and effectiveness of a rights-based approach. The final chapters examine the results of research so far undertaken done on selected programmes in the Every Child Matters social inclusion and Youth Justice Board policy agendas and they identify promising developments. However, they also draw attention to the alternative agendas around children and young people which are competing for government money and the public's support and warn that there are dangers in a child-focused policy whose justification relies so heavily on future cost savings stemming from the production of healthier, more employable and law-abiding adults.

Families and the State S. Cunningham-Burley, L. Jamieson, 2003-11-25. How possible is it for the state to steer family values and relationships? How do we assess claims of harm and benefit from state action and inaction? What kind of engagement should we seek between the state and our personal lives? The evidence presented includes state engagements with separating couples, lone parents, retired people, black families, disabled people, pregnant teenagers, and young people negotiating adulthood. The range of perspectives, data, and cross-national state comparisons helps readers to come to their own conclusions.
