# Restructuring Of American Religion Society And Faith Since World War Ii

**David Rayside**

## **Restructuring Of American Religion Society And Faith Since World War II:**

**The Restructuring of American Religion** Robert Wuthnow, 2021-02-09 The description for this book The Restructuring of American Religion Society and Faith since World War II will be forthcoming **The Restructuring of American Religion** Robert Wuthnow, 1988 A study of developments in modern American religion examines the interaction between religion and politics that has occurred in the years since World War II the polarization of religious dogma and the rise of special interest groups **Religion Returns to the Public Square** Hugh Heclo, Wilfred M. McClay, 2003-02-28 Despite talk of a naked public square religion has never really lost its place in American public life As the twenty first century opened it was re emerging in unexpected and paradoxical ways Religious institutions were considered for expanded roles in welfare and education at the same time that the limits of religious pluralism as for example in the relation of Islam to American values became a question of urgent public concern Religion Returns to the Public Square Faith and Policy in America explores how and why religion has to be mixed up with American politics Uncovering philosophical historical legal and social roots of this relationship these essays go beyond hot button issues to reflect on the current interactions and future possibilities of religion and politics in America Fundamentalisms and Society Martin E. Marty, R. Scott Appleby, 1993-03-15 A systematic overview of the advances made by antisectional religious movements over the past twenty five years and show ing the impact these movements have had on human relations education women s rights and scientific research Publisher The Rhetoric of American Civil Religion Jason A. Edwards, Joseph M. Valenzano III, 2016-09-30 The tie that binds all Americans regardless of their demographic background is faith in the American system of government This faith manifests as a form of civil or secular religion with its own core documents creeds oaths ceremonies and even individuals In The Rhetoric of American Civil Religion Symbols Sinners and Saints contributors seek to examine some of those core elements of American faith by exploring the proverbial saints sinners and dominant symbols of the American system Louis Kahn's Situated Modernism Sarah Williams Goldhagen, Sarah Goldhagen Williams, Louis I. Kahn, 2001-01-01 She demonstrates instead that Kahn s architecture is grounded in his deeply held modernist political social and artistic ideals which guided him as he sought to rework modernism into a socially transformative architecture appropriate for the postwar world **Continuing the Reformation** Ruth A. Meyers, 2000-01-01 This book documents the Episcopal Church s developing focus on baptism within the context of the liturgical movement the emerging understanding of the eucharist prayer book revision and the confirmation dilemma Drawing on historical and contemporary sources the author presents a credible case in support of her belief that a baptismal ecclesiology is emerging from these events that have enabled people to accept a radically different initiatory pattern in the church This book exhibits clarity on the issues discussed with the support of solid scholarship and lucid writing *American Protestants and TV in the 1950s* M. Rosenthal, 2007-10-01 Americans in the 1950s faced the challenge of negotiating the new medium s place in the home and in American culture in general Using

the American Protestant experience of the introduction of television Rosenthal illustrates the importance of the interplay between a new medium and its users      **Altar Call in Europe** Uta A. Balbier,2021-12-17 Billy Graham s ministry is often described as a quintessentially American success story This book however explores how Graham s encounters and perception in Europe shaped what was from the beginning on an international ministry The revival meetings which Billy Graham held in London Berlin and New York in the 1950s provided lively fora for ministers politicians and ordinary Christians to imagine and experience the future of faith the role of religion in the Cold War and the intersections between faith and consumer culture in new ways      The Concise Princeton Encyclopedia of American Political History Michael Kazin,Rebecca Edwards,Adam Rothman,2011-08-08 An essential guide to U S politics from the founding to today With 150 accessible articles written by more than 130 leading experts this essential reference provides authoritative introductions to some of the most important and talked about topics in American history and politics from the founding to today Abridged from the acclaimed Princeton Encyclopedia of American Political History this is the only single volume encyclopedia that provides comprehensive coverage of both the traditional topics of U S political history and the broader forces that shape American politics including economics religion social movements race class and gender Fully indexed and cross referenced each entry provides crucial context expert analysis informed perspectives and suggestions for further reading Contributors include Dean Baker Lewis Gould Alex Keyssar James Kloppenberg Patricia Nelson Limerick Lisa McGirr Jack Rakove Nick Salvatore Stephen Skowronek Jeremi Suri Julian Zelizer and many more Entries cover Key political periods from the founding to today Political institutions major parties and founding documents The broader forces that shape U S politics from economics religion and social movements to race class and gender Ideas philosophies and movements The political history and influence of geographic regions      A Pilgrimage of Faith John B. Toews,1993 It is now 1990 one hundred and thirty years since the birth of the Mennonite Brethren Church and therefore time for someone in that church to take a backward glance to see how things have developed Who better to do this John B Toews His life spans well over half of those years and he has experienced much of what he writes JB as he is affectionately known by both students and colleagues is a patriarchal figure in the Mennonite Brethren Church Born in Ukraine the Russian Revolution and its aftermath were the crucible that shaped his youth and young adult years After studying in Western Europe Toews immigrated to Canada in the late 1920s Much of his life has been in Mennonite Brethren educational institutions in Canada and the United States During ten years as Executive Secretary of the Mennonite Brethren Board of Missions he traveled widely and came to know Mennonite Brethren people around the world In between educational and mission administrative responsibilities he pastored in Kansas and California After retiring from the presidency of the Mennonite Brethren Biblical Seminary he became the founding Director of the Historical Commission of the Mennonite Brethren Church      Faith in America Charles H. Lippy,2006-09-30 Over the last 25 years there has been much talk of the presumed decline in religious participation in America In addition from the 1960s on surveys that mark the

influence of religion in American life have shown a mixed response Many suggest that religion is losing influence in the culture as a whole others indicate that while organized religion may be experiencing challenges spirituality is on the upswing At the same time however there have been signs that religious life in the U S is extraordinarily healthy But religion in America has changed to be sure in a number of ways And it has changed us and our culture in return This timely set looks at the major forces that are changing the shape of religion in American life With an influx of immigrants from Asia Latin America and other regions the diversity of religion has grown to include Buddhism Hinduism Islam and other faiths Latin American and African American communities have experienced changes in the ways they practice their faith and in turn influence American culture in general Women have entered the clergy in record numbers and the push for allowing women and gays to enter the clergy in religions that limit or prohibit their roles is on the increase In addition gay couples are leading the same sex marriage movement and other social issues such as abortion stem cell research end of life care etc are still being debated Interest over how people actually live out their religion or spirituality has mushroomed in recent decades thanks in part to the information revolution and popular culture What folks do when they gather together to worship and where they come together has changed dramatically with the advent of the Internet and the role of sports in American life So much has changed and faith in America has become more important than ever as part of our culture our way of life and the way we relate to each other and the world around us The essays found in these pages shed light on our understanding of these transformations and help us comprehend the enormous role of religion in our society and in our world

*Faith, Politics, and Sexual Diversity in Canada and the United States* David Rayside, 2011-04-01 For decades agitation by lesbians gays and other sexual minorities for political recognition has provoked a heated response among religious activists in both Canada and the United States In this remarkable comparative study expert authors explore the tenacity of anti gay sentiment as well as the dramatic shifts in public attitudes towards queer groups across all faith communities in both the United States and Canada They conclude that despite the ongoing conflict religious adherence does not invariably entail opposition to the political acknowledgment of queer rights

**Faith-Based Policy** John Chandler, 2013-12-16 In 2001 George W Bush created the White House Office of Faith Based and Community Initiatives The driving force behind the policy was to create a level playing field where faith based organizations could compete on an equal footing with secular organizations for government funding of social aid programs Given on the one hand the continuation of faith based policy under Barack Obama and on the other the continued support by the vast majority of the American people for some form of such policy the need has emerged to clearly understand what this policy is and the issues that it raises Why First because the policy reveals new paradigms that explode traditional political and religious designations such as conservative liberal or evangelical progressive Secondly it is a policy which is setting precedents that with time will only become more entrenched in the institutional fabric of American government and the values of the culture Finally it does not seem to be a policy that is likely to just go away And if it won t go

away then how should responsible policy be conducted While John Chandler s Faith Based Policy A Litmus Test for Understanding Contemporary America responds to this need to understand it also acknowledges that there is already a substantial amount of documentation available which taken together provides a comprehensive though sometimes biased picture of faith based policy This book contributes a relatively brief impartial analysis that draws on and synthesizes the available information More specifically in order to dissipate the confusion surrounding the perceptions that many have had concerning the intention and meaning of the policy this book provides insight into 1 the theological visions of the faith based actors behind the policy 2 how these actors have tried to apply these visions as the program has evolved in the 2000s 3 the divisiveness and debate that has characterized the faith based experiment and 4 how all of the above may be held up for contemplation by the reader as a mirror of developing American culture

**Rough Country** Robert Wuthnow, 2016-04-05

How the history of Texas illuminates America s post Civil War past Tracing the intersection of religion race and power in Texas from Reconstruction through the rise of the Religious Right and the failed presidential bid of Governor Rick Perry Rough Country illuminates American history since the Civil War in new ways demonstrating that Texas s story is also America s In particular Robert Wuthnow shows how distinctions between us and them are perpetuated and why they are so often shaped by religion and politics Early settlers called Texas a rough country Surviving there necessitated defining evil fighting it and building institutions in the hope of advancing civilization Religion played a decisive role Today more evangelical Protestants live in Texas than in any other state They have influenced every presidential election for fifty years mobilized powerful efforts against abortion and same sex marriage and been a driving force in the Tea Party movement And religion has always been complicated by race and ethnicity Drawing from memoirs newspapers oral history voting records and surveys Rough Country tells the stories of ordinary men and women who struggled with the conditions they faced conformed to the customs they knew and on occasion emerged as powerful national leaders We see the lasting imprint of slavery public executions Jim Crow segregation and resentment against the federal government We also observe courageous efforts to care for the sick combat lynching provide for the poor welcome new immigrants and uphold liberty of conscience A monumental and magisterial history Rough Country is as much about the rest of America as it is about Texas

**Contending for the Faith** Daniel Richard Barnett, 2002 Examines how a southern evangelical denomination was able to become the second largest religious body in a region characterized by cultural racial and religious pluralism and the effect this had on their structure and beliefs

**The Re-forming Tradition** Milton J. Coalter, John M. Mulder, Louis Weeks, 1992-01-01 This book challenges American Presbyterians to remember their calling as Christians The author believes that Presbyterians are summoned to a character of life that will awaken and address the religious questions of today with powerful and persuasive Christian perspectives and answers By recognizing again the message of the good news of the gospel and by speaking directly to our world the authors tell how American Presbyterians can recover their identity as

Reformed Christians and continue to make a creative contribution to the witness of the church in the world Through its examination of American Presbyterianism the Presbyterian Presence series illuminates patterns of change in mainstream Protestantism and American religious and cultural life in the twentieth century

**The Cursillo Movement in America** Kristy Nabhan-Warren, 2013 The internationally growing Cursillo movement or short course in Christianity founded in 1944 by Spanish Catholic lay practitioners has become popular among American Catholics and Protestants alike This lay led weekend experience helps participants recommit to and live their faith Emphasizing how American Christians have privileged the individual religious experience and downplayed denominational and theological differences in favor of a common identity as renewed people of faith Kristy Nabhan Warren focuses on cursillistas those who have completed a Cursillo weekend to show how their experiences are a touchstone for understanding these trends in post 1960s American Christianity Drawing on extensive ethnographic fieldwork as well as historical research Nabhan Warren shows the importance of Latino Catholics in the spread of the Cursillo movement Cursillistas stories she argues guide us toward a new understanding of contemporary Christian identities inside and outside U S borders and of the importance of globalizing American religious boundaries

The Postmodern Life Cycle Friedrich Schweitzer, 2012-11 A theology in tune with postcolonial theory has the potential to creatively inform and transform ecclesial practice Focusing on the relation of theology to postcolonial theory Postcolonial Theologies brings together a wide diversity of authors many of them fresh and exciting theological voices in essays that are stunningly creative and prophetically lucid All essays are theologically constructive not merely deconstructive or critical in their visions for Christianity Forming a sort of doctrinal landscape they emerge under the themes of the theological anthropology shaped by ethnicity class and privilege a Christology that intersects the claims of Christ and empire and a Cosmology that imagines a postcolonial world

**A New History of Christianity** Vivian Hubert Howard Green, 2000-03-03 Written from an objective historical perspective A New History of Christianity provides the best readable yet scholarly one volume account of Christianity from its origins to the present day Chapters cover Christian beginnings the growth of the early Christian communities the character of the medieval Church popular religion the Protestant Reformation the Catholic Reformation the early modern Church the Church in the nineteenth century the Church in war and peace and the crisis of the modern Church
