**Redefining William III** David Onnekink, Esther Mijers, 2016-04-08 William III 1650-1702 was Stadholder in the United Provinces and King of England, Scotland and Ireland. His reign has always intrigued historians as it encompassed such defining events as the Dutch year of Disaster 1672, the Glorious Revolution 1688 and the ensuing wars against France. Although William has played a pivotal role in the political and religious history of his countries, the significance and international impact of his reign is still not very well understood. This volume contains a number of innovative essays from specialists in the field which have evolved from papers delivered to an international conference held at the University of Utrecht in December 2002. By focusing on the entire period 1650-1702 from an international perspective, the volume moves historical discussion away from the traditional analysis of single events to encompass William's entire reign from a variety of political, religious, intellectual and cultural positions. In so doing it offers a new perspective on the British and Dutch reigns of William III as well as the wider European milieu.

**The Oxford Handbook of Restoration Literature** Matthew C. Augustine, Steven N. Zwicker, 2024-10-22 The Oxford Handbook of Restoration Literature begins by asking if there was a distinctive literature of the Restoration. For a long time the answer seemed obvious: heroic drama, libertine comedy, scandalous lyrics and the short but brilliant career of John Wilmot, earl of Rochester. Could there be an age when the coincidence of literary culture and political rule were any more obvious? But as this Handbook will remind us, some of the most wonderful literature of this Restoration came from writers who had lived across the decades of turbulence and into an age when the Stuart kings returned, when the Church and House of Lords were restored, a world made safe for bishops and for the memory of divine right rule. Of course these returns and restorations did not meet with uniform celebration. John Milton wrote his great epic poems not in quiet submission but in a kind of resistance to the dominant culture of the 1660s, and Andrew Marvell produced his most brilliant satiric verse by holding up a looking glass to court corruption and Anglican intolerance. So we begin with the most obvious conclusion: Restoration literature does and does not fit to the categories that so long defined the late Stuart age. This book explores and contests challenges and reimagines the experience

embodied by the writing of the late Stuart world and invites readers new to this world and those who have often read its literatures to the pleasures but as well to the challenges and discomforts of its texts      **Tracing Your Scottish Ancestors**
