Restoration of Class Society in Russia? Taylor & Francis Group,2021-05-26 *Rethinking Class in Russia* Suvi Salmenniemi,2016-04-08 Social differentiation poverty and the emergence of the newly rich occasioned by the collapse of the Soviet Union have seldom been analysed from a class perspective *Rethinking Class in Russia* addresses this absence by exploring the manner in which class positions are constructed and negotiated in the new Russia Bringing an ethnographic and cultural studies approach to the topic this book demonstrates that class is a central axis along which power and inequality are organized in Russia revealing how symbolic cultural and emotional dimensions are deeply intertwined with economic and material inequalities Thematically arranged and presenting the latest empirical research this interdisciplinary volume brings together work from both Western and Russian scholars on a range of spheres and practices including popular culture politics social policy consumption education work family and everyday life By engaging with discussions in new class analysis and by highlighting how the logic of global neoliberal capitalism is appropriated and negotiated vis vis the Soviet hierarchies of value and worth this book offers a multifaceted and carefully contextualized picture of class relations and identities in contemporary Russia and makes a contribution to the theorisation of class and inequality in a post Cold War era As such it will appeal to those with interests in sociology anthropology geography political science gender studies Russian and Eastern European studies and media and cultural studies *The New Social Division* Donatella della Porta,Tiina Silvasti,Sakari Hänninen,Martti Siisiäinen,2016-03-11 This volume addresses issues of precariousness in a broad interdisciplinary perspective looking at socio economic transformations as well as the identity formation and political organizing of precarious people The collection bridges empirical research with social theory to problematize and analyse the precariat *Rural Inequality in Divided Russia* Stephen Wegren,2013-07-24 This book examines economic and political polarisation in post Soviet Russia and in particular analyses the development of rural inequality It discusses how rural inequality has developed in post Soviet Russia and how it differs from the Soviet period and goes on to look at the factors that affect rural stratification and inequality using human and social capital profession gender and village location as independent variables The book uses survey data from rural households and fieldwork in Russia in order to highlight the multiplicity of divisions that act as fault lines in contemporary rural Russia **Russian Mass Media and Changing Values** Arja Rosenholm,Kaarle Nordenstreng,Elena Trubina,2010-10-04 This book provides a multi faceted picture of the many complex processes taking place in the field of contemporary Russian media and popular culture Based on extensive original research by scholars in both Russia itself and in Finland it discusses new developments in the media industry and assesses a wide range of social and cultural changes many of which are related to and to an extent generated by the media **Reflecting Transformation in Post-socialist Rural Areas** Maarit Heinonen,Inna Kopoteva,2021-03-04 The rural reforms in many post soviet countries produced a number of unintended consequences The reforms were guided by ideals of

romanticized society of family farmers they were to be the basis of the rural middle class together with owners of non agricultural SME s acting as guardians of democracy and common good The guidelines were set by advisers from World Bank and IMF who preferred family farms or individual farms over the collective enterprises In most countries the result was nothing like those envisaged by reformers Instead of efficient and productive family farms the result was almost complete de capitalization of agriculture and collapse of production The reform was destructive not only as far as production is concerned but more importantly to rural communities Social ties which were based on the collective farm as the main economic and social resource for local community were eroded Only from the turn of this decade some early stages have been visible of new developments in economic and social life in post socialist rural areas The result is that now more than fifteen years since the beginning of agricultural reforms the key agricultural producers in Russia Baltic countries and elsewhere are very large capitalist farms or large agricultural holding companies This anthology is based on the presentations given at the 5th Aleksanteri Conference 10 11 November 2005 in Helsinki Finland and it is devoted to the analysis of some of these issues The volume is divided into two parts in the first part the focus is on the patterns and problems of transformation of post socialist agriculture and agricultural policies while the second part is focuses mainly on efforts to revitalize rural communities and issues of local development
