Responsive Society:

A Responsive Society Amitai Etzioni, 1991-11-20 Brings together seventeen essays on the dynamics of social change published in a wide array of journals over the course of Amitai Etzioni's long and distinguished career Applying sociological methods of study to seemingly disparate disciplines from ethics to economics politics to genetics Etzioni uncovers important interrelationships between these fields *Responsive Community Building in High Need Contexts* David P.

Moxley, 2025-10-02 This book provides a description of what a good human service organization is and what it does The author relies on a broad framework to define good and offers a fictional account as a methodology using his considerable consulting and research experience in human service organizations as a content enriching approach to the case examples he presents in this volume The book details the fictional story of Fifth Street a non governmental organization nested in a high need community which itself is hypothetical but reflects what is occurring within communities whose residents are struggling with poverty The content of this fictional account leans on a synthesis of multiple case examples This approach will appeal to faculty and students as well as practitioners who are seeking a grand example of how human service organizations can work effectively in high need contexts Students will also gain from the ethical perspective the author presents in this monograph This is a project of hope one that can inspire us all practicing in human services to strive for the best in novel and innovative ways *Changing Modern Society* Abhishek Sharma, 2001

Etzioni's Critical Functionalism David Sciulli, 2011-01-17 Written for social theorists and general readers including undergraduates David Sciulli's book is the first to explain not only how but also why Amitai Etzioni's publications evolved from his dissertation to *Active Society* and *Socio Economics to Communitarianism* **Community** Gerard Delanty, 2013-09-13 The increasing individualism of modern Western society has been accompanied by an enduring nostalgia for the idea of community as a source of security and belonging and in recent years as an alternative to the state as a basis for politics Gerard Delanty begins this stimulating introduction to the concept with an analysis of the origins of the idea of community in Western Utopian thought and as an imagined primitive state equated with traditional societies in classical sociology and anthropology He goes on to chart the resurgence of the idea within communitarian thought the complications and critiques of multiculturalism and its new manifestations within a society where new modes of communication produce both fragmentation and the possibilities of new social bonds Contemporary community he argues is essentially a communication community based on new kinds of belonging No longer bounded by place we are able to belong to multiple communities based on religion nationalism ethnicity life styles and gender

Schools and Community Dr James Arthur, Richard Bailey, 2002-11 Communitarianism as a movement is clearly a dominant theme within New Labour's educational policy How does this affect education and the life and work of schools Research has shown that there is a correlation between academic achievement and the strength of community life and awareness within a school The aim of this book therefore is to introduce communitarian thought to classroom teachers and to

those working in education The book contextualizes the current debates within education around the many topical ideas being developed by communitarian thinkers including character building the role of parents the community and the individual values education and citizenship community education and standards and ethos in schools Throughout the book makes specific reference to the practical implications for both primary and secondary schools as well as for further education colleges This is a timely book that should be of interest to all those working in schools and with children and young people It aims to be a guide to this important and highly influential movement that is shaping our educational future Legality and Community Philip Selznick,2002 Bridging sociology legal and social theory and moral philosophy this volume explores the significance of Philip Selznick s work in a variety of social contexts particularly the search for responsive law and governance humane institutions and a balance between freedom and communal life **Community** J. Toby Reiner,2025-07-04 People often yearn for a sense of belonging and connection they long to live in a meaningful community In the modern age however this often seems to be a chimera Does modernity doom us to be atomised individuals Does the promise of community imply a loss of autonomy and freedom and entrench inequality and hierarchy In this book J Toby Reiner examines the debates surrounding community in modern political and social thought He outlines how liberals conservatives socialists and nationalists have historically conceived of the ties that bind together political communities and how recent political philosophers such as Rawls Taylor Walzer and Sandel have debated the nature and merits of community in the contemporary world He goes on to consider how prominent conceptions of community relate to and are in tension with characteristically modern ideals such as equality and freedom He deftly shows how a meaningful conception of community can be reconciled with the demands of modern liberal societies Filled with real life examples and thought provoking discussions of the key debates this book will be essential reading for students of contemporary political theory and philosophy and of sociology

Building the Strategically-Responsive Organization Howard Thomas,1994-12-12 Building the Strategically Responsive Organization Edited by Howard Thomas and Don O Neal University of Illinois USA and Rod White and David Hurst Western Business School Ontario Canada The contributions in this volume provide an interesting and effective integration of strategic perspectives that exemplify many of the most important issues facing strategic management both now and in the immediate future Education Strategic intent Competitive dynamics Industry evolution Strategic change Value chains Globalization Building the Strategically Responsive Organization is concerned with building and maintaining bridges between theory and practice On the research side it generates and tests theories related to business and management and on the practitioner side it shows how to learn understand and apply tested theories to practice **Macro Socio-economics: From Theory to Activism** David Sciulli,2016-09-16 Contributors to this volume respond to the normative capsule framing economic behaviour that Amitai Etzioni has explored The text also looks at his works on organisations public policy socio economics and communitarianism *The Active Society Revisited* Wilson C. McWilliams,2006 The Active Society published in 1968 is the

most ambitious book in Amitai Etzioni's remarkable career In this new collection of essays Wilson Carey McWilliams brings together scholars in a range of disciplines to analyze the significance and shortcomings of this important work **Social Transformations in Chinese Societies** Yanjie Bian, Kwok-bun Chan, Tak-sing Cheung, 2006-06-01 Social Transformations in Chinese Societies is the official annual of The Hong Kong Sociological Association It publishes articles of original research that addresses theoretical methodological or substantive issues of sociological significance about or related to social transformations in Chinese societies The focus is mainly on Hong Kong Taiwan the mainland Singapore and Chinese overseas Review essays of exceptionally high quality are also welcome *Covenant and Contract* Adela Cortina Orts, 2003 Modern republicanism nevertheless turns liberal and opts for the contract between independent beings as fiat of the political world But the Contract is not self sufficient since anyone who looks back to their roots will come to the narration of reciprocal recognition The Covenant falls similarly short as those who forget the parable of independence may well have a disregard for justice In a dialogue with the most relevant philosophical currents of the age the book proposes an articulation of politics ethics and religion appropriate for our own time starting from the contract between independent beings and from the reciprocal recognition of those who know themselves to be human Jacket [Do Community Colleges Respond to Local Needs?](#) Duane E.
