Restoration and Reaction, 1815-1848 André Jardin, André Jean Tudesq, 1983 **The Great Restoration: Post-Communist Transformations from the Viewpoint of Comparative Historical Sociology of Restorations** Zenonas Norkus, 2023-09-20 The revolutions of 1989 remains the standard term used to describe the onset of post communist transformations more than thirty years ago Zenonas Norkus proposes a completely new perspective theorising them as the next wave of modern social restorations starting with the post Napoleonic restorations in 1815 A comparison of the 1789 French and 1917 Russian revolutions was seminal for the rise of comparative historical and sociological research on modern revolutions The book extends and supplements the sociology of modern revolutions by the first systematic outline of the sociology of modern social restorations grounded in a comparison of post Napoleonic and post communist restorations

Our Friends the Enemies Christine Haynes, 2018-11-05 The Battle of Waterloo was just the beginning of a long transition to peace Christine Haynes offers the first comprehensive history of the post Napoleonic occupation of France Transforming former European enemies into allies the mission established Paris as a cosmopolitan capital and foreshadowed postwar reconstruction in the twentieth century Music Drama at the Paris Odeon, 1824-1828 Mark Everist, 2002-12-04 Parisian theatrical artistic social and political life comes alive in Mark Everist s impressive institutional history of the Paris Od on an opera house that flourished during the Bourbon Restoration Everist traces the complete arc of the Od on s short but highly successful life from ascent to triumph decline and closure He outlines the role it played in expanding operatic repertoire and in changing the face of musical life in Paris Everist reconstructs the political power structures that controlled the world of Parisian music drama the internal administration of the theater and its relationship with composers and librettists and with the city of Paris itself His rich depiction of French cultural life and the artistic contexts that allowed the Od on to flourish highlights the benefit of close and innovative examination of society s institutions The Year Without Summer William K. Klingaman, Nicholas P. Klingaman, 2013-02-26 Like Winchester s Krakatoa The Year Without Summer reveals a year of dramatic global change long forgotten by history In the tradition of Krakatoa The World Without Us and Guns Germs and Steel comes a sweeping history of the year that became known as 18 hundred and froze to death 1816 was a remarkable year mostly for the fact that there was no summer As a result of a volcanic eruption in Indonesia weather patterns were disrupted worldwide for months allowing for excessive rain frost and snowfall through much of the Northeastern U S and Europe in the summer of 1816 In the U S the extraordinary weather produced food shortages religious revivals and extensive migration from New England to the Midwest In Europe the cold and wet summer led to famine food riots the transformation of stable communities into wandering beggars and one of the worst typhus epidemics in history 1816 was the year Frankenstein was written It was also the year Turner painted his fiery sunsets All of these things are linked to global climate change something we are quite aware of now but that was utterly mysterious to people in the nineteenth century who concocted all sorts of

reasons for such an ungenial season Making use of a wealth of source material and employing a compelling narrative approach featuring peasants and royalty politicians writers and scientists The Year Without Summer by William K Klingaman and Nicholas P Klingaman examines not only the climate change engendered by this event but also its effects on politics the economy the arts and social structures

Justice and the Genesis of War David A. Welch, 1995-08-10 Studies of the causes of wars generally presuppose a realist account of motivation when statesmen choose to wage war they do so for purposes of self preservation or self aggrandizement In this book however David Welch argues that humans are motivated by normative concerns the pursuit of which may result in behaviour inconsistent with self interest He examines the effect of one particular type of normative motivation the justice motive in the outbreak of five Great Power wars the Crimean war the Franco Prussian war World War I World War II and the Falklands war Realist theory would suggest that these wars would be among the least likely to be influenced by considerations other than power and interest but the author demonstrates that the justice motive played an important role in the genesis of war and that its neglect by theorists of international politics is a major oversight

Husbands, Wives, and Lovers Patricia Mainardi, 2003-01-01 In this interdisciplinary exploration of the cultural and social history of early 19th century France Patricia Mainardi focuses on what was considered a major social problem of the time adultery In a period when expectations about marriage were changing the problems of husbands wives and lovers became a major theme in theatre literature and the visual arts The author demonstrates that this intense interest was historically grounded in the post revolutionary collision between the new concept of the individual s right to happiness and the traditional prerogatives of family and state duty or happiness more important Are arranged marriages doomed to be empty of love and poisoned by adultery Should adulterous wives and their lovers be punished while husbands may commit adultery with impunity Out of

such legal social and cultural debates ultimately emerged modern bourgeois family values Mainardi argues And she illuminates how art in all its varieties both influences and is influenced by social change

Caiani, 2019-11-14 Europe's Restorations were characterised by their evolving dialectics The chapters in this first volume address the key questions and controversies of Napoleonic history from a national and international perspective From the re ordering of the European world through the tools of intervention occupation and diplomacy to the creation of new constitutional monarchies across France Scandinavia and Germany the volume outlines the processes that realigned national priorities and the accompanying dynamics of social and political identity In a structure that makes sense of what Luigi Mascilli Migliorini describes as the fiendishly complex process of reconstructing order in post Napoleonic Europe this collection of essays brings together experts in the field to set a new precedent for transnational research frameworks in the study of the European Restorations

Murder in Our Midst Omer Bartov, 1996-02-29 War endlessly tries to mask itself The myth of the heroic soldier testing his individual courage stands in stark contrast to the reality of mass anonymous death and the suppression of individual actions *Murder in Our Midst* shows that this fundamental tension reached its natural conclusion in the Holocaust and that disguising it has required an ongoing effort to misrepresent war and the Holocaust as something other than industrial killing Examining a broad range of the representations of war's horrors from scholarly depictions to those in popular literature poetry art and the movies Omer Bartov finds they have some things in common Societies and cultures have attempted to form coherent images of horrific events to draw didactic lessons from them and to exploit them to legitimate ideological or political positions Made up of interconnected essays this book is both a

scholarly and an often personal and passionate examination of the emergence implementation and representation of industrial killing Bartov draws out the links between recent revisionist attempts to minimize and deny the Holocaust and Hollywood's ongoing fascination with National Socialism and Hitler's Final Solution Arguing that the modern predicament reflects the effects of the Nazi genocide on current perceptions of war history and memory this book is a plea for compassion and commitment in an increasingly violent and indifferent world **Mother of the Church** Tatyana V.
