Restructuring Societies Insights From The Social Sciences:

Restructuring Societies David B. Knight, Alun E. Joseph, 1999-04-23 A wide range of social scientific perspectives from anthropology geography history and Indigenous studies to politics psychology and sociology are represented here The effects of restructuring processes in Canada and New Zealand are particularly well documented and the importance of words and their manipulation is emphasized but it is the broad sweep of approach that distinguishes this work from more abstract or interdisciplinary commentaries on restructuring Feature essays one by former Ontario premier Bob Rae on conservative and radical resistance to abuses of power and two on aboriginal First Nations issues challenge important public policy trends Restructuring Societies takes crucial steps toward developing informed public debate about a process that affects us all

Landscapes of Voluntarism Christine Milligan, David Conradson, 2011 The appeal of voluntary action as a solution to growing welfare needs in advanced capitalist countries raises important questions about the social impacts and spatial equity of such provision For the first time these issues are addressed within a single book exploring the complex relationship between voluntary action society and space *International Encyclopedia of Human Geography*, 2009-07-16 The International Encyclopedia of Human Geography provides an authoritative and comprehensive source of information on the discipline of human geography and its constituent and related subject areas The encyclopedia includes over 1 000 detailed entries on philosophy and theory key concepts methods and practices biographies of notable geographers and geographical thought and praxis in different parts of the world This groundbreaking project covers every field of human geography and the discipline's relationships to other disciplines and is global in scope involving an international set of contributors Given its broad inclusive scope and unique online accessibility it is anticipated that the International Encyclopedia of Human Geography will become the major reference work for the discipline over the coming decades The Encyclopedia will be available in both limited edition print and online via ScienceDirect featuring extensive browsing searching and internal cross referencing between articles in the work plus dynamic linking to journal articles and abstract databases making navigation flexible and easy For more information pricing options and availability visit http://info.sciencedirect.com/content/books_ref_works coming Available online on ScienceDirect and in limited edition print format Broad interdisciplinary coverage across human geography Philosophy Methods People Social Cultural Political Economic Development Health Cartography Urban Historical Regional Comprehensive and unique the first of its kind in human geography **Dregs** Laura McLauchlan, 2025-03-27 Girls who join dog packs boys who gain strength from trees men who love bodies with nobody in them Dregs is a collection of tenderly monstrous love stories set in a shadowy small town of the same name Based in South Canterbury New Zealand these lovingly disturbing fictions welcome the strange and other worldly while keeping an ethnographic eye trained on the classed religious gendered racialised and species based forces shaping this rural region of New Zealand's South Island While at times grotesque these darkly loving richly illustrated tales offer new avenues for

ethnographic research and shed new light on the region giving voice and form to unspoken aspects of this antipodean rural idyll Shaped by a deep respect for the monstrous feminine regardless of the gender of the bodies in which such forces appear Dregs Love and Monsters in Small Town New Zealand is a product of both an anthropological sensibility and a trust that naming and finding ways to live well with our monsters is a vital aspect of living well in our times The Sustainability of Rural Systems I.R. Bowler, C.R. Bryant, C. Cocklin, 2013-06-29 Economy society and environment comprise the three main dimensions of sustainable development but too often they are considered separately This book by comparison examines the interaction of the three dimensions in the context of rural systems embracing a wide range of topics including globalisation and reregulation in sustainable food production conservation and sustainability the development of sustainable rural communities and sustainable rural urban interaction An international team of geographers drawn from the International Geographical Union's Commission on The Sustainability of Rural Systems summarises the basis of unsustainable rural development in these topics the remedial policies being pursued and their own evaluations of the policies Rather than deal just with generalisations their analyses are illustrated by detailed case studies drawn from a variety of rural systems in both developed and developing countries Contingent Work, Disrupted Lives Anthony Winson, Belinda Leach, 2002-01-01 The new rural economy involves a fundamental shift in the stability and security of people's lives and ultimately causes wrenching change and an arduous struggle as rural dwellers struggle to rebuild their lives in the new economic terrain *The SAGE Handbook of Qualitative Research* Norman K. and tradition as regimes of truth Concepts such as discovery and claiming are discussed and an argument presented that the decolonization of research methods will help to reclaim control over indigenous ways of knowing and being Now in its eagerly awaited third edition this bestselling book includes a co written introduction and features contributions from indigenous scholars on the book s continued relevance to current research It also features a chapter with twenty five indigenous projects and a collection of poetry
