**Current Publications in Legal and Related Fields**, 1994 **Trade Secrets and Employee Mobility: Volume 44** Magdalena Kolasa, 2018-02-08 In the increasingly knowledge and innovation based economy in which the mobility of the workforce is vital employees and ex employees are considered to be one of the biggest threats to the existence of trade secrets The interests of the former parties to the employment relationship are contradictory employers want to safeguard their competitive position by limiting use of information and employees want to use that information to pursue their professional career Magdalena Kolasa analyses existing guidelines that determine the extent to which former employees may use information learned during service She proposes criteria for a balanced enforcement of trade secrets discussing the statutory and implicit confidentiality duties contractual protection and remedies Drawing from the laws of Germany UK and USA and considering the EU Trade Secrets Directive this book advocates an approach which recognises the value and functions of trade secrecy both within companies and in the context of public policy *Restraint of Trade and Business Secrets* Simon Mehigan, David Griffiths, 1986 Practical advice on all drafting and litigation problems associated with restraint of trade is provided by this comprehensive handbook Detailed guidance is given on such aspects as employment contracts business sales partnerships and joint ventures breach of contract and commercial contracts [A London Bibliography of the Social Sciences](#), 1931 Vols 1 4 include material to June 1 1929 **The British Library General Catalogue of Printed Books, 1986 to 1987** British Library, 1988 **Regulating International Sport** Lloyd Freeburn, 2018-08-07 In a fresh and original account Lloyd Freeburn challenges the conventional conception of contracts as the consent based legal foundation of international sports law The prevailing legal orthodoxy is shown to be untenable failing to explain or justify international sports governing bodies regulatory power or their control over the livelihoods and liberty of participants in sport The non consensual jurisdiction of the Court of Arbitration for Sport is similarly tainted But this significant challenge is not made simply to undermine international sport s regulatory regime A sound legal foundation for regulatory authority in sport is both desirable and necessary Consequently effective reform is urgently required to support the regime s legality and to give it legitimacy by resolving the regime s democratic deficit **Commercial Secrecy** John Hull, 1998 A one volume comprehensive analysis of the principles and practices of commercial secrecy this work not only describes the substance of the law but also sets out techniques for protecting confidences as well as suggesting effective remedies for their breach It
