

Photograph & Pictures

Frozen faces, smiles so wide,
Moments passed, yet still inside.
In black and white, or vibrant hues,
Time stands still, memories ensue.

Each photograph, a tale to tell,
Of joy, of love, of times we fell.
Holding close the ones we've known,
In printed form, their love is shown.

A second captured, never to fade,
For in our hands, the past is laid.
Echoes of laughter, tears, and cheers,
Preserved forever, through the years.

Rethinking Thought Laura Otis, 2015-10-09 *Rethinking Thought* takes readers into the minds of 30 creative thinkers to show how greatly the experience of thought can vary It is dedicated to anyone who has ever been told You're not thinking because his or her way of thinking differs so much from a spouse's employer's or teacher's The book focuses on individual experiences with visual mental images and verbal language that are used in planning problem solving reflecting remembering and forging new ideas It approaches the question of what thinking is by analyzing variations in the way thinking feels Written by neuroscientist turned literary scholar Laura Otis *Rethinking Thought* juxtaposes creative thinkers' insights with recent neuroscientific discoveries about visual mental imagery verbal language and thought Presenting the results of new interview-based research it offers verbal portraits of novelist Salman Rushdie engineer Temple Grandin American Poet Laureate Natasha Trethewey and Nobel prize winning biologist Elizabeth Blackburn It also depicts the unique mental worlds of two award-winning painters a flamenco dancer a game designer a cartoonist a lawyer novelist a theoretical physicist and a creator of multi-agent software Treating scientists and artists with equal respect it creates a dialogue in which neuroscientific findings and the introspections of creative thinkers engage each other as equal partners The interviews presented in this book indicate that many creative people enter fields requiring skills that don't come naturally Instead they choose professions that demand the hardest work and the greatest mental growth Instead of classifying people as visual or verbal educators and managers need to consider how thinkers combine visual and verbal skills and how those abilities can be further developed By showing how greatly individual experiences of thought can vary this book aims to help readers in all professions better understand and respect the diverse people with whom they work

Grains of Sand Sergei Isaenko, 2009-09 This collection of poetry and photography is an exhilarating insight into the world of human nature human condition and the universal qualities that make us all human Sergei Isaenko's poetry is incredibly rich and rhythmical it demonstrates a mastery of rhyme and contemplations on a very deep and personal level As a photographer and a poet I mix both of the mediums into one For every poem there is an image that follows the concept and the idea of the text the photographs are meant to both shed light and support the meaning or simply enrich the expression So why Grains of Sand To me each poem each word every line of text are pieces of a puzzle this riddle is like a pebble that lies on a river bank a grain of sand amongst the endless beach
